## **The Ascension Mysteries** David Wilcock, 2017-08-15

From the New York Times bestselling author of *Awakening in the Dream* comes a book that will take readers on a surprising and enthralling journey through the history of the universe, exploring the great cosmic battle surrounding our own ascension. David Wilcock's previous New York Times bestsellers, *The Source Field Investigations* and *The Synchronicity Key*, used cutting-edge alternative science to reveal oft-hidden truths about our universe. In *The Ascension Mysteries*, David takes us on a gripping personal journey that describes the secret cosmic battle between positive and negative happening every day, hidden in both the traumas of our own lives and the world's headlines. Through his contact with a positive higher intelligence behind the UFO phenomenon, groundbreaking scientific information, and data from high-ranking government whistle-blowers, David reveals that the earth is now on the front lines of a battle that has been raging between positive and negative extraterrestrials for hundreds of thousands of years. *The Ascension Mysteries* explores the towering personal obstacles David overcame to unlock the great secrets of our universe and looks ahead to what this battle means for each of us personally. By unifying ancient texts from a variety of religions with scientific data and insider testimony, David presents a stunning conclusion—that Earth is on the verge of a massive cosmic event that will transform matter, energy, consciousness, and biological life as we now know it and will utterly defeat the great

villains of our time.

*Alien World Order* Len Kasten, 2017-02-16 Shares new documents to expose the sinister alien influence in world governments, financial systems, and scientific institutions throughout history • Shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens authority to abduct humans for research • Reveals how Reptilian-influenced ex-Nazis infiltrated the U.S. government • Explains how the Reptilians have created alien-human hybrids under their control to replace the human population Long ago, the Galactic Federation sent the Atlans, a fierce group of humans from the Pleiades, to Earth to confront the newest colony of the combative ever-spreading alien race known as the Reptilians.

The ensuing battle sank the continent of Lemuria and drove the Reptilians underground beneath the Indian subcontinent as well as to Antarctica. Able to shapeshift to appear human, the Reptilians then infiltrated the Atlantean civilization, abducting humans and creating Reptilian hybrids. As Len Kasten shows, this technique of infiltration and hybridization prior to an all-out attack has been the hallmark of Reptilian conquest throughout the galaxy. Chronicling the history of the Reptilian Empire's influence on Earth and their conquest of 21 star systems, Kasten reveals how the human race is enmeshed in a skillfully concealed plot to enslave humanity and exploit our planet's physical and biological resources. Revealing Hitler's pact with extraterrestrials and the Reptilian influence on the Nazi state, he shares new documents that disclose the rescue and rehabilitation of Nazi war criminals to assist in the Cold War, which then corrupted many U.S. government institutions. Focusing on crucial events in the decade after World War II, he examines the Reptilians' human allies, the Illuminati, who control the levers of financial, technological, and military power throughout the world through various secret societies. He shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens permission to take humans up to their spaceships, ostensibly for genetic study--in return for alien technology--and how these abductions led to the creation of a hybrid race under Reptilian mind control. He also explains how Kennedy was assassinated by the CIA because of his plans to rout out this Nazi-Reptilian presence.

Contrasting the Reptilians with the benevolent Ebens, the aliens from Zeta Reticuli who crashed at Roswell, Kasten exposes the stealthy tactics of the Reptilians, their relationship with the Greys, and their advanced genetic bio-technology and teleportation abilities--as well as what we need to do to defeat their plans.

**Meetings With Remarkable Men** George Ivanovich Gurdjieff, 2020-09-28 EXACTLY A MONTH HAS ELAPSED since I finished the first series of my writings--just that period of the flow of time which I intended to devote exclusively to resting the parts of my common presence subordinate to my pure reason. As I wrote in the last chapter of the first series, I had given myself my word that during the whole of this time I would do no writing whatsoever, but would only, for the well-being of the most deserving of these subordinate parts, slowly and gently drink down all the bottles of old calvados now at my disposal by the will of fate in the wine-cellar of the Prieuré, and specially provided the century before last by people who understood the true sense of life. Today I have decided, and now I wish--without forcing myself at all, but on the contrary with great pleasure--to set to work at my writing again, of course with the help of all the corresponding forces and also, this time, with the help of the law-conformable cosmic results flowing in from all sides upon my person from the good wishes of the readers of the first series. I now propose to give a form understandable for everyone to everything I have written down for the second series, in the hope that these ideas may serve as preparatory

constructive material for setting up in the consciousness of creatures similar to myself a new world—a world in my opinion real, or at least one that can be perceived as real by all degrees of human thinking without the All and Everything: Beelzebub's Tales to His Grandson, p. 1236

slightest impulse of doubt, instead of the illusory world which contemporary people picture to themselves. And indeed, the mind of contemporary man, of whatever level of intellectuality, is only able to take cognizance of the world by means of data which, whenever accidentally or intentionally activated, arouse in him all sorts of fantastic impulses. And these impulses, by constantly affecting the tempo of all the associations flowing in him, gradually disharmonize the whole of his functioning, with such sorrowful results that it is impossible for any man, if he is able to isolate himself even a little from the influences of the established abnormal conditions of our ordinary life and is willing to think about it seriously, not to be terrified—as, for example, by the shortening of our life with each decade. First of all, for the 'swing of thought', that is, for establishing a corresponding rhythm for my thinking and also for yours, I wish to follow somewhat the example of the Great Beelzebub and imitate the form of thinking of one highly respected by him and by me, and perhaps already, brave reader of my writings, by you, if of course you have had the daring to read through to the end all of the first series. That is to say, I wish to introduce at the very beginning of this writing of mine what our dear-

to-all Mullah Nassr Eddin<sup>1</sup> would call a 'subtly philosophical question.' I wish to do this at the very beginning because I intend to use freely, both here and in my later expositions, the wisdom of this sage, who is now recognized almost everywhere and upon whom, it is rumoured, the title of 'The One and Only' is soon to be officially conferred by the proper person. And this subtly philosophical question may already be sensed in that sort of perplexity which is bound to arise in the consciousness of every reader of even the very first paragraph of this chapter, if he compares the many data on which his firm convictions about medical matters are based with the fact that I, the author of Beelzebub's Tales to His Grandson, after the accident which nearly cost me my life, with the functioning of my organism not yet fully re-established owing to the incessant active effort Mullah Nassr Eddin, a legendary figure in numerous countries of the Near East, is an embodiment of popular wisdom.

**Human by Design** Gregg Braden, 2017 Human by Design invites you on a journey beyond Darwin's theory of evolution, beginning with the fact that we exist as we do, even more empowered, and more connected with ourselves and the world, than scientists have believed possible.\* \* \*In one of the great ironies of the modern world, the science

that was expected to solve life's mysteries has done just the opposite. New discoveries have led to more unanswered questions, created deeper mysteries, and brought us to the brink of forbidden territory when it comes to explaining our origin and existence. These discoveries reveal the following facts: - Fact 1. Our origin--Modern humans appeared suddenly on earth approximately 200,000 years ago, with the advanced brain, nervous system, and capabilities that set them apart from all other known forms of life already developed, rather than having developed slowly and gradually over a long periods of time.- Fact 2. Missing physical evidence--The relationships shown on the conventional tree of human evolution are speculative connections only. While they are believed to exist, a 150-year search has failed to produce the physical evidence that confirms the relationships shown on the evolutionary family tree.- Fact 3. New DNA evidence--The comparison of DNA between ancient Neanderthals, previously thought to be our ancestors, and early humans tells us that we did not descend from the Neanderthals.- Fact 4. A rare DNA fusion--Advanced genome analysis reveals that the DNA that sets us apart from other primates, including in our advanced brain and nervous system, is the result of an ancient and precise fusion of genes occurring in a way that suggests something beyond evolution made our humanness possible.- Fact 5. Our extraordinary abilities--We are born with the capacity to self-heal, to self-regulate longevity, to activate an enhanced immune response, and to experience deep intuition, sympathy, empathy, and,

ultimately, compassion--and to do each of these on demand. In this book, New York Times best-selling author and 2017 Templeton Award nominee Gregg Braden crosses the traditional boundaries of science and spirituality to answer the timeless question at the core of our existence--Who are we?--and to reveal science-based techniques that awaken our uniquely human experiences of deep intuition, precognition, advanced states of self-healing, and much more! Beyond any reasonable doubt, Human by Design reveals that we're not what we've been told, and much more than we've ever imagined.

The Guides provide to-the-point psychological and existential insights, along with self-developing exercises and affirmations, which begin to strip away residues of fear, self-doubt, and self-suffocating habits.
