Strange Country Mark Dapin,2008-11-01 This book is about the people I met as I crisscrossed Australia by train and plane and L-plated car: the undefeated dreamers and wild-hearted romantics, the obsessed hobbyists and beautiful failures. It is about heroes and legends, illusions, delusions and hope, and one or two men with shit for brains who ought to be locked up. As anyone who's ever read Mark Dapin's column and features in Good Weekend knows, he's an immensely funny, acute and vivid observer of Australian life. In Strange Country, he takes us on a journey through a very different Australia - a country that's eccentric, puzzling, big-hearted, small-minded, nostalgic and sometimes just plain mad. From the last travelling boxing tent to feral urban sewer rats to Vietnam Veteran bikies and the annual Parkes Elvis Festival, his writing illuminates the stranger side of Australian life in a travel book like no other.

Emergency Response Guidebook U.S. Department of Transportation,2013-06-03 Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

Forty-some volunteers from the only organized A.T. users' group (the Appalachian Long Distance Hikers Association) each fall team up with the Appalachian Trail Conservancy to compile the latest information on Trail features and offerings in nearby towns. That provides the basic information would-be thru-hikers need to craft their own adventures to define their walks of a lifetime. The Companion, with mileage tables and town maps, is divided by state in south-to-north order, with a plethora of telephone numbers and Web sites to tap along the way.

Nfpa 30 National Fire Protection Association,2007-01-01 Trust NFPA 30's protocols to minimize the hazards of flammable and combustible liquids. Adopted by most states and enforceable under OSHA, NFPA 30: Flammable and Combustible Liquids Code presents the best guidance on the safe storage, handling, and use of dangerous liquids. It provides the criteria you need to design facilities for better protection, comply with sprinkler rules, and use safe operating practices. Changes and additions in the 2003 edition affect: * Siting of storage tanks * Spill control, normal breather vents, and emergency relief vents for storage tanks * Design of liquids storage cabinets, inside storage areas, and liquid warehouses * Sprinkler design rules for storage of all types of liquids * And more When you work with flammable and combustible liquids, even a seemingly minor oversight or mistake can have major repercussions. Don't compromises safety--insist on NFPA 30!

Appalachian Trail Thru Hikers' Companion 2020 Appalachian Long Distance Hikers Association,2019-12-15 The champion of Appalachian Trail guides for long-distance hiking for more than a quarter-century With professionally crafted elevation profiles, 50 maps, and comprehensive tables for more at-a-glance information on-trail. The Appalachian Trail Conservancy and the Appalachian Long Distance Hikers Association collaborate each year on a guide especially designed for potential thru-hikers who want the basic information for a five- to six-month trek in the woods, at a reasonable price, but also want the adventure of finding out the extras for themselves. A favorite of section-hikers and dreamers, too. Still the only such guide written by volunteers for which all the proceeds are returned to the Trail by these two nonprofits. With fact-checking research by more than three dozen thru-hiker volunteers in 14 states, backed by the first-hand information of the trail's volunteer and staff maintainers and managers and extensive information from the 2020 A.T. Appalachian Trail Thru-Hike Planner David Lauterborn,2009-03-30 Each year, nearly 2,000 men, women and, occasionally, children set out to hike the 2,174 miles of the Appalachian Trail from Georgia to Maine (or vice versa). Good preparation is often the key to whether they become part of the 20-25 percent who make it. For this adventure of a lifetime, the [i]Thru-Hike Planner[/i] will help you chart a course, work out a budget, choose gear, plan meals,

get in shape and otherwise inspire. It comes with homework: charts and worksheets and checklists and forms, all designed to be ripped out and spread over the kitchen table and then stuck in your pack. Formerly the popular [i]Appalachian Trail Workbook for Planning Thru-hikes[/i], which went through six revisions between 1992 and 2003, this title underwent a total make-over in 2005, bringing together the up-to-date advice of recent hikers with the mileages and trends seen by the trail's managers. This 4th edition advances the mileages and shelters to 2009 status and includes new tips.
