Medical Astrology for Beginners Arun Bansal, The diseases are the result of our past karmas and indicated by weak and afflicted planets. This can be easily understood by an astrologer. Therefore every book on astrology has discussed the diseases and yogas for these diseases are scattered throughout the astrological literature. Some of these Yogas have been compiled in this book for the intelligent readers with the observations and experiences of author. Author has used the astrology for the purpose of diagnosis as other laboratory tests, MRI and CAT SCAN etc. It gave good results to understand whether the chronic diseases are curable or not. Moreover it has helped to understand the time period of onset of the disease which no other science can explain. Therefore astrology is science of sciences. One must be careful while predicting diseases because so many factors are involved in prediction. Only the yoga for disease is not sufficient. If the yoga is aspected by benefic planets, the results will be nullification of malefic influence. The disease depends on the strength of the disease producing planets. Even if a disease may be indicated from a house from lagna but from Moon and navamsha lagna the same house is strong and lord is fortified, the malefic influence may get cancelled. Therefore while judging one must consider the house, lord of house and karaka of the house, rashish where the lord of house is posited i.e. dispositor, and navamshesh, the lord of house in navamsha chart where the lord of the house is posited, and relationship in navamsha chart between lagna lord and lord of the house into consideration from lagna, Moon, navamsha lagna and nakshatra of the planet in which he is posited. One must take into consideration the nature and qualities of the planets causing the disease; functional benefic or malefic to the lagna house in which they are posited. The benefic planet will certainly cause less harm than the malefic planet. The relationship between the two planets also affects the disease producing capacity. The relationship is also natural and functional. The aspect and conjunction of the planets should also be taken into consideration. The retrograde malefic planet is more powerful in causing diseases than the normal malefic planet. The retrograde benefic planet does not protect the native. When a benefic planet is lord of maraka house and posited in that house, it becomes strong maraka planet. Keeping the above factors into consideration we can predict the timing of onset of diseases with the help of dasha system and Gochar. The most common dasha system employed is Vimshottari dasha system. Still we can divided the timing of diseases into: 1. Yogas present in the horoscope 2. Dasha/bhukti/Paratyantar dasha 3. Transit (Gochar) 4. Horary All these factors have been discussed in this book in detail.

Vaastu: The Art And Science Of Living Ashwini Kumar, 2005-11-01 Vaastu Shastra is the art and science of living a happy and contented long life. In the modern-day world of high-speed technology, many diseases are arising out of faulty lifestyles. Classical principles of Vaastu Shastra describe the ancient way of living which need modifications in the present-day context. This book is an intelligent amalgamation of the ancient practice of Vaastu living and modern technologies of house building and architecture. It offers an introduction to Vaastu Shastra, systematising and standardising its techniques and methodologies. The book has been divided into three sections. The first section has been devoted to the understanding of the key concepts, principles and forces of Vaastu that exert an influence on any given space. The second section of the book reveals how to create heaven on earth; right in your home. It shows how we can achieve internal peace by first achieving external peace in the house. The third section is related to the day-to-day use of Vaastu. One chapter has been devoted to Vaastu of workplace which, in many aspects, is different from residential Vaastu. This book has been written according to the established principles of Vedic Astrology; an inevitable part of Vaastu Shastra. The effect of the nine planets is considered in Astrology while mainly the effect of planet earth is taken in Vaastu. Astrology depends on dashas (Planetary Periods) while Vaastu depends on dishas (Directions), Jyotish assumes the existence of Kaal Purush (Time Personified) while Vaastu assumes the existence of Vaastu Purush (Space Personified). The book incorporates current knowledge of building science to explain the ancient wisdom of Vaastu Shastra only to bridge the gap between ancient traditions and modern way of thinking. No attempt has been made to transgress into the other parallel systems known as Feng Shui and Pyramidology, which require totally separate study. The work is meant primarily for those who want to learn Vaastu from the very beginning and pursue it seriously in a scientific manner. The book will also serve as a stepping-stone for those who intend to indulge in hitherto unexplored areas of Vaastu Shastra like suitability of certain directions for certain activities, hidden meanings of Vaastu Purush; forty-five demi gods; ten dikpalas; three energies and Panchmahabhootas, predicting the fate of a house and its inhabitants through Vaastukala, etc.

