**Dragon Fruit** Michelle Hawkins,2020-12-07 Do you know that Dragon Fruit looks like an artichoke?And do you know that you can harvest one Dragon Fruit plant four to six times per year?It is sometimes difficult to make our children understand the beauty of nature, to make them appreciate the small things, the beauty of a flower, the freshness of the air, the scent of grass. Often, we are not fortunate to be in contact with nature, far from a meadow, closed in the cities. Still, so often, while being able to look out from our balcony in a beautiful country house, we know how to observe but do not

appreciate the beauty of creation. Knowing the details of fruit and vegetables is as common as it is surprising, through a simple path, which fuels your child's interest and curiosity. That is the purpose of this book. But beware, prepare for the challenge! You will have to be able to answer the questions that your child will ask you by showing off their deep knowledge in the microworld of Coconut: -Mom, do you know how many a Dragon Fruit weighs? I do! -Hey dad, do you know where a Dragon Fruit grows on? I do! -Grandpa, do you know what animal pollinates the Dragon Fruit? I do! -Grandma, do you know how long the Dragon Fruit flower lasts? I do! -Sarah, you're my big sister, and you've studied a lot, but I bet you don't know how long it takes to harvest Dragon Fruit once the flower has opened! I know that. You do not need anything else, just one click on Buy Now, and you will let your child live a magical new adventure with fruits and vegetables.

The fact that children can eat apples without a doctor's visit is an encouraging one. These fun apple facts are the perfect way to get kids interested in eating fruit. In addition to being fun and educational, they can also help your child develop a new appreciation for the fruit. In fact, the government recommends that children eat five to nine cups of fruit every day. You can start by teaching your child the different parts of an apple.

apple is a delicious and nutritious treat. The fruit contains potassium, vitamin C, fiber, and antioxidants. It also helps you go poop! Besides being nutritious, you can also enjoy apples by eating the peel. Some varieties are better for cooking, while others are perfect for snacking. You should know that apples can grow as many as 2,500 varieties, although only a few are as famous as Red Delicious, Granny Smith, and Honeycrisp. If you want to learn about the health benefits of apples, you should eat them raw. This way, you can get all the nutrients they need without having to peel them. Just keep in mind that the fleshy part of the apple is more nutritious than the skin. The peel contains a wide variety of nutrients that make it an excellent snack for children.
