The Rough Guide to China David Leffman,Simon Lewis,Martin Zatko,2011-06-01 The Rough Guide to China covers of all of mainland China and Tibet, as well as the lesser known administrative regions of Hong Kong and Macau. The Rough Guide provides all the information you need, whether you want to explore the sophisticated nightlife of Beijing and Shanghai, chill out in the mellow travellers' havens of Dali and Yangshuo, or roam the streets of wonderfully historical towns such as Lijiang. Up-to-date descriptions provide you with the low-down on famous sights such as Beijing's Forbidden City, the Terracotta Army outside Xi'an, limestone peaks around Guilin and the cruise through the mighty Three Gorges along the Yangzi. There's also full practical

information on where to drink, sleep, party and eat - from streetside snack stalls to luxurious Beijing Duck restaurants. Detailed maps and comprehensive practical information help you get under the skin of China, whilst the guide's stunning photography and a full-colour introduction make this your ultimate travelling companion. Make the most of your time on earthT with The Rough Guide to China.

Greece: Northern Greece Dana Facaros, 2020-01-09 This new guide to Northern Greece, written by Greece expert and long-time travel writer Dana Facaros, is the only guide available to the region and includes the areas of Epirus, Thessaly, Macedonia and Thrace, complete with their five dramatically beautiful national parks, the country's highest peaks and mountain lakes, rushing rivers and the world's deepest gorge, and (this is Greece, after all) long sandy beaches. Sections on background and practical information are followed by an easy-to-follow breakdown of the area offering detailed coverage in 12 chapters, from Greece's second city, Thessaloníki, to Chalkidikí, Central Macedonia, Eastern Macedonia, Thrace, Western Macedonia, Epirus (including Ioánnina), Thessaly and Magnesía, the Pelion Peninsula and the Islands, plus a short chapter on Athens, the gateway for many

visitors to Greece. Greece is becoming more popular by the year and this area in particular offers the more natural, authentic experience that many travellers seek. Bradt's Northern Greece focuses on just this relatively unknown but up-and-coming region and is an ideal companion for travellers of all ages, budgets and interests, from culture lovers to wildlife enthusiasts, history buffs to archaeologists, foodies to wine connoisseurs. Holidays in the great outdoors are covered, too, including mountain climbing, skiing, white water rafting, rock climbing, sailing, canyoning and sea kayaking, not to mention those who just want to sit on a sandy beach and dance the night away.

Resisting McDonaldization Barry Smart, 1999-04-28 George Ritzer's McDonaldization thesis argued that contemporary life is succumbing to the standardization, flexibility and practicability of fast-food service. This book brings together specially commissioned papers by leading social and cultural analysts to engage in a critical appraisal of the thesis. The contributors discuss the roots of the thesis, the rationalization of late modern life, the effects of increasing cultural commodification, the continuing prominence of American cultural and economic imperialism and the impact of globalization on social and cultural life. The strengths and

weaknesses of the McDonaldization thesis are clearly evaluated and the irrational consequences of rationalization are pinpointed and critically

Designing EEG Experiments for Studying the Brain Aamir

Saeed Malik, Hafeez Ullah Amin, 2017-05-25 Designing EEG Experiments for Studying the Brain: Design Code and Example Datasets details the design of various brain experiments using electroencephalogram (EEG). Providing guidelines for designing an EEG experiment, it is primarily for researchers who want to venture into this field by designing their own experiments as well as those who are excited about neuroscience and want to explore various applications related to the brain. The first chapter describes how to design an EEG experiment and details the various parameters that should be considered for success, while remaining chapters provide experiment design for a number of neurological applications, both clinical and behavioral. As each chapter is accompanied with experiment design codes and example datasets, those interested can quickly design their own experiments or use the current design for their own purposes. Helpful appendices provide various forms for one's experiment including recruitment

forms, feedback forms, ethics forms, and recommendations for related hardware equipment and software for data acquisition, processing, and analysis. Written to assist neuroscientists in experiment designs using EEG Presents a step-by-step approach to designing both clinical and behavioral EEG experiments Includes experiment design codes and example datasets Provides inclusion and exclusion criteria to help correctly identify experiment subjects and the minimum number of samples Includes appendices that provide recruitment forms, ethics forms, and various subjective tests associated with each of the chapters

The Universal Machine Ian Watson, 2012-05-17 The computer unlike other inventions is universal; you can use a computer for many tasks: writing, composing music, designing buildings, creating movies, inhabiting virtual worlds, communicating... This popular science history isn't just about technology but introduces the pioneers: Babbage, Turing, Apple's Wozniak and Jobs, Bill Gates, Tim Berners-Lee, Mark Zuckerberg. This story is about people and the changes computers have caused. In the future ubiquitous computing, AI, quantum and molecular computing could even make us immortal. The computer has been a radical invention. In less than a single human life computers are transforming economies

and societies like no human invention before.

