Mehmed Zahid Çögenli

Emergency Working Groups at Airports James F. Smith (Airport emergency management consultant), 2019 Airports - especially in the past two decades - have generally sought to promote and increase collaboration among the members of the airport community, particularly between an airport and its airlines. One metric of this trend has been the increase in the number of U.S. airports with full-time emergency managers, from fewer than 10 in 2007 to more than 120 today. Collaboration and increased professionalism in airport emergency management have gone hand in hand. No matter whether the incident is aircraft-related or an incident in the terminal - such as an active shooter, a bomb threat, or other hazard - the goal of airports, airlines, and others in the airport community is to achieve safety, security, compassion, customer service, regulatory compliance, and reputation. Achieving these goals can contribute to resiliency and to the protection of critical infrastructure and key resources. Although air travel is one of the safest modes of travel, and airports are among the safest public spaces in the United States, air-travel incidents do occur. ACRP Synthesis 99: Emergency Working Groups at Airports documents these working groups and how they assist victims and their families and friends in the weeks following an incident. -- Publisher's website.

Buildings of Alaska Alison K. Hoagland, 1993

Buildings of Alaska traces Alaska's architecture from the earliest dwellings made of sod, whalebone, and driftwood to the glass and metal skyscrapers of modern-day Anchorage. Focusing on the various cultural traditions that have helped shape the state's architecture, the volume also explores how Alaska's buildings reflect Alaskans' attempts to adapt to the unique conditions of their environment. Alison K. Hoagland examines the contributions to the state's architectural history of three major cultural groups: native Alaskans, Russian settlers, and Americans from the lower 48. Divided into six regions - South Central, Southeastern, Interior, Northern, Western, and Southwestern - entries cover such structures as aboriginal houses, Russian Orthodox churches, log roadhouses, false-front commercial buildings constructed during the gold rush, concrete Moderne public buildings of the 1930s, and high-rise office buildings erected during the oil boom of the 1970s and 1980s. *Buildings of Alaska* contains over 250 magnificent photographs, drawings, and maps, and will serve as an authoritative reference for scholars and students of architectural

history, a compelling source of information for the general reader, and a splendid guidebook for the traveler.

Lost and Found Jayne Ann Krentz, 2001-11-01 The author of *Smoke in Mirrors* and *Soft Focus* presents a sexy, irresistible story of two people searching for secrets—and finding each other... Cady Briggs is useful to Mack Easton. Her expertise in art and antiques helps his low-profile company, *Lost and Found*, find missing treasures for high-paying clients. But Cady knows that being useful to a client is one thing—and being used is another. So no matter how alluring she finds Mack, she plans to keep business and pleasure entirely separate. But then a sudden tragedy puts Cady in charge of Chatelaine's, her family's prestigious art and antiques gallery. Suddenly the roles are reversed, as strange developments at Chatelaine's lead Cady to ask for help from none other than Mack Easton. And instead of tracking down missing masterpieces together, they'll be hunting for a killer...

Eskimo Essays Ann Fienup-Riordan, 1990 This examination of the ideology and practice of the Yup'ik Eskimos of the Yukon-Kuskokwim Delta of southwestern Alaska includes traditions, ideology, relations with Christianity, warfare, use of animals, law and order, and the non-native perception of the Yup'ik way of life.

Digitalization in Organizations Mehmed Zahid Çögenli, 2021-06-30 This volume carries out an evaluation of the digital transformation process for organizations, which has accelerated further with the influence of COVID-19. It provides an up-to-date perspective by addressing organizational

aspects and activities of different fields in the social sciences. The contributions gathered here discuss the digital transformation of social and organizational studies related to disciplines such as public practices, human resource management, finance, education, occupational health and safety, organizational behavior, health management, management strategies, entrepreneurship, and marketing. In this way, it will be possible to see and evaluate digitalization in various aspects of organizations.

Menadelook Eileen Norbert, 2017 Menadelook showcases nearly one hundred photographs taken by the Inupiat photographer Charles Menadelook that document life in Wales in the Bering Strait between Alaska and Russia, in the early 1900s. Photographs of Inupiat life in the early twentieth century are rare, and photographs taken by an indigenous person are nearly nonexistent. These photographs provide a unique view into the Inupiat world during the early twentieth century and give both a pictorial and Native perspective on Inupiat

traditions and historical events.
