University of Rio Grande and Rio Grande Community College Jacob L. Bapst and Ivan M. Tribe ,2017 On September 13, 1876, the bell on Atwood Hall rang, students assembled, and Rio Grande College began its 140-year search for identity and its struggle for existence. Ira Haning, a Freewill Baptist minister, conveyed the idea of a college to a prominent couple, Nehemiah and Permelia Atwood. Nehemiah passed away in 1869, and supposedly, his last words were Permelia, build the college. Permelia deeded 10 acres and financed Atwood Hall and the Boarding Hall, and Rio Grande College became a reality. Upon Permelia's death in 1885, Rio Grande faced the first of many financial pitfalls. Her estate was willed to the college, but the heirs of her second husband contested it in an action that would be resolved by the Ohio Supreme Court in 1896. As a college, junior college, community college, and currently, as a university, Rio Grande continues to seek a definitive identity.

Florida Institute of Technology Gordon Patterson,2000-11 In the 1950s, East Central Florida underwent a vast transformation with the creation of the American space program. The sleepy fishing communities stretching from Titusville to Melbourne became home to an army of engineers, rocket

scientists, and technicians who would soon take Florida and the nation into the missile age. With no opportunities for advanced study nearby, a handful of determined men and women launched Brevard Engineering College in 1958. In 1966, Florida's secretary of state approved the college's petition to change its name to Florida Institute of Technology. In its short history, Florida Tech has overcome formidable hurdles and succeeded in winning a place in the top ranks of scientific and technological universities. A college on the rise, Florida Tech has not only a bright future, but a rich and colorful history that has been captured in striking photographs. The exciting story of Countdown College-from the lift-off of Bumper 8 in 1950, which launched the space program in Florida, to the most recent high-tech additions to campus facilities-is the subject of this captivating new pictorial history.
