**Credit Score** Mark Bresett,2017-09-29 Did you know that only 0.5% of consumers have perfect credit scores? Would you like to be one of them, regardless of what your credit score is current? Credit Score: How to Remove all Negative Items from Your Credit Report and Boost Your Credit Score by 100 Points in 30 Days or Less will reveal credit industry secrets for maximizing your credit score. The best part? You will get results in just 30 days or less. The opportunities afforded to those with a great credit score are hard to argue against. Very few opportunities are available to an individual that creditors and other financial institutions consider to be too risky to deal with. Employers also will be wary of a person with less than perfect credit because they may be seen as untrustworthy or likely to harm the companies that would hire them. On top of this studies have shown that credit is a significant factor in the likelihood of two people being romantically compatible. The simple truth is that good credit is extremely valuable, perhaps even more valuable than a person's actual net worth, and therefore people should make every concerted effort possible to make sure that their credit not only is in good standing but that it remains that way for as long as they can. This is not a difficult goal to achieve. It does not take much time at all as permanent positive changes can take effect immediately in some cases. It also does not take much effort. Credit reports and credit scores can be obtained for free with less strenuous work than it takes to microwave popcorn, and with those two simple pieces of information anybody is able to begin making necessary changes that will have huge financial benefits to their lives. Within this book you will find: The differences between a FICO score, credit score, and credit report What formulae creditors use to determine credit scores How to obtain a free credit report What it takes to reduce and eventually eliminate debt The importance of steady credit monitoring How mistakes made by creditors can hurt you How refinancing can help your credit The number of credit cards a person should own How to game the FICO score for your benefit The significance of a kindly worded written letter And so much more! If you are tired of missing out on opportunities that you have worked hard to achieve, if you wish that you could live in a better apartment or even purchase a home for the first time, or if you want the knowledge to reduce your debts so you can start living a more financially secure life then this is the book you need to read.

**101 Powerful Tips For Legally Improving Your Credit Score** Max Editorial, 2023-06-06 LIGHTNING PROMOTION "\*\*\*\*\*"  
There are many misconceptions about credit scores out there. There are customers who believe that they don't have a credit score and many customers who think that their credit scores just don't really matter. These sorts of misconceptions can hurt your chances at some jobs, at good interest rates, and even your chances of getting some apartments. The truth is, if you have a bank account and bills, then you have a credit score, and your credit score matters more than you might think. Your credit score may be called many things, including a credit risk rating, a FICO score, a credit rating, a FICO rating, or a credit risk score. All these terms refer to the same thing: the three-digit number that lets lenders get an idea of how likely you are to repay your bills. Every time you apply for credit, apply for a job that requires you to handle money, or even apply for some more exclusive types of apartment living, your credit score is checked. In fact, your credit score can be checked by anyone with a legitimate business need to do so. Your credit score is based on your past financial responsibilities and past payments and credit, and it provides potential lenders with a quick snapshot of your current financial state and past repayment habits. In other words, your credit score lets lenders know quickly how much of a credit risk you are. Based on this credit score, lenders decide whether to trust you financially - and give you better rates when you apply for a loan. Apartment managers can use your credit score to decide whether you can be trusted to pay your rent on time. Employers can use your credit score to decide whether you can be trusted in a high-responsibility job that requires you to handle money. The problem with credit scores is that there is quite a bit of misinformation circulated about, especially through some less than scrupulous companies who claim they can help you with your credit report and credit score - for a cost, of course. From advertisements and suspect claims, customers sometimes come away with the idea that in order to boost their credit score, they have to pay money to a company or leave credit repair in the hands of so-called "experts." Nothing could be further from the truth. It is perfectly possible to pay down debts and boost your credit on your own, with no expensive help whatsoever. In fact, the following 101 tips can get you well on your way to boosting your credit score and saving you money. By the end of this ebook, you will be able to:
