*The Kota* Sunshine Somerville,2017-05-04 A terrifying virus. A global tyranny. Humanity remembers no better life. It's time to give them one. Troy Kandoya wants nothing to do with his brother's Kota movement. But when the DRK virus threatens mankind and strange portals open in the sky, the Kota are the only people with answers. Troy becomes Trok, the immortal Kota Interceder, and he soon finds himself responsible for more than he ever imagined. After 500 years of war, genetic manipulation, viral plague, and the Dominion tyranny, Trok must unite four prophesied Kota Warriors destined to save Earth. But nothing about these heroes is what Trok expected. Loree is an assassin with the ability to dematerialize. Zaak is forced to grow up on an alien planet. Alex is a telepath missing a year of her life. Ryu has incredible mutate-genes of strength. Together, the Warriors join Earth's rebels and use their abilities to fight the Dominion. But rebel politics are complicated. And always, the Dominion threatens its subjects with an unstoppable weapon – the dehumanizing DRK virus. For centuries, no one's been able to stop the Dominion and the DRK. Can four Warriors really make a difference?

*Labcorp* Don Bolden,2017-06-30 It began as an idea in the mind of a medical student at Duke University. Later in 1969 that idea became a reality. In that year Dr. Jim Powell--with Ernie Knesel as the laboratory manager and Powell's brothers, Ed and John, as coinvestors--started a medical testing laboratory in Burlington, a small North Carolina town. As time passed, the company and its successors revolutionized medical treatment and assured millions of patients faster and more thorough testing to determine their health problems and how they should be treated. In the past it might have taken two weeks to get test results, often delaying treatment necessary for the patient's well-being. This new company, however, soon made it possible--even in rural areas--to get sophisticated, state-of-the-art lab testing with twenty-four-hour turnaround, resulting in better medicine. Today, that company, after internal growth and many mergers and acquisitions, is the largest of its kind in the world, serving millions of people not only in the United States but in several foreign countries as well. It is one of the few S & P 500 companies headquartered in North Carolina, and those facilities remain in Burlington. We now know it as LabCorp.--Back cover.
