Indian Views of the Custer Fight Richard G. Hardorff,2005-03-01 A much-neglected source of first-hand views on the Battle of the Little Bighorn is presented in this third and final volume of Indian testimony collected by award-winning author Richard G. Hardorff. Like its companion volumes, *Lakota Recollections* and *Cheyenne Memories*, *Indian Views* offers thirty-five interviews and statements from Indians who were eyewitnesses to the battle. Here is the story of the battle as told through the observations of twenty-nine Sioux and nine Cheyennes, from the point at which the soldiers were first detected on their march toward the Indian settlement, to the bitter end, as the Indians packed up and moved their camps. Interviews, narratives, and statements by Crazy Horse, Crow King, Two Moons, and Turning Hawk are only a few of the accounts given, extracted from letters, newspaper stories, Army reports, and manuscripts. The prologue and epilogue contain the impressions of three Seventh Cavalry soldiers, while the appendix presents Walter M. Camp's analytical conclusions of General Terry's order to Custer. Their combined efforts resulted in a valuable contribution to the historiography of one of the most dramatic and controversial episodes in our military history. Extensive notes provide in-depth analysis of sometimes conflicting statements regarding soldiers' identities, based on their clothing, positioning, and Indian accounts. Detailed background on the combatants is given as well as commentary on the number of Indian casualties in the fight. The eight maps which accompany these accounts illustrate the positions of fighters throughout the battle. This collection of primary source material, originally obtained by Army personnel, newspaper correspondents, anthropologists, and historians, is a must for any scholar of the Battle of the Little Bighorn and an important addition to the literature leading to a better perspective of the events of the summer of 1876.

Best Friends Terri Apter,Ruthellen Josselson,2010-02-10 *Best Friends* provides the missing link to understanding and recognizing the impact of some of the most important relationships in girls' and women's lives. Every woman remembers the sting of betrayal of a girlfriend, and every parent of a daughter has seen her come home from school in tears because a girl she thought was her best friend suddenly and inexplicably became her enemy. While boys hash out differences with fists and kicks, girls' societies are marked by secrets and whispers and shifting affection. The lessons learned as an adolescent girl are often carried into adulthood, making women fear confrontation—especially with other women. But the intensity of the struggles reflects the support and healing to be found within these friendships. Girls find themselves in the mirror of other girls, hence the power each has to influence the other. Ruthellen Josselson and Terri Apter's many years of working with hundreds of girls and women have given them insight into the emotionally important relationships that are integral to a girl's self-image. *Best Friends* explores the bonds of friendship between girls and between women and the sorrows and joys they experience together, from early adolescence and throughout their lives.

The Friendships of Women Dee Brestin,1997-06 This Tenth Anniversary Edition of *The Friendships of women* updates the classic that transformed the way women think about their friendships. In addition, a personal or small group study guide has been added to the close of each chapter.
