Fun and Games Duane Swierczynski,2011-06-20 The first of three explosive pulp thrillers arriving back-to-back from cult crime fiction sensation and Marvel Comics scribe Duane Swierczynski. Charlie Hardie, an ex-cop still reeling from the revenge killing of his former partner's entire family, fears one thing above all else: that he'll suffer the same fate. Languishing in self-imposed exile, Hardie has become a glorified house sitter. His latest gig comes replete with an illegally squatting B-movie actress who rants about hit men who specialize in making deaths look like accidents. Unfortunately, it's the real deal. Hardie finds himself squared off against a small army of the most lethal men in the world: The Accident People. It's nothing personal-the girl just happens to be the next name on their list. For Hardie, though, it's intensely personal. He's not about to let more innocent people die. Not on his watch.

That's Not Funny Matt Sienkiewicz, Nick Marx, 2024-03-26 A 2022 Best Comedy Book, *Vulture* A rousing call for liberals and progressives to pay attention to the emergence of right-wing comedy and the political power of humor. Why do conservatives hate comedy? Why is there no right-wing Jon Stewart? These sorts of questions launch a million tweets, a thousand op-eds, and more than a few scholarly analyses. *That's Not Funny* argues that it is both an intellectual and politically strategic mistake to assume that comedy has a liberal bias. Matt Sienkiewicz and Nick Marx take readers--particularly self-described liberals--on a tour of contemporary conservative comedy and the right-wing comedy complex. In *That's Not Funny*, complex takes on an important double meaning. On the one hand, liberals have developed a social-psychological complex--it feels difficult, even dangerous, to acknowledge that their political opposition can produce comedy. At the same time, the right has been slowly building up a comedy-industrial complex, utilizing the humorous, irony-laden media strategies of liberals such as Jon Stewart, Samantha Bee, and John Oliver to garner audiences and supporters. Right-wing comedy has been hiding in plain sight, finding its way into mainstream conservative media through figures ranging from Fox News's Greg Gutfeld to libertarian podcasters like Joe Rogan. *That's Not Funny* taps interviews with conservative comedians and observations of them in action to guide readers through media history, text, and technique. You will find many of these comedians utterly appalling, some surprisingly funny,

and others just plain weird. They are all, however, culturally and politically relevant--the American right is attempting to seize spaces of comedy and irony previously held firmly by the left. You might not like this brand of humor, but you can't ignore it.

Lemonade in Winter Emily Jenkins, 2012-09-11 A lemonade stand in winter? Yes, that's exactly what Pauline and John-John intend to have, selling lemonade and limeade--and also lemon-limeade. With a catchy refrain (Lemon lemon LIME, Lemon LIMEADE! Lemon lemon LIME, Lemon LEMONADE!), plus simple math concepts throughout, here is a read-aloud that's great for storytime and classroom use, and is sure to be a hit among the legions of Jenkins and Karas fans. A beautifully restrained tribute to trust and tenderness shared by siblings; an entrepreneurship how-to that celebrates the thrill of the marketplace without shying away from its cold realities; and a parable about persistence. —Publishers Weekly, Starred

The Behavior Gap Carl Richards, 2012-01-03 It's not that we're dumb. We're wired to avoid pain and pursue pleasure and security. It feels right to sell when everyone around us is scared and buy when everyone feels great. It may feel right-but it's not rational. -From The Behavior Gap Why do we lose money? It's easy to blame the economy or the financial markets-but the real trouble lies in the decisions we make. As a financial planner, Carl Richards grew frustrated watching people he cared about make the same mistakes over and over. They were letting emotion get in the way of smart financial decisions. He named this phenomenon-the distance between what we should do and what we actually do-the behavior gap. Using simple drawings to explain the gap, he found that once people understood it, they started doing much better. Richards's way with words and images has attracted a loyal following to his blog posts for The New York Times, appearances on National Public Radio, and his columns and lectures. His book will teach you how to rethink all kinds of situations where your perfectly natural instincts (for safety or success) can cost you money and peace of mind. He'll help you to: • Avoid the tendency to buy high and sell low; • Avoid the pitfalls of generic financial advice; • Invest all of your assets-time and energy as well as savings-more wisely; • Quit spending money and time on things that don't matter; • Identify your real financial goals; • Start meaningful conversations about money; • Simplify your financial life; • Stop losing money! It's never too late to make a fresh financial start. As Richards writes: We've all made mistakes, but now it's time to give yourself permission to review those mistakes, identify your personal behavior gaps, and make a plan to avoid them in the future. The goal isn't to make the 'perfect' decision about money every time, but to do the best we can and move forward. Most of the time, that's enough.
