The Armies of the Warsaw Pact Nations Friedrich Wiener, 1976

The Whirlwind War Frank N. Schubert, 1995 CMH Publication 70-30. Edited by Frank N. Schubert and Theresa L. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

Turner Classic Movies: Christmas in the Movies Jeremy Arnold, 2018-10-09 Turner Classic Movies presents a bucket list of the best and most beloved holiday films of all time, complete with spirited commentary, behind-the-scenes stories, and photos spanning eight decades of Christmastime favorites. Nothing brings the spirit of the season into our hearts quite like a great holiday movie. Christmas films come in many shapes and sizes and exist across many genres. Some, like *It's a Wonderful Life* and *A Christmas Story*, are perennials, while others, such as *Die Hard*, have only gradually become yuletide favorites. But they all have one thing in common: they use themes evoked by the holiday period - nostalgia, joy, togetherness, dysfunction, commercialism, or cynicism - as a force in their storytelling. !--EndFragment-- Turner Classic Movies: Christmas in the Movies showcases the very best among this uniquely spirited strain of cinema. Each film is profiled on what makes it a Christmas movie, along with behind-the-scenes stories of its production, reception, and legacy. Complemented by a trove of color and black-and-white photos, Turner Classic Movies: Christmas in the Movies is a glorious salute to a collection of the most treasured films of all time. Among the 30 films included: *The Shop Around the Corner*, *Holiday Inn*, *Meet Me in St. Louis*, *It's a Wonderful Life*, *Miracle on 34th Street*, *White Christmas*, *A Christmas Story*, *National Lampoon's Christmas Vacation*, *Home Alone*, *Little Women*, and *The Nightmare Before Christmas*.

The Things They Carried Tim O'Brien, 2009-10-13 Look for O'Brien's new book, *American Fantastica*, on sale October 24th A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Make and Test Projects in Engineering Design Andrew E. Samuel, 2006-01-19 Make and test projects are used as introductory design experiences in almost every engineering educational institution world wide. However, the educational benefits and costs associated with these projects have been seldom examined. *Make and Test Projects in Engineering Design* provides a serious examination of the design of make and test projects and their associated educational values. A taxonomy is provided for the design of make and test projects as well as a catalogue of technical information about unconventional engineering materials and energy sources. Case studies are included based on the author's experience of supervising make and test projects for over twenty-five years. The book is aimed at the engineering educator and all those planning and conducting make and test projects. Up until now, this topic has been dealt with informally. *Make and Test Projects in Engineering Design* is the first book that formalises this important aspect of early learning in engineering design. It will be an invaluable teaching tool and resource for educators in engineering design.

Field Artillery Manual Cannon Gunnery Department of the Army, 2017-08-19 Training Circular (TC) 3-09.81, *Field Artillery Manual Cannon Gunnery*, sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible to delivered field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the BCT in decisive action. This publication may also be used by other Army organizations to assist in their planning for support of battalions. This manual builds on the collective knowledge and experience gained through recent operations, numerous exercises, and the deliberate process of informed reasoning. It is rooted in time-tested principles and fundamentals, while accommodating new technologies and diverse threats to national security.

The Freedom Shield John D. Falcon, 2020-04-19 A Vietnam War helicopter pilot shares arresting accounts of flying troops into hot LZs and medevacking the wounded under fire. *The Freedom Shield* brings together stories of veterans of the 191st Assault Helicopter Company, who were tasked with carrying troops into battle, attacking enemy positions, and evacuating the wounded in their UH-1 Iroquois "Huey" helicopters. The unit was assembled from a hodgepodge of hand-me-down aircraft, used equipment, and overlooked personnel—its appearance belied the invaluable work the crews of the 191st would undertake during the Vietnam War. This narrative of the Company, told through collected stories of veterans, defines a breed of soldier newly minted in Vietnam: the combat assault-helicopter crewman. The 191st pilots, crews, and support personnel vividly share the details of what it was like to be at war and forced to rely on your fellow crewmembers for your own survival. Their accounts of helicopter combat at the height of the Vietnam conflict accurately recreate the sights and sounds of the battlefields, the fear and horror of watching close friends torn to pieces, and their feelings on returning to base. Their message is infinitely clear: "The price of freedom is painful." Praise for *The Freedom Shield* "The story of the 191st Assault Helicopter Company's combat actions in Vietnam is one of heroism and dedication to duty. It is a vivid picture of young American soldiers full of P and V and the "want to" needed to get the job done with bullets flying in all directions. An adrenaline rush is the order of the day. Read this book to gain new respect and admiration for the Vietnam-era veterans who fought in this unpopular war—they were truly magnificent!" —Brigadier General John C.

