Winning Quickly with 1.b3 and 1...b6 Ilya Odessky,2020-07-03 "I left chess in 2012. I did not touch it for several years. Then I decided to test my strength in Internet blitz. I started from scratch. The board floated before my eyes, and my knee twitched. Less than two months later, I crossed the grandmaster rating mark. My opponents, among them lots of players with a big name, played chess better than me. Surprisingly though, I knew more. On a small island of chess theory, onto which I lured them, I was better equipped. Much better! About 30% of the games ended in wins around the 20th move. A quarter of the games simply ended in mate. In all games, I opened with the moves 1.b3 and 1...b6." International Master Ilya Odessky is the world's leading expert on the 1.b3 and 1...b6 chess opening systems. Despite their apparent calm, these openings can get extremely sharp. Now Odessky presents his findings and achievements of recent years. His baffling traps will help you crush your opponents in the opening, with both White and Black. Odessky admits that some of his lines may objectively be somewhat dubious. But in blitz and rapid games they will lead to spectacular play and many surprising wins. Ilya Odessky will entertain, amuse and surprise you in this highly unusual chess opening book full of ultra-romantic chess.

Batsford Book of Chess for Children Activity Book Sabrina Chevannes,2015-07-30 A follow up to Chess for Children, this is a very imaginative way of building up your children's knowledge and interest in chess through a series of fun chess games and activities. Play 1.b3! Ilya Odessky, 2008-09-18 The popularity of the Nimzo-Larsen Attack is largely based on its surprise value, but in fact 1.b3 is one of White's more logical first moves, since by immediately developing his queen's bishop, White aims at undermining the black centre. Odessky, an International Master from Russia, a well-known chess coach and an outstanding chess writer, will amuse and

surprise you, but also teach you all the ins and outs of this offbeat system, which has been used by top players like Bobby Fischer and Bent Larsen. A good choice for players who want to avoid the many theoretical landmines of mainline openings and prefer to steer towards an open battle, right from the start.
