Funny Voices in Small Padded Rooms Todd Schick, 2022-03-12 There are how to books on voiceover or voice acting and then, there is this singular book on the truth of the voiceover business. Superbly narrated with extensive sound design, Todd brings over three decades of knowledge and experience in voiceover to the table. Weaving stories of the voiceover industry and its history, Todd reveals the raw truth of the business in what can only be described as an aural sculpture. In comparison to most eBook/audiobook offerings, this book is like no other; setting precedent for sonic entertainment within the audiobook/e-book realm With the release of this book, Todd Schick throws down the gauntlet using the power of his voice and pen. Blending sound, comedy, drama and personal experiences, it boldly reveals the genuine, honest truth everyone should hear about the modern-day voiceover industry. This book is simply a great listen - regardless of the subject matter. Whether you're just curious about voice acting, or have been in the voiceover/voice acting business for a long time, it is without question a trendsetter well worth purchase. From the inventor of the modern-day voice talent business model, Todd Schick brings a cast of voices from many sources and colleagues (including his dog and parrot) to this rare, entertaining and incredibly informative publication on voiceover and voice acting; the first in an on-going series. From the Author's Introduction:

There is no such thing as the bible of voiceover or voice acting; to make that claim is to sell someone a dream. Indeed, books on voiceover or voice acting are rarely narrated by the author, much less feature sound design. Voiceover is an aural product; spoken words born from imagination, to communicate imagination. I could not in good conscience publish a book on voiceover without recording it; doing anything less would speak to the integrity of the content and author. In my humble opinion, it's pointless to publish any book on voiceover and/or voice acting if the customer can't hear the product. That said, if you choose to purchase the e-book version of this publication, be sure to listen to it; you'll really be missing out by simply reading text. Author's note: If you purchase the eBook and your reader doesn't support audio playback, be sure to download a desktop/tablet app to listen to the book.

The Life and Death of Peter Sellers Roger Lewis, 1997 Traces the life and career of the British actor, discusses his major roles, and depicts his complex and often difficult personality

Voice of a Voyage Doann Houghton-Alico, 2016-03-01 In 2001, sixty-year old author Doann Houghton-Alico and her husband embarked on a ten-year sailing circumnavigation visiting forty-one countries and sailing over 43,000 nautical miles. As an award-winning author of both technical books and poetry, she brings her love of research into the tangents of the stories she encountered and her lyrical voice to create a picture of the world few of us know. The author, an adept observer and an enthusiastic participant in what life has to offer, writes of her love of the sea at night far away from land, but she also describes such exotic places as remote islands of the South Pacific where black magic and wives bought for three boar tusks are the norm.

She evokes the spirit of people and places by revisiting their cultural and natural history and exploring beneath the surface. Her portrayals are riveting, drawing the reader quickly into an intimate chronicle of tragedy and beauty. Doann's poetry and photographs add additional dimensions to her evocative writing. Doann relishes places like the sandy, forbidding, uninterrupted views of the Sudanese desert from the marsas—inlets of the Red Sea, where flamingoes and camels abound—but also addresses the more serious issues she witnessed such as survival in areas of exploding populations, decreasing food supplies, climate change, and the impact of war. She describes both in a visceral, yet insightful way. Her inquisitiveness, the allure of exploration, and a strong curiosity about the world inspire her writing. Whether floating in the sea eye-to-eye with a humpback whale, escaping pirates, or drinking tea in a bombed-out Eritrean alley with refugees, Doann takes you there.

