*Northern Wei (386-534)* Scott Pearce,2023 This is a study of an Inner Asian people called the \*Taghbach (Ch. Tuoba), who half a century after collapse of the Han state (206 BCE-220 CE) began the process of building a new kind of empire in East Asia. Though addressing larger historiographical issues, the book's main purpose is, within the limits of our sources, to see this people in and of themselves, in a detailed narrative that follows them from the emergence of the khan Liwei in the mid-third century, in the highland frontier between Inner Asia and the Chinese world, and ends almost three hundred years later, with the drowning of the dynasty's last matriarch in the Yellow River. Across the centuries, they repeatedly changed their name, nature and location. What remained relatively consistent, however, was their reliance on cavalry armies, filled with loyal men of Inner Asian origin. When that ended, the dynasty ended as well. Underlying the narrative are two main issues. One is that Northern Wei was the first major example of a kind of empire seen often in East Asian histories, the conquest dynasties, regimes of Inner Asian origin which would over the centuries repeatedly seize control of territories inhabited for the most part by Chinese to create cultural and ethnically complex state systems. The second is historiographical: that this dynasty was renamed and reimagined to fit into the textual tradition of its Chinese subjects. Being our only primary written sources for the dynasty, these texts are here used with care--

**How to Read Buddhist Art** Kurt Behrendt,2019-11-29 Intended to inspire the devout and provide a focus for religious practice, Buddhist artworks stand at the center of a great religious tradition that swept across Asia during the first millennia. How to Read Buddhist Art assembles fifty-four masterpieces from The Met collection to explore how images of the Buddha crossed linguistic and cultural barriers, and how they took on different (yet remarkably consistent) characteristics in India, Pakistan, Afghanistan, the Himalayas, China, Korea, Japan, Sri Lanka, Thailand, Cambodia, and Indonesia. Works highlighted in this rich, concise overview include reliquaries, images of the Buddha that attempt to capture his transcendence, diverse bodhisattvas who protect and help the devout on their personal path, and representations of important teachers. The book offers the essential iconographic frameworks needed to understand Buddhist art and practice, helping the reader to appreciate how artists gave form to subtle aspects of the teachings, especially in the sublime expression of the Buddha himself.

**1000 Buddhas of Genius** T.W. Rhys Davids Ph.D. LLD.,Victoria Charles,2014-11-24 „All living beings are Buddhas and have wisdom and virtue within them. (Buddha) Buddha ranks among the most often depicted holy figures of the world perhaps appearing more than Christ, a subject widely treated by Western artists. Venerated in all the nations of Asia, and even beyond, his image took form along the Silk Road, the birthplace of many schools of Buddhism. Indeed, the Buddhist religion recognises many Buddhas representing various traditions: such as Buddhism of „the Ancient Teaching‰ (Theravada), of „the Great Vehicle‰ (Mahayana) and Tantric Buddhism (Varjrayana). A figure adored by all, Buddha has been depicted in every art form: sculpture, often of monumental size, like the now destroyed Buddhas of Bamyan, painting, and above all in countless cave murals, such as those of Ajanta in India or Dunhuang in China. Perfect for all those passionate about Asian art, from neophytes to Buddhists, this fascinating work invites the reader to discover or rediscover Buddha, his history, his codes, but also his innumerable faces through one thousand representations selected from among the most beautiful works held in the worldÊs greatest museums.

*Time and Space in Chinese Culture* Chun-chieh Huang,Erik Zürcher,2021-09-13 All cultures and times have their own notions of time and space. Being one of the fundamental ideas in every society they influence virtually every aspect of society. In this book the authors explain the notions of time and space in China, how culturally concrete and particularly Chinese they are and how significant such Chinese cultural-ness of these notions is. Seventeen scholars of various disciplinary backgrounds have treated topics within this general perspective in a comprehensive way.

*China's New Underclass* Xinying Hu,2013-07-03 This book examines the implications of China’s economic reforms for domestic work and domestic workers. The author examines the factors that give rise to paid domestic work in a socialist economy, and goes on to look at the need for social protection of domestic workers within cities in contemporary China. Using a socialist feminist approach, the book investigates how China's economic restructuring has deliberately crafted a domestic service sector from the top-down. Through the analysis of the situation of paid domestic labour, it demonstrates how the changes in socialist ideology under a market economy have justified the state’s support for paid domestic labour; the large role of the state in these ideological changes; and how domestic labour is related to economic changes and the market economy itself. The book argues that state’s economic reforms have changed gender and class relations in Chinese society. Based on interviews with domestic workers, their employers, their social advocates, and government officials, this book examines the economic and social security of domestic workers and provides information about their precarious working conditions that could be improved through public policy. It also explores

women’s agency and activism, and the current role of NGOs and trade unions in labour protection.