BEGINNERS GUIDE TO VEDIC ASTROLOGY Aparnaa N Raje,2021-04-29 Vedic Astrology is a complex subject and one needs to consider various aspects to conclude on a native's horoscope. This book is an attempt to offer the basic steps in a simplified manner to analyze the horoscope at an elementary level. It is important to understand the mythological stories for each planet , to understand the effects it has on a chart. Therefore, you will find that this book is a mix of mythology, and process towards analyzing a chart. The key takeaway of Vedic Astrology is to understand oneself and one's life path, one's strengths and weaknesses, opportunities and pitfalls and the reasons why one's life path unfolds in a certain manner.

Lal Kitab (Red Book of Astrology) Dr. Beni madhav Goswani, Lal Kitab was christened thus due to its red outer cover probably keeping in view the auspiciousness of the colour in hindu mythology. This book deals with the oceanic knowledge of occult, a science based on palmistry/phrenology and other associated fields. Though it is a part and parcel of Vedic astrology, its contours are different and has its own grammar. For Example, the house of ascendant would always be No.1 irrespective of the position of the planets.

Mirror of Fortune Dr. A. Shanker,2021-11-29 Mirror of Fortune: Journey of Dr. A. Shanker by Dr. A. Shanker: Embark on a captivating journey through the inspiring life of Dr. A. Shanker as he shares his personal memoir, offering profound insights into his achievements, challenges, personal growth, and reflections that serve as a motivating story of overcoming obstacles and pursuing success. This book 'Mirror of Fortune' is such an instrument to know the circumstances and conditions of life through astrology that leads to recognizing the signs of favorable and unfavorable circumstances. Those who believe in and practice Jyotish, need it at every step. Yet, sometimes when a person with dexterity in this sphere is not found, people have to face serious problems. In today's life, those having insufficient knowledge and who have traveled frequently and stayed in jungles and deserts too face difficulties. The sphere of astrology is very wide. One should have mastery over its different aspects to comprehend satisfactorily. Unless and until one attains deep knowledge and expertise his sincerity and honesty remain dubious. Meanwhile, whatever I could gain through my study and experience I have put together in this book. I take no pride in doing so as I am not an erudite scholar who is presenting his views to impress readers of his merits and accomplishments. To me, there is no difference between fame and the sun on a rainy day.

Beyond Greenwash Hamish van der Ven,2019-03-21 From green frogs and blue angels to white bunnies, modern consumers are confronted by a growing array of colorful eco-labels on everything from coffee to computers. When eco-labels are credible, they can lead to dramatic change in environmental practices broadly and quickly by leveraging the purchasing power of corporate clients (e.g., Walmart and McDonalds) to influence global supply chains. But the credibility of such labels is highly variable; and despite the existence of established practices for eco-labeling, many labels remain little more than superficial exercises in greenwash. How can consumers separate greenwash from genuine attempts to address environmental challenges? Beyond Greenwash addresses this question by systematically investigating the credibility of transnational eco-labeling organizations across countries and commercial sectors. Using an innovative proxy measure for credibility that examines adherence to established best practices, Hamish van der Ven proposes a novel theory of rigor and credibility in transnational eco-labeling that upends conventional wisdom. He argues that the credibility of an eco-label does not depend on who creates or manages it-whether a government, industry association, professional standard setter, or environmental NGO. Rather, it depends on which types of businesses use the label. More specifically, eco-labeling

organizations that target bigger, consumer-facing retailers tend to create credible eco-labels out of a desire to insulate their clients from critical scrutiny and gain acceptance in new markets. This theory challenges the conventional wisdom that only governments or environmental NGOs can create meaningful environmental governance and suggests that who is being governed matters as much, if not more, than who is doing the governing.
