Communication Technology Update and Fundamentals August E. Grant,J Rion McKissick Professor of Journalism August E Grant,Jennifer H. Meadows,2013-09-05 New communication technologies are being introduced at an astonishing rate. Making sense of these technologies is increasingly difficult. Communication Technology Update and Fundamentals is the single best source for the latest developments, trends, and issues in communication technology. Featuring the fundamental framework along with the history and background of communication technologies, Communication Technology Update and Fundamentals, 12th edition helps you stay ahead of these ever-changing and emerging technologies. As always, every chapter has been completely updated to reflect the latest developments and market statistics, and now covers digital signage, cinema technologies, social networking, and telepresence, in addition to the dozens of technologies explored in the previous edition. The book also features industry structure and regulation, history, and theory along with full coverage of the latest technologies! The book's companion website (<http://commtechupdate.com>) offers updated information submitted by chapter authors and offers links to other Internet resources.

Digital Culture & Society (DCS) Ramón Reichert,Annika Richterich,Pablo Abend,Mathias Fuchs,Karin Wenz,2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.
