**Furry Fandom Conventions, 1989–2015** Fred Patten,2016-12-21 Furry fandom—an adult social group interested in anthropomorphic animals in art, literature and culture—has grown since the 1980s to include an estimated 50,000 “furries.” Their largest annual convention drew more than 6,000 attendees in 2015, including 1,000 dressed in “fur suits” or mascot-type animal costumes. Conventions typically include awards, organizations, art, literature and movies, encompassing a wide range of creative pursuits beyond animal costuming. This study of the furry subculture presents a history of the oft-misunderstood group and lists all conventions around the world from 1989 through 2015, including organizers, guests of honor and donations to charity.

**Celtic Music and Dance in Cornwall** Lea Hagmann,2021-10-07 Focusing on the Cornish Music and Dance Revival, this book investigates the revivalists’ claims about Cornwall’s cultural distinctiveness and Celtic heritage, both which are presently used as arguments to promote the English county’s political status as an independent Celtic nation. The author describes two different revival movements that aim at reviving Cornwall’s culture but seem to have entirely different ideas about the concept of authentic Celto-Cornish music and dance. In the first part, historical sources connect Cornwall to its Celtic roots, with an analysis of how the early Cornish revivalists used, changed and adapted this material during the 1980s in order to create a Celto-Cornish revival corpus. In the second part, the book addresses the desire of the Cornish people to express their local and Celtic identities through music and dance, and various practices musicians and dancers have developed to do so. The Nos Lowen movement, which started in the year 2000, is important in this study because it has expanded and newly interpreted the concepts of ‘traditional’, ‘Celtic’ and ‘authentic’.

**Off the Ground** Francis Edward Sparshott,2017-03-14 What is dance, as seen from a philosopher's point of view? Why has dance played little part in traditional philosophies of the arts? And why do these philosophies of the arts take the form they do? The distinguished aesthetician Francis Sparshott subjects these questions to a thorough examination that takes into account all forms and aspects of dance, in art and in life, and brings them within the scope of a single discussion. By showing what is involved in deciding whether something is or is not dance, and by displaying the diversity of ways in which dance can be found meaningful, he provides a new sort of background for dance aesthetics and dance criticism. At the same time he makes a far-reaching contribution to the methodology of the philosophy of art and practice. In a witty and personal style that will be familiar to readers of his earlier books, Professor Sparshott makes a distinction between dance and its neighbors (such as work, sports, and games) and points out that it is more profoundly connected to questions of self-knowledge than the other arts. Dance differs from any of the fine arts in that it can be seen, not as the manipulation of a medium, but as self-transformation. Originally published in 1988. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions.