"Doc" Bahnsen, author of *American Warrior: A Combat Memoir of Vietnam* "An amazing story of perseverance and will. The author accurately chronicles how the 191st Assault Helicopter Company was assembled, during the haste of the Vietnam buildup, with secondhand equipment and filler personnel to become a crown jewel among aviation units in battle. A true testament of American mettle that we all still admire and envy." –Col. Alan B. Renshaw

ATF - National Firearms Act Handbook U.S. Department of Justice, 2019-03-17 This handbook is primarily for the use of persons in the business of importing, manufacturing, and dealing in firearms defined by the National Firearms Act (NFA) or persons intending to go into an NFA firearms business. It should also be helpful to collectors of NFA firearms and other persons having questions about the application of the NFA. This publication is not a law book. Rather, it is intended as a ?user friendly? reference book enabling the user to quickly find answers to questions concerning the NFA. Nevertheless, it should also be useful to attorneys seeking basic information about the NFA and how the law has been interpreted by ATF. The book's Table of Contents will be helpful to the user in locating needed information. Although the principal focus of the handbook is the NFA, the book necessarily covers provisions of the Gun Control Act of 1968 and the Arms Export Control Act impacting NFA firearms businesses and collectors.

Space Power Interests Peter Hayes, 2019-06-26 In this unique volume, an international cast of leading scholars from several disciplines offers a comprehensive assessment of the current status of space-based weaponry. Regional and technical experts offer their analysis of the major powers' special interests in space and also examine the broader issues of ICBM proliferation, testing, monitoring, and verification as well as possible opportunities for cooperation between states with a stake in space power.

The Soviet War Machine Ray Bonds, 1976 Details through narrative text and illustrations all component parts of the Soviet military including specific weapons and defense systems.

U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson, Maj. Charles M. Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, *U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era*.

Military Industry and Regional Defense Policy Timothy D. Hoyt, 2017-07-05 *Military Industry and Regional Defense Policy* re-examines military industrialization in the developing world, focusing on policy-making in producer states and the impact of security perceptions on such policy-making. Timothy D. Hoyt reassesses the role of regional state sub-systems in international relations, and recent historical studies of international technology and arms transfers. Looking at Israel, Iraq and India, the three most powerful regional powers in the Cold War era, he presents an expert analysis of the three-sided phenomena of the regional hegemony, the regional competitor and the small over-achiever. This new book breaks away from existing literature on military industries in the developing world, which has focused on their economic and development costs and benefits. These past studies have used primitive methodologies that focus on the production of complete weapons systems - a misleading gauge in a world of growing international defense cooperation. They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict, and of the defence planning and concerns that drove development of indigenous military industries in key regional powers. This new text delivers an incisive new perspective.

Nasser and the Missile Age in the Middle East Owen L. Sirrs, 2007-01-24 Egyptian efforts to acquire long-range surface-to-surface missiles in the early 1960s carry important lessons for our time, when weapons of mass destruction and charges of politicizing intelligence are key issues. This new study traces the history of the early Egyptian ballistic missile program, which began with the successful recruitment of German scientists who had experience in Hitler's V1 and V2 missile projects. Yet even as these Germans began their work on developing missiles for Egyptian President Gamal Abdel Nasser, Israeli intelligence was busy collecting information on their activities, sparking a crisis in the Israeli leadership as top Israeli officials anxiously debated strategies to grapple with this new threat to their national security. Ultimately, they adopted a multifaceted approach that included intimidation of the scientists and their families, appeals to the West German government to order the scientists' recall and an attempt to involve the US government in the intricacies of the Arab-Israeli conflict. Drawing extensively on material from recently declassified US government documents, this new major work demonstrates how Nasser's missile program played an instrumental role in cementing the US-Israeli national security relationship. The book concludes with several key lessons that can help stem the global proliferation of advanced weapons. This book will be of great interest to scholars of proliferation, international relations, the Middle East, disarmament and security studies in general.

The Encyclopedia of Middle East Wars [5 volumes] Spencer C. Tucker, 2010-10-08 This in-depth study of U.S. involvement in the modern Middle East carefully weighs the interplay of domestic, cultural, religious, diplomatic, international, and military events in one of the world's most troubled regions. The monumental, five-volume *The Encyclopedia of Middle East Wars: The United States in the Persian Gulf, Afghanistan, and Iraq Conflicts* is a must-have resource for anyone seeking to comprehend U.S. actions in this volatile region. Under the expert editorship of Spencer C. Tucker, the encyclopedia traces 20th- and 21st-century U.S. involvement in the Middle East and south-central Asia, concentrating on the last three decades. Beginning with the 1980–1988 Iran-Iraq War, it covers the 1979–1989 Soviet occupation of Afghanistan, the 1991 Persian Gulf War, allied punitive actions against Iraq during the 1990s, the Afghanistan War, the Iraq War, and the Global War on Terror. Many smaller

military actions against Iran, Iraq, Libya, Afghanistan, and other regimes that have been involved in international terrorism are also included. Diplomacy, religion as it pertains to Middle East conflict, and social/cultural developments are other key subjects of analysis, as is the interplay of politics with military policy in the United States and other nations involved in the region.

Vietnam Airmobile Warfare Tactics Gordon L. Rottman,2012-10-20 In this book the author – an Army veteran of Vietnam – explains the composition, capabilities, equipment and missions of the US Army and Marine Corps helicopter and airmobile units in the Vietnam war and exactly how they carried out their missions. It centers on the classic airmobile assault mission: how it was planned and prepared; how the troop-carrying “slicks” and their “gunship” escorts and support teams actually operated; and the opposition and hazards that they faced on the LZ. The text is illustrated with wartime photos, organization charts, and color plates showing both the machines and the tactics that where employed.
