**Between the Sheets** Lesley McDowell,2012-02-28 The literary critic examines the love lives and career ambitions of some of the twentieth century’s greatest female authors—from Sylvia Plath to Anaïs Nin. Why did a gifted writer like Sylvia Plath stumble into a marriage that drove her to suicide? Why did Hilda Doolittle (H.D.) want to marry Ezra Pound when she was far more attracted to women? Why did Simone de Beauvoir pimp for Jean-Paul Sartre? In *Between the Sheets*, author and feminist scholar Lesley McDowell examines nine famously troubled literary romances to arrive at a provocative insight into the motivations of these and other great female writers. The list of the damages done in each of these sexual relationships is long, but each provokes the same question: would these women have become the writers they became without these relationships? Delving into their diaries, letters, and journals, McDowell examines the extent to which each woman was prepared to put artistic ambition before personal happiness, and how dependent on their male writing partners they felt themselves to be. “McDowell . . . has culled incredibly juicy details. With so many affairs and broken hearts, the most surprising thing may be that anything got written in the last 100 years.” —The New York Times Book Review

**Silly Shadows** Lyndsay Whitlock,2020-07-31  
**Shadows** Victoria Hughes,2000-01-05 Sharing the responsibility for two ranches gives Rally the opportunity to get to know the man she consents to marry. Riding, roping, arguing and eventually loving her way into his arms. She discovers the truth hidden inside her heart. Unable to protect himself from Rallys assets, Hardin must unmask his true feelings. Learning the real value of true love.

**High Definition and 24P Cinematography** Paul Wheeler,2012-10-12 This authoritative new reference demystifies the technologies of high definition and 24P cinematography. It is written for the director of photography, camera crew and producer or director and deals with the subject from their point of view. It provides a thorough and logical description of the five scanning formats 24P, 25P, 30P, 50i and 60i as well as recording formats, editing options, delivery potential and discussions on the financial implications theses decisions might have. It looks at comparative costs between different decisions surrounding camera formats, such as 16mm to 35mm shooting for different examples, such as a 100-minute low budget movie or 30 second commercial. There is also considerable discussion on the advantages and disadvantages of using HD versus film, seen from a producer's perspective and what the impact is on all those involved in making a movie. Different delivery systems and camera equipment are discussed as well as editing. Filled with practical advice for tackling everyday decisions and choices, this is a must-have guide for anyone using or considering using high definition technology.
