The Rewindable Clock Aaron Starmer, 2020 When Keisha James forgets to do her science homework, Locker 37 gifts her with a clock that can rewind time--how will she use her second (or third...or fourth) chances?

Off the Clock Laura Vanderkam, 2018-05-29 I well recall a conversation with an executive I hoped to interview about her astonishing productivity. I began our call with an assurance that I would not take much of her time. She laughed. 'Oh, I have all the time in the world,' she said. Most of us feel constantly behind, unsure how to escape feeling oppressed by busyness. Laura Vanderkam, unlike other time-management gurus, believes that in order to get more done, we must first feel like we have all the time in the world. Think about it: why haven't you trained for that 5K or read War and Peace? Probably because you feel beaten down by all the time you don't seem to have. In this book, Vanderkam reveals the seven counterintuitive principles the most time-free people have adopted. She teaches mindset shifts to help you feel calm on the busiest days and tools to help you get more done without feeling overwhelmed. You'll meet people such as... ♦ An elementary school principal who figured out how to spend more time mentoring teachers, and less time supervising the cafeteria ♦ An executive who builds lots of meeting-free space into his calendar, despite managing teams across multiple continents ♦ A CEO who does focused work in a Waffle House early in the morning, so he can keep an open door and a relaxed mindset all day ♦ An artist who overcame a creative block, and reached new heights of productivity, by being more gentle with herself, rather than more demanding The strategies in this book can help if your life feels out of control, but they can also help if you want to take your career, your relationships, and your personal happiness to the next level. Vanderkam has packed this book with insights from busy yet relaxed professionals, including time makeovers of people who are learning how to use these tools. *Off the Clock* can inspire the rest of us to create lives that are not only productive, but enjoyable in the moment.

Becoming Friends of Time John Swinton, Professor of Practical Theology and Pastoral Care John Swinton, 2018-01-15 Time is central to all that humans do. Time structures days, provides goals, shapes dreams--and limits lives. Time appears to be tangible, real, and progressive, but, in the end, time proves illusory. Though mercurial, time can be deadly for those with disabilities. To participate fully in human society has come to mean yielding to the criterion of the clock. The absence of thinking rapidly, living punctually, and biographical narration leaves persons with disabilities vulnerable. A worldview driven by the demands the clock makes on the lives of those with dementia or profound neurological and intellectual disabilities seems pointless. And yet, Jesus comes to the world to transform time. Jesus calls us to slow down, take time, and learn to recognize the strangeness of living within God's time. He calls us to be gentle, patient, kind; to walk slowly and timefully with those whom society desires to leave behind. In *Becoming Friends of Time*, John Swinton crafts a theology of time that draws us toward a perspective wherein time is a gift and a calling. Time is not a commodity nor is time to be mastered. Time is a gift of God to humans, but is also a gift given back to God by humans. Swinton wrestles with critical questions that emerge from theological reflection on time and disability: rethinking doctrine for those who can never grasp Jesus with their intellects; reimagining discipleship and vocation for those who have forgotten who Jesus is; reconsidering salvation for those who, due to neurological damage, can be one person at one time and then be someone else in an instant. In the end, Swinton invites the reader to spend time with the experiences of people with profound neurological disability, people who can change our perceptions of time, enable us to grasp the fruitful rhythms of God's time, and help us learn to live in ways that are unimaginable within the boundaries of the time of the clock.

Clock Out and Heal Gina Sanguinetti,2023-12-05 We're doing everything possible, the doctor would say at times to the parents as he continued the resuscitation efforts on their little girl. Expect the unexpected when you are a medical professional or a first responder. We clock into work and treat those who are sick. We see all types of death at every age. Added to that stress is the ever-changing demands of those who make and enforce regulations that govern the way that we practice. We are in it to win it for our patients. For the past twenty seven years, I work as a respiratory therapist. I clock in, work my best, then clock out and try to bury and forget the stress from my work day. But you don't forget, the memories of trauma are rude, and they will emerge again when you least expect it. Inside are actual stories of births, deaths, COVID 19, and more, bringing awareness of what we see and do. Can we truly ever clock out and heal?

30-Something and the Clock Is Ticking Kasey Edwards,2011-04-07 When Kasey Edwards discovers she'll be infertile within a year, she is forced to bring the baby issue to the forefront of her mind. In *30-Something and the Clock Is Ticking*, she explores what having a child would mean to her identity, her career, her body, her relationships and her mental health. Kasey speaks to people who have children and people who don't, women who claim motherhood is the best thing they've ever done and those who say it's the worst. She discovers how the desire for a baby can drive people to the brink of insanity, the logistical challenges of ovulating and trying to conceive on a longhaul flight, the indignity and despair of IVF and the price of buying sperm on the Internet. This witty memoir will make you laugh, cry and ponder the joys and regrets of motherhood. It will inspire you to tackle the baby issue head-on and on your own terms, rather than letting time, denial and social pressures make the decision for you.

The Enchanted Grandfather's Clock Charlotte Jones,2016-02

A Clock Without Hands Guy Burt,2007-12-18 “I want to turn back the hands on the clock and change it

all, make it different; three friends who meet up by chance in an old city and share a beer and laugh at old stories and jokes. But it wasn't like that; and the clock has no hands, so I can't turn them back." [p.171] Alex Carlise has returned to a place he thought he'd never see again, outside of his dreams. As he walks the ochre-dusted road to the house in which he grew up, the memories of his young life in a small Italian town push all other thoughts out of his head: thoughts about the major exhibition of his artwork opening soon in London, thoughts of the myriad things he should be doing in preparation—everything subsides to make room for the warm flood of a time long past. When he opens the door to the now-deserted house, he is suddenly seven again. There is Jamie, his first friend, his best friend; Anna, his first love; and the delicious days they spent exploring the valley and swimming in the cerulean blue Mediterranean Sea. It all comes back to Alex in a way he can neither control nor discern. But the memories are insistent, demanding. Soon Alex loses entire hours to the past, overwhelmed by the haunting memories of a youth turned tragic. Alex remembers the day he, Jamie, and Anna went to their favorite place, an abandoned church far up in the hills. There they stumbled upon a man, injured and sick. From this discovery, a series of events tumbled forth that would change them all forever. Alex now realizes that he must confront the truth about himself, about the echoes of the past that still haunt him, and about the friends whose legacy has meant only devastation. Guy Burt's vision of youth is piercingly accurate, and his sense of how time can play tricks on the mind is startling. Haunting, eerie, and remarkably assured, *The Clock Without Hands* will resonate with the child that hides inside your own memories.

The Ticking Clock Tina Ramirez, 2021-06-10 This book was inspired from a memory about the author's grandfather who was her hero and best friend growing up. He was always very calm and always saw things in a different view that would make you see how special we truly are. He taught the author a lot about life and how blessed we are even when things may not be the best because we can make the best out of the small things. My grandfather spent a lot of time on this earth making everyone feel special in their own ways and was very clear that time is very important, this book explains how important time is and how time can pass us very quickly if we take it for granted. The presence of the clock is a reminder that we should enjoy the small things in this life before our clocks stop ticking, make it memorable and make an impact because even if it's a small one for you, it can be big for others.
