**Treatment of Functional Seizures in Children and Adolescents** Blanche Savage,Catherine Chudleigh,Clare Hawkes,Stephen Scher,Kasia Kozłowska,2022-12-24 In this treatment manual for functional seizures in children, adolescents, and young adults – ‘young people’ – we present the program developed by the mind-body team at The Children’s Hospital at Westmead, a tertiary care paediatric hospital located in New South Wales, Australia. The team’s Mind-Body Program, organised as part of a consultation-liaison psychiatry service within the Department of Psychological Medicine, works with young people, up to the age of 18 years, who present with functional somatic symptoms, including functional seizures. This manual describes the treatment interventions we

have developed over the last 20 years through clinical trial and error, by translating research findings into our clinical practice, and by evaluating our own treatment interventions through prospective cohort studies.

**Eating Disorders** Vivienne Lewis, 2023-08-15

Eating disorders involve complex psychological processes linked to self-worth that may challenge many mental health and allied practitioners, no matter how experienced. It is a topic little taught in clinical practice, and much of the information on the subject can seem contradictory or even inaccurate. Yet it is vital when working with such a client to have a solid understanding of what helps people improve their relationship with food and feel good about their bodies and themselves. Based on extensive clinical experience and the latest evidence base, this new work from noted eating disorder specialist Dr Vivienne Lewis supports mental health practitioners who may be unsure how best to handle the issue in their daily practice. Throughout the book, clients' voices shine through in numerous brief real-life stories, illustrating the personal and practical impacts of eating disorders and successful recovery. It is relevant for psychologists, counsellors, nurses,

youth workers, psychiatrists, doctors, dieticians and trainees and includes sections on: • Understanding complex client presentations. • Challenging common myths about eating disorders. • Structuring therapeutic sessions. • Motivating clients to change. • The importance of supervision. Clinical psychologist Dr Vivienne Lewis has spent more than 20 years in private practice and academia, specialising in treating people with eating disorders and training other health professionals. Her knowledge, skills and compassion have helped children, young people, and adults face and defeat the destructive mental and physical effects of eating disorders and improve body image. Vivienne knows the professional challenges of working with these clients well but also understands the reward for practitioners is seeing someone who is very unwell go on to live a healthy and fulfilling life.
