**Episodes from a Hudson River Town** Clesson S. Bush,2011-08-01 Winner of the 2012 Award for Excellence presented by the Greater Hudson Heritage Network The seemingly unremarkable Hudson River town of New Baltimore has had its ups and downs, you could certainly say that. Here, generations of families have worked the fields until the yield tapped out, built and repaired ships and barges until the steam age died, and harvested ice until refrigeration made icebox a quaint colloquialism. Yet despite the various economic, social, and military forces that have transformed the town, New Baltimore and its residents have endured, celebrating their triumphs and enduring their tragedies. Drawing on original town board minutes, Greene County surrogate and land records, federal and state military records, land patents, colonial documents, conversations with local residents, censuses, and period newspapers, town historian Clesson S. Bush provides an authentic portrait of a small-town community, making the routine—and drama—of small-town life on the Hudson River come alive.

The Mathematical Pamphlets of Charles Lutwidge Dodgson and Related Pieces Lewis Carroll,1994 Between 1860 and 1897 Charles Lutwidge Dodgson, known to the ages as Lewis Carroll, produced over 180 booklets, leaflets, pamphlets, and instruction manuals. Varying radically in length and subject matter, they testify to Dodgson's unparalleled creativity and eclecticism. This volume, second in a series, concentrates on Dodgson's career as mathematical lecturr of Christ Church, Oxford. Most of the material collected here has not appeared in print since the author's lifetime. Appearing in chronological order by mathematical subject, each section is preceded by an introductory essay providing background information to assist both the general reader and the specialist. Everal aspects of Dodgson;s personlaity as well as imprtnat events in the Victorian period that influenced his views and the mathematical topics he chose to write about are discussed in the general introduction.

The Cambridge History of Travel Writing Nandini Das,Tim Youngs,2019-01-24 Bringing together original contributions from scholars across the world, this volume traces the history of travel writing from antiquity to the Internet age. It examines travel texts of several national or linguistic traditions, introducing readers to the global contexts of the genre. From wilderness to the urban, from Nigeria to the polar regions, from mountains to rivers and the

desert, this book explores some of the key places and physical features represented in travel writing. Chapters also consider the employment in travel writing of the diary, the letter, visual images, maps and poetry, as well as the relationship of travel writing to fiction, science, translation and tourism. Gender-based and ecocritical approaches are among those surveyed. Together, the thirty-seven chapters here underline the richness and complexity of this genre.

**Psychoanalytic Case Formulation** Nancy McWilliams,1999-03-26 What kinds of questions do experienced clinicians ask themselves when meeting a new client for the first time? What are the main issues that must be explored to gain a basic grasp of each individual's unique psychology? How can clinical expertise be taught? From the author of *Psychoanalytic Diagnosis*, the volume takes clinicians step-by-step through developing a dynamic case formulation and using this information to guide and inform treatment decisions. Synthesizing extensive clinical literature, diverse psychoanalytic viewpoints, and empirical research in psychology and psychiatry, Nancy McWilliams does more than simply bring assessment to life - she illuminates the entire psychotherapeutic process.

**Studies in German Literature of the Nineteenth and Twentieth Centuries** Siegfried Mews,2020-05 Twenty-one distinguished American Germanists pay tribute to F. E. Coenen, previous longtime editor (1952-1968) of UNC Press' Studies in Germanic Languages and Literatures series. Their essays--reflecting a variety of approaches--deal with many major (Goethe, Kleist, Droste-Hulshoff, Keller, Nietzsche, Rilke, Kafka, Hesse, Brecht, Thomas Mann, Musil) and some minor figures who have influenced the literary scene after 1800 and add significantly to both scholarship in and interpretation of modern German literature.

**A Tree of Life** Louis Jacobs,1982-09-01 In this study of how the Halakhah (the Jewish legal system) embraces each of life's situations, the author demonstrates that the Halakhists, influenced by their diverse cultural backgrounds, sought throughout the ages to maintain the flexibility of the law.

