*Tuttle Learning Chinese Characters* Alison Matthews,Laurence Matthews,2011-12-20 This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last—there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short stories, and the systematic building up of more complicated characters from basic building blocks. Although Learning Chinese Characters is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. The 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

*Chinese for Kids First 50 Characters Ages 5+ (Simplified)* Queenie Law,2018-04-24 Chinese for Kids First 50 Characters Age 5+ (Simplified) is for children ages 5 and older to practice writing simplified Chinese. Raising a Bilingual Child Barbara Zurer Pearson, 2008-04-15 If you would like your children to experience the benefits of becoming bilingual, but you aren't sure how to teach them a second language, then Raising a Bilingual Child is the perfect step-by-step guide for you. Raising a Bilingual Child provides parents with information, encouragement, and practical advice for creating a positive bilingual environment. It offers both an overview of why parents should raise their children to speak more than one language and detailed steps parents can take to integrate two languages into their child's daily routine. Raising a Bilingual Child also includes inspirational first-hand accounts from parents. It dispels the myth that bilingualism may hinder a child's academic performance and explains that learning languages at a young age can actually enhance a child's overall intellectual development.

You may use them along with this book for optimal teaching and learning results. This book series uses simplified characters.

**Growing up with Three Languages** Xiao-lei Wang, 2008-11-06 This book is based on an eleven-year observation of two children who were simultaneously exposed to three languages from birth. It tells the story of two parents from different cultural, linguistic, and ethnic-racial backgrounds who joined to raise their two children with their heritage languages outside their native countries. It also tells the children's story and the way they negotiated three cultures and languages and developed a trilingual identity. It sheds light on how parental support contributed to the children's simultaneous acquisition of three languages in an environment where the main input of the two heritage languages came respectively from the father and from the mother. It addresses the challenges and the unique language developmental characteristics of the two children during their trilingual acquisition process.
