

Ftgibson Tiger Football Edition For My Pocket 32250

Donald Snedeker

School Killers Speak Gordon Crews,2016-08-14 Parents worry about their children's safety at schools, and why wouldn't they with school violence on the rise in America's schools? Schools are supposed to be safe havens for teaching and learning, free of crime and violence, and yet more and more students are experiencing incidents of theft, violence and violent deaths. More security measures are being put into place but what good is that when we can't identify who might commit these acts of school violence and prevent future cases?In *School Killers Speak*, Gordon A. Crews provides a comprehensive analysis of the acts of 78 currently incarcerated school violence perpetrators who committed their acts of violence between 1979 and 2011. Of this number, he obtained projected thoughts and feelings in relation to their acts of violence and personal interviews about their lives and commentary on the current state of school violence in America. No one has ever provided such in-depth information about what many school violence offenders' thoughts and feelings were before the decision to commit violence, while planning the violence, during the violence, and during the aftermath of the violent event. It's the truth, administrators and parents need an accurate understanding of the extent, nature, and context of the problem in order to isolate and prevent future incidents of extreme school violence. Learning from the past, and reading what school violence offenders had to say, is definitely what we need to have the safety we want in our schools.

The African American Heritage of Florida David Colburn,Jane Landers,2018-02-26 The books in the Florida and the Caribbean Open Books Series demonstrate the University Press of Florida's long history of publishing Latin American and Caribbean studies titles that connect in and through Florida, highlighting the connections between the Sunshine State and its neighboring islands. Books in this series show how early explorers found and settled Florida and the Caribbean. They tell the tales of early pioneers, both foreign and domestic. They examine topics critical to the area such as travel, migration, economic opportunity, and tourism. They look at the growth of Florida and the Caribbean and the attendant pressures on the environment, culture, urban development, and the movement of peoples, both forced and voluntary. The Florida and the Caribbean Open Books Series gathers the rich data available in these architectural, archaeological, cultural, and historical works, as well as the travelogues and naturalists' sketches of the area in prior to the twentieth century, making it accessible for scholars and the general public alike. The Florida and the Caribbean Open Books Series is made possible through a grant from the National Endowment for the Humanities and the Andrew W. Mellon Foundation, under the Humanities Open Books program.

The Blackhorse in Vietnam Donald Snedeker,2020-04-14 This military history chronicles the combat operations of the Blackhorse Regiment, which paved the way for armored cavalry tactics in the Vietnam War. South Vietnam, September 1966. When the 11th Armored Cavalry Regiment came ashore at Vung Tau, it faced a number of challenges. In addition to the threat of the Viet Cong and the North Vietnamese Army, the terrain and weather posed their own dangers, adversely affecting the use of bulletproof vehicles and helicopters. The dearth of doctrine and tactics for the employment of armored cavalry in a counterinsurgency was equally challenging—especially during pre-deployment training and initial combat operations. But despite all this, the leaders of Blackhorse Regiment found a way to accomplish their mission. Within a year of their arrival in Vietnam, Blackhorse troopers overcame ambushes that featured anti-tank weapons, numerous landmines, and coordinated assaults. They not only defeated an enemy division twice their size, but also demonstrated how to succeed while operating on and off the roads, in the jungle, and during both the wet and dry seasons. By the spring of 1967, army leaders were beginning to realize the value of troops stationed in Vietnam. And with the Blackhorse Regiment leading the way, armor came to be considered an essential part of the combat team. Written by a Blackhorse veteran, this regiment history features firsthand accounts from soldiers who served in Vietnam and Cambodia.

10,000 Famous Freemasons William Denslow,2007-06 This is volume one of four. This very rare and long out of print biographical work is a must for any Mason with a desire for Masonic research. This is NOT a photocopy of the original work, but a completely new, re-type set edition. While a few editorial changes have been made the work is for the most part as it was when first published. The largest change is the addenda that was at the end of the 4th edition. The addenda was a collection of corrections and additions to the work. We have incorporated the corrections and additions into the work itself removing the need for the addenda. DON'T FORGET: This is a FOUR book set with each book sold separately. The ISBNs are: 1887560319, 1887560793, 1887560424 & 1887560068.

Mankiller Wilma Mankiller,Michael Wallis,2019-01-29 In this spiritual, moving autobiography, Wilma Mankiller, former Chief of the Cherokee Nation and a recipient of the Presidential Medal of Freedom, tells of her own history while also honoring and recounting the history of the Cherokees. Mankiller's life unfolds against the backdrop of the dawning of the American Indian civil rights struggle, and her book becomes a quest to reclaim and preserve the great Native American values that form the foundation of our nation. Now featuring a new Afterword to the 2000 paperback reissue, this edition of Mankiller completely updates the author's private and public life after 1994 and explores the recent political struggles of the Cherokee Nation.

Iron in the Pines Arthur Dudley Pierce,1957 Deep in the heart of southern New Jersey lies an area of some 96,000 acres of sprawling wilderness. It is the famous Wharton Tract which the state of New Jersey purchased in 1954 for a watershed, game preserve, and park. Many people know and love these wooded acres. Each year, people by the thousands visit Batsto Village, once the center of the iron industry that thrived on the tract more than a century ago. With warmth and accuracy, Arthur D. Pierce tells the story of the years when iron was king, and around it rose a rustic feudal economy. There were glass factories, paper mills, cotton mills, and brickmaking establishments. Here, too, were men who made those years exciting: Benedict Arnold and his first step toward treason; Charles Read, who dreamed of an empire and died in exile; Revolutionary heroes and heroines, privateers, and rogues. The author's vivid pictures of day-to-day life in the old iron communities are based upon careful research. This book proves that the human drama of documented history belies any notion that fiction is stranger than truth.