D.P.R. Korea - grand tour Carl De Keyzer, 2018-03-02 When it comes to foreign visitors or artists, North Korea must be the most restrictive country in the world. Nevertheless, Carl De Keyzer managed to cross the entire country in 42 days, divided into three journeys. In his latest book, Magnum photographer Carl De Keyzer points his lens at North Korea, officially the Democratic People's Republic of Korea, the last communist state in the world from an ideological, political and cultural perspective. De Keyzer is one of very few photographers who get almost-unlimited access to the country. He photographed more than 200 different locations, many of which had never been captured on camera before. The 250 photos that form his 'Grand Tour' - taken on marches, at the shooting range, in the subway and in family homes - are a testament to this country's uniqueness.

Hong Kong and Macau Jules Brown, 1999 The listings and maps in the fourth edition have been updated, and the guide contains a new section on SoHo.

China Damian Harper, 2002 Thorough, time honored, and true, this guidebook covers it all, from showpiece Hong Kong to new frontiers only recently opened to travelers. Includes sections on

cuisine, martial arts, religion, and more. 220 maps.

Maritime Psychology Malcolm MacLachlan, 2017-01-21 This first-of-its-kind volume assembles current research on psychosocial issues and behavioral and safety concerns inherent in life and careers at sea. Focusing mainly on the commercial maritime transport sector, it sets out the basic concepts of maritime psychology in the contexts of health and occupational psychology and illustrates more expansive applications across nautical domains. A systems perspective and detailed case studies spotlight unique challenges to mariners' work performance, personal and environmental health and safety; it also provides support for psychometric assessment of seafarers, and describes emerging uses for the healing properties of the sea and sailing. The book is a springboard for continued research and practice development, further interaction between psychology and the maritime world, and the continued broadening and deepening of the field. Among the topics covered: · Positive psychology and wellbeing at sea. · Transferring learning across safety critical industries. · Occupational stress in seafarers. · The psychology of ship architecture and design. · Motion sickness susceptibility and management at sea. · Risk communication during a maritime

disaster. Written with clarity and nuance reflecting the vastness of marine experience, Maritime Psychology will be of interest to lecturers, researchers, and students of occupational and health psychology and maritime science, and to social and health scientists and practitioners in these and related fields.

Theme Park Design & The Art of Themed Entertainment David Younger,2016-03-28 Theme Park Design & The Art of Themed Entertainment aims to be the most in-depth book on theme park design ever written, documenting for professional designers, theme park design students, and curious theme park fans, the fascinating processes and techniques that go into creating the amazing worlds of theme park design.

Aim for the Heart Howard Hughes,2009-07-30 Clint Eastwood is one of the world's most popular action stars, who has matured into a fine American producer-director. Entertaining, illuminating and packed with information, up to and including The Changeling, this is the first book to cover his full life in the movies, from his beginnings in 1950s B-movies and in TV's Rawhide to Gran Torino showing how as both actor and filmmaker Eastwood aims for the heart of the drama, whatever the story. Howard Hughes follows Eastwood's craft through over 50 movies. He looks at his launch

into superstardom in Sergio Leone's 1960s spaghetti westerns. Back in America, he built on his success as western hero with such films as *High Plains Drifter* and *The Outlaw Josey Wales*, winning an Oscar for *Unforgiven* in 1992. He blasted his way through the seventies and eighties as Inspector Harry Francis Callahan, the last hope for law enforcement in San Francisco. He also monkeyed around in two phenomenally popular films with Clyde the orang-utan, which brought tough-guy Eastwood to a whole new audience and made him the biggest box office star of his generation. *Aim for the Heart* also looks at Eastwood's more unusual roles, including *The Beguiled*, *The Bridges of Madison County* and *Million Dollar Baby*. Since 1970, he has enjoyed parallel success as director-producer of his own Malpasco Productions, with *Bird*, *Mystic River* and *Letters from Iwo Jima*, demonstrating formidable directing credentials. *Aim for the Heart* covers all Eastwood's movies of many genres in detail, and Eastwood's story is illustrated with film stills, glimpses behind the scenes, and rare poster advertising material. *Aim for the Heart* also includes the most comprehensive credits filmography has ever compiled on Eastwood's work, as star and director.
