Uncovering the Logic of English: A Common-Sense Solution to America's Literacy Crisis Denise Eide, 2011-01-27 English is so illogical! It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather

than a hindrance? --Denise Eide Uncovering the Logic of English challenges the notion that English is illogical by systematically explaining English spelling and answering questions like Why is there a silent final E in have, large, and house? and Why is discussion spelled with -sion rather than -tion? With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, Uncovering the Logic of English demonstrates why this systematic approach should be as foundational to our education as $1+1=2$.

First 100 Fry Sight Words Plus 10 Selected Words All Educate
School, 2017-10-23 First 100 Fry Sight Word 2nd Grade plus 10 Selected Words : Levels All - Sight Words Grade 2 for Pre Kindergarten, Kindergarten, 1st, 2nd Grade This sight words grade 1 book focuses on helping students master the 1st 100 Fry Words. Upon request, I have added the following words: girl, boy, me, here, little, house, went, help, big & play. This is First 100 Fry Sight words worksheets for sight word for preschoolers, Kindergarten sight word practice to sight word 2nd grade On each page, ten words are presented in large print. Below the sight words grade 2, you will find a sentence using the word. Pages from this sight word book can be read during small group instruction, chorally with your whole class and/or in literacy centers. I like to introduce this book at school and then send it home for repeated practice. Two versions are included. - On

pages 3 through 14, the words are presented in a bold, solid font. If you would like a large group of students to read this book chorally, I recommend using this version. - On pages 15 - 26, you will find the same words and sentences with the sight word for preschoolers presented in an outline form. I like to use this version and have students carefully trace within the outline as we spell and say each word. (Colored pencils work well for this.) When students have repeated this process several times, they have a book full of rainbow words that they have created. The sight words sentence cards can also be cut out and used as playing cards. My kids love a simple game that they play like the traditional card game of War. Players set their cards face down in a stack. Each player reads their card, with support as needed. The player whose sight words grade 1 has the most letters wins the round. As in the traditional game, if the sight word practice have the same number of letters, it is a tie and the cards are left to be won on the next round of play. Graphics are displayed in color, but also print well in black and white. I print one set in color to keep as a class book and then print student copies in black and white to save ink. Many thanks for stopping by and taking a look! Sincerely, Enjoy :) All Educate School

Fry's Words, Issue #1 Heather Cole, 2018-07-21 Learning to read can be hard, especially if your child is struggling with speech or attention challenges as well. Speech can have a huge impact on language acquisition. How can you spell a word you are unable to say? If you cannot spell the word, then how do you sound it out and put it together. Language is difficult, in particular for those of us teaching our children that have special needs. My kids, like many kids, LOVE robots and comics. They also are trying their best to learn to spell and read. They get frustrated and, oh boy, do they get mad! Tapping into an interest of theirs can be a big help. I'll make crosswords with their favorite characters, play games, make comic books, and many other methods to get over the frustration. As an artist, teacher, and mother I am always making and thinking up new ways to help them out. Thus: Fry the robot and his words. It's an easy reader designed for early language development. Remember to take it slow, have patience, relish small victories, set achievable goals, make it a game, use books (no matter how silly!) that interest them, give them choices, and go to the library to let them choose! Try not to set a bar too high, expect high accuracy in speech (unless that is the goal of that particular read through- one thing at a time!), make it a boring chore. Recommendations specific to

this book: 1. Read it to them the first time it is introduced. 2. Ask them to read only the green words. 2. Ask them to read only the orange words. 3. Ask them to read only the purple words. 4. Have them try all three!
