A Breast Cancer Alphabet Madhulika Sikka, 2014-02-25 A definitive and approachable guide to life during, and after, breast cancer The biggest risk factor for breast cancer is simply being a woman. Madhulika Sikka's A Breast Cancer Alphabet offers a new way to live with and plan past the hardest diagnosis that most women will ever receive: a personal, practical, and deeply informative look at the road from diagnosis to treatment and beyond. What Madhulika Sikka didn't foresee when initially diagnosed, and what this book brings to life so vividly, are the unexpected and minute challenges that make navigating the world of breast cancer all the trickier. A Breast Cancer Alphabet is an inspired reaction to what started as a personal predicament. This A-Z guide to living with breast cancer goes where so many fear to tread: sex (S is for Sex - really?), sentimentality (J is for Journey - it's a cliché we need to dispense with), hair (H is for Hair - yes, you can make a federal case of it) and work (Q is for Quitting - there'll be days when you feel like it). She draws an easy-to-follow, and quite memorable, map of her travels from breast cancer neophyte to seasoned veteran. As a prominent news executive, Madhulika had access to the most cutting edge data on the disease's reach and impact. At the same time, she craved the community of frank talk and personal insight that we rely on in life's toughest moments. This wonderfully inventive book navigates the world of science and story, bringing readers into Madhulika's mind and experience in a way that demystifies breast cancer and offers new hope for those living with it.

**A Baronial Family in Medieval England** Michael Altschul, 1965-12-20 Originally published in 1965. In *A Baronial Family in Medieval England: The Clares, 1217-1314*, Michael Altschul studies the Clare family during the thirteenth century. The Clares spearheaded the struggle to enforce Magna Carta in the Barons' War. Historians prior to Altschul tended to neglect the Clares' history given the scattered nature of the archives documenting their time as a politically influential and powerful family. This book unfolds chronologically, outlining the Clares' rise to preeminence and

describing how they administered their estates and income.

*How Doctors Think* Jerome Groopman, 2008-03-12 On average, a physician will interrupt a patient describing her symptoms within eighteen seconds. In that short time, many doctors decide on the likely diagnosis and best treatment. Often, decisions made this way are correct, but at crucial moments they can also be wrong—with catastrophic consequences. In this myth-shattering book, Jerome Groopman pinpoints the forces and thought processes behind the decisions doctors make. Groopman explores why doctors err and shows when and how they can—with our help—avoid snap judgments, embrace uncertainty, communicate effectively, and deploy other skills that can profoundly impact our health. This book is the first to describe in detail the warning signs of erroneous medical thinking and reveal how new technologies may actually hinder accurate diagnoses. *How Doctors Think* offers direct, intelligent questions patients can ask their doctors to help them get back on track. Groopman draws on a wealth of research, extensive interviews with some of the country's best doctors, and his own experiences as a doctor and as a patient. He has learned many of the lessons in this book the hard way, from his own mistakes and from errors his doctors made in treating his own debilitating medical problems. *How Doctors Think* reveals a profound new view of twenty-first-century medical practice, giving doctors and patients the vital information they need to make better judgments together.

**Medieval Colonialism** Robert Ignatius Burns, 2015-03-08 This first major study of tax structure in pre-Renaissance Spain gives new insight into the condition of the conquered people of postcrusade Valencia. Drawing on tax records, it provides the reader with a fascinating glimpse of life among the thirteenth century Mudejars. By showing the financial links between a medieval ethnic enclave and the dominant society, the author illuminates aspects of intergroup relations that

have previously been neglected. This volume is the second in the author's trilogy on Muslim society in Eastern Spain. Originally published in 1976. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

From Tiberius to the Antonines (Routledge Revivals) Albino Garzetti, 2014-06-17 The first two centuries of the Christian era were largely a period of consolidation for the Roman Empire. However, the history of the heyday of Roman imperium is far from dull, for Augustus' successors ranged from capable administrators - Tiberius, Claudius and Hadrian - to near-madmen like Caligula and the amateur gladiator Commodus, who might have wrecked the system but for its inherent strength. Albino Garzetti's classic *From Tiberius to the Antonines*, first published in 1960, presents a definitive account of this fascinating period, which combines a clear and readable narrative with a thorough discussion of the methodological problems and primary sources. Regarding difficult

historical questions, it can be relied upon for careful and reasonable judgments based on a full mastery of an immense amount of material. Nearly three hundred pages of critical notes and a comprehensive bibliography complement the text, ensuring its continuing relevance for all students of Roman history.