Go Find Your Father Harmony Holiday, 2014 Poetry. Literary Nonfiction. African American Studies. Harmony Holiday's tête-bêche book-length lyric essay collection *GO FIND YOUR FATHER/A FAMOUS BLUES* immerses itself and its readers in a deeply personal interrogation of perhaps the most difficult subjects of all: love and family legacy. Holiday addresses these topics in verse, prose, and, most affectingly, in letters to her father—the late singer-songwriter Jimmy Holiday. Through these notes as well as her poems bearing long, ambitious, uncompromising lines, Holiday explores how we distill our own identities from memories and responsibilities bound up in tenderness and violence. Do any black children grow up casual? Naw, we grow up shipped, knowing that we are loved but knowing more than that, that terror, that knowing is scrawled money for our bank. We're sure-shot and

avoided, singing blue devil blues like a black and blue disciple, out from Sallis, Attala off delta, change-played, flowed to that subcommon up-river fate, our Waterloo and phonic quarry, step-sharp, sharp-squared, strait-shawled, boot-sharp visitor, made for walking, talking remnant of an extra-impossible accord, then Los Angeles. Resonances and renaissance of everywhere we come from, Harmony, deepest Holiday since Jason, since Jimmy, having gone to find him, makes these missive runs, assured of her allure but running from and in that into open, unsure dream. She sees it's getting late. Her archive has a microtonal blush. Sightsound, as Russell Atkins says. Can you say what it is to sing a song of love I can show you, right here, ask me now.--Fred Moten

Human Nature of the Singing Voice (AER) Peter T. Harrison, 2006-10-19 Human beings have a deeply ingrained desire to sing, and the human voice has inspired composers to write some of their most beautiful music. But what is 'the true singing voice'? Why do some voices 'work' while others do not? How do we 'discover' our singing voice, and how can singing teachers most effectively train their pupils' voices when it seems such a demanding individual and personal matter? Peter Harrison starts from the holistic principle that human beings are 'designed' to sing and believes that through our voices we are able to communicate our collective as well as our individual humanity. In *The Human Nature of the Singing Voice*; he offers a fresh and lively insight to the understanding of the voice with which we were born for those who seek a comprehensive and sustainable basis for their work. In this major new exploration the author interrelates all aspects of singing, including breathing, emotional expression, the articulation of words and musical interpretation. He also outlines what can be expected of those

responsible for teaching singers and of those eager to learn. Invaluable to teachers and singers, and of more than passing interest to all those who work with singers and care for their voices, e;The Human Nature of the Singing Voicee; provides thought provoking ideas on how we can learn to liberate and enjoy our voice whilst offering practical advice for the proper maintenance of the voice in our daily life and professional work.

The Origins of Cool in Postwar America Joel Dinerstein, 2017-05-17 Cool. It was a new word and a new way to be, and in a single generation, it became the supreme compliment of American culture. *The Origins of Cool in Postwar America* uncovers the hidden history of this concept and its new set of codes that came to define a global attitude and style. As Joel Dinerstein reveals in this dynamic book, cool began as a stylish defiance of racism, a challenge to suppressed sexuality, a philosophy of individual rebellion, and a youthful search for social change. Through eye-opening portraits of iconic figures, Dinerstein illuminates the cultural connections and artistic innovations among Lester Young, Humphrey Bogart, Robert Mitchum, Billie Holiday, Frank Sinatra, Jack Kerouac, Albert Camus, Marlon Brando, and James Dean, among others. We eavesdrop on conversations among Jean-Paul Sartre, Simone de Beauvoir, and Miles Davis, and on a forgotten debate between Lorraine Hansberry and Norman Mailer over the white Negro and black cool. We come to understand how the cool worlds of Beat writers and Method actors emerged from the intersections of film noir, jazz, and existentialism. Out of this mix, Dinerstein sketches nuanced definitions of cool that unite concepts from African-American and Euro-American culture: the stylish stoicism of the ethical rebel loner; the relaxed intensity of the improvising jazz musician; the effortless, physical grace of the Method actor. To be cool is not to be hip and to be hot is definitely not to be cool. This is the first work to trace the history of cool during the Cold War by exploring the intersections of film noir, jazz, existential literature, Method acting, blues, and rock and roll. Dinerstein reveals that they came together to create something

completely new—and that something is cool.