**Old Testament Criticism in the Nineteenth Century** John Rogerson,2010-06-01 The study of Old Testament criticism requires the bridges of an important cultural gap because the home of the method and the place of its most creative use is still Germany. In this authoritative work, British scholar John Rogerson discusses two specific questions: how did the critical method arise in Germany in the nineteenth century, and how was its reception into England affected by the theological and philosophical climate? This is the first book which attempts to trace in such detail the impact of German critical method upon scholarship in England. As such it is a valuable contribution to the history of Old Testament scholarship and to the history of ideas. Part I examines German scholarship from 1800-60, from the founder of modern criticism, W. M. L. de Wette, through to the submergence of this early radicalism by the so-called positive criticism, and the confessional orthodoxy led by Hengstenberg. Part II investigates the use of Old Testament criticism in England with particular attention to contacts between Germany and England and to a comparison of the respective intellectual climates. Part III focuses again on German scholarship, particularly on the rebirth of de Wettian ideas, as expressed by Julius Wellhausen. It explains how the reception of Wellhausen in England involved a modification of his position in the light of neo-Hegelian philosophy.

**Perspectives on Travel Writing** Glenn Hooper,2017-05-15 Ranging from the early modern to the postcolonial, and dealing mainly with encounters in Europe, the Americas and the Middle East, *Perspectives on Travel Writing* is a collection of new essays by international scholars that examines some of the various contexts of travel writing, as well as its generic characteristics. Contributions examine the similarities between autobiography and memoir, fiction, and travel writing, and attempt to define travel writing as a genre. Utilising a variety of approaches, the essays display a shared concern with what travel writing does and how it does it. The effects of encounter and border-crossing on gender, 'race', and national identity are considered throughout. The collection begins with a review of some of the problems and issues facing the scholar of travel writing and moves on to a detailed discussion of the qualities of travel writing and its related forms. It then presents in chronological order a number of case studies, before closing with a critical discussion of approaches to the subject. An essay collection with broad historical and geographical coverage, this volume should appeal to students and researchers of travel and travel-related literatures from across the Humanities.

**Beauty Bias** Bonnie Berry,2007-07-30 Society has always been fixated on looks and celebrities, but how we look has deep ramifications for ordinary people too. In this book, Bonnie Berry explains how social inequality pertains to prejudice and discrimination against people based on their physical appearance. This form of inequality overlaps with other, better-known forms of inequality such as those that result from sexism, racism, ageism, and classism. Social inequality regarding looks is notable in a number of settings: work, medical treatment, romance, and marriage, to mention a few. It is experienced as limitations on access to social power. Berry discusses the pressures to be attractive and the methods by which we strive to alter our appearance through plastic surgery, cosmetics, and the like. Berry also discusses cultural factors, such as the manner in which globalization of media, advertisements, and movies have trended toward homogenization, whereby we are all encouraged to appear tall, thin, white, and with Northern European features even if we are none of those things. She also analyzes the underlying social forces such as economic incentives that, on the one hand, channel us to be as physically acceptable as possible via the sale of diet pills and skin lighteners, and on the other hand, encourage us to accept ourselves as we are by selling us plus-size clothing. The book concludes with suggestions for equal rights extended to all regardless of appearance. Here, Berry describes budding social movements and grassroots endeavors toward an acceptance of looks diversity.

**Access to Justice** Deborah L. Rhode,2004-09-23 Equal Justice Under Law is one of America's most proudly proclaimed and widely violated legal principles. But it comes nowhere close to describing the legal system in practice. Millions of Americans lack any access to justice, let alone equal access. Worse, the increasing centrality of law in American life and its growing complexity has made access to legal assistance critical for all citizens. Yet according to most estimates about four-fifths of the legal needs of the poor, and two- to three-fifths of the needs of middle-income individuals remain unmet. This book reveals the inequities of legal assistance in America, from the lack of access to educational services and health benefits to gross injustices in the criminal defense system. It proposes a specific agenda for change, offering tangible reforms for coordinating comprehensive systems for the delivery of legal services, maximizing individual's opportunities to represent themselves, and making effective legal services more affordable for all Americans who need them.
