Dr. Wayne W. Dyer

*Mind the Gap, Dash and Lily* Rachel Cohn, David Levithan, 2020-10-20 After Dash gets accepted into Oxford University and Lily stays in New York to take care of her dog-walking business, the devoted couple struggle to make a long-distance relationship work. And when Dash breaks the news that he won't be coming home for Christmas, Lily makes a decision: if Dash can't return to New York, she'll just have to go to London. It's a perfect romantic gesture... that spins out of Lily's control. Soon Dash and Lily are feeling more of a gap between them, even though they're in the same city. Will London bring them together again - or will it be their undoing? This wonderful holiday read will delight readers from start to finish.

The Authority Gap: Why Women Are Still Taken Less Seriously Than Men, and What We Can Do About It Mary Ann Sieghart, 2022-02-08 An incisive, intersectional look at the mother of all gender biases: a resistance to women's authority and power. Every woman has a story of being underestimated, ignored, challenged, or patronized in the workplace. Maybe she tried to speak up in a meeting, only to be talked over by male colleagues. Or a client addressed her male subordinate instead of her. These stories remain true even for women at the top of their fields; in the U.S. Supreme Court, for example, female justices are interrupted four times more often than their male colleagues—and 96 percent of the time by men. Despite the progress we've made toward equality, we still fail, more often than we might realize, to take women as seriously as men. In *The Authority Gap*, journalist Mary Ann Sieghart provides a startling perspective on the gender bias at work in our everyday lives and reflected in the world around us, whether in pop culture, media, school classrooms, or politics. With precision and insight, Sieghart marshals a wealth of data from a variety of disciplines—including psychology, sociology, political science, and business—and talks to pioneering women like Booker Prize winner Bernardine Evaristo, renowned classicist Mary Beard, U.S. Secretary of the Treasury Janet Yellen, and Hillary Clinton. She speaks with women from a range of backgrounds to explore how gender bias intersects with race and class biases. Eye-opening and galvanizing, *The Authority Gap* teaches us how we as individuals, partners, parents, and coworkers can together work to narrow the gap. Sieghart exposes unconscious bias in this fresh feminist take on how to address and counteract systemic sexism in ways that benefit us all: men as well as women.

OECD Reviews of Migrant Education Closing the Gap for Immigrant Students Policies, Practice and Performance OECD, 2010-03-24 This book offers comparative data on access, participation and performance of immigrant students and their native peers and identifies a set of policy options based on solid evidence of what works.

**The Confidence Gap** Russ Harris, 2011-09-13 Too many of us miss out on opportunities in life because we lack self-confidence. Whether it's public speaking, taking on a leadership role, or asking someone for a date, there are situations in which we just don't feel equipped to handle the challenges we face. Russ Harris offers a surprising solution to low self-confidence, shyness, and insecurity: Rather than trying to get over our fears, he says, the secret is to form a new and wiser relationship with them. Paradoxically, it's only when we stop struggling against our fearfulness that we begin to find lasting freedom from it. Drawing on the techniques of Acceptance and Commitment Therapy (ACT), a cutting-edge form of cognitive-behavioral therapy, *The Confidence Gap* explains how to:

- Free yourself from common misconceptions about what confidence is and how to build it
- Transform your relationship with fear and anxiety
- Clarify your core values and use them as your inspiration and motivation
- Use mindfulness to effectively handle negative thoughts and feelings.

**Gap Creek** Robert Morgan, 2012-08-21 A New York Times Bestseller & Oprah's Book Club Pick Young Julie Harmon works "hard as a man," they say, so hard that at times she's not sure she can stop. People depend on her to slaughter the hogs and nurse the dying. People are weak, and there is so much to do. At just seventeen she marries and moves down into the valley of Gap Creek, where perhaps life will be better. But Julie and Hank's new life in the valley, in the last years of the nineteenth century, is more complicated than the couple ever imagined. Sometimes it's hard to tell what to fear most—the fires and floods or the flesh-and-blood grifters, drunks, and busybodies who insinuate themselves into their new life. To survive, they must find out whether love can keep chaos and madness at bay. Their struggles with nature, with work, with the changing century, and with the disappointments and triumphs of their union make *Gap Creek* a timeless story of a marriage.

The Knowing-doing Gap Jeffrey Pfeffer, Robert I. Sutton, 2000 The market for business knowledge is booming as companies looking to improve their performance pour millions of pounds into training programmes, consultants, and executive education. Why then, are there so many gaps between what firms know they should do and what they actually do? This volume confronts the challenge of turning knowledge about how to improve performance into actions that produce measurable results. The authors identify the causes of this gap and explain how to close it.

**Gap Selling** Keenan, 2019-11-05 People don't buy from people they like. No! Your buyer doesn't care about you or your product or service. It's not your job to overcome objections, it's your buyer's. Closing isn't a skill of good salespeople; it's the skill of weak salespeople. Price isn't the main reason salespeople lose the sale. *Gap Selling* shreds traditional and closely held sales beliefs that have been hurting salespeople for decades. For years, salespeople have embraced a myriad of sales tactics and belief systems that have unknowingly created many of the issues they have been trying to avoid such as: long sales cycles, price objections, no decision, prospects going dark, last minute feature requests, and more. Success at sales requires more than a set of tactics. Salespeople need to understand the game of sales, how sales works, and what the buyer is going through in order to make the decision to buy (change) or not to buy (not change). *Gap Selling* is a game-changing book designed to raise the sales IQ of selling organizations around the world. In his unapologetic and irreverent style, Keenan breaks down the tired old sales myths causing today's frustrating sales issues, to highlight a deceptively powerful new way to connect with buyers. Today's sales world is littered with glorified order takers, beholden to a frustrated buyer, unable to influence the sale and create value. *Gap Selling* flips the script and creates salespeople with immense influence at every stage of the buying process, capable of impacting the sales metrics that matter: Shorter Sales Cycles Increased Revenue Elevated Deal Values Higher Win Rates Fewer No Decisions More Leads And Happier Buyers *Gap Selling* elevates the sales world's selling IQ and turns sales order takers into sales influencers.

**Riverbend Gap** Denise Hunter, 2021-10-19 When off-duty deputy Cooper Robinson happens upon a car balanced on the edge of a cliff, he does everything he can think of to distract the distraught driver from her perilous situation—and the attraction is instantaneous. The problem? She's his brother's new girlfriend. When Katelyn Loveland's car veered off a winding Appalachian Mountain road, she thought she was done for. That is until Cooper Robinson, local sheriff's deputy, came to her rescue. And though Katie narrowly escaped her brush with death, she still fell. Hard. She wasn't the only one. But soon Cooper learns that the woman he's more attracted to than any

he's ever met is his brother's new girlfriend—and therefore unquestionably off limits. Yet, despite their best efforts, Cooper and Katie can't seem to avoid running into each other. Or ignore the undeniable chemistry between them. As they grow closer, Katie shares secrets from her past and the real reason she moved to their small North Carolina town. She also wins over Cooper's welcoming and bighearted family. But they don't know that her feelings for Cooper keep growing—all while she's dating his brother. Soon the stakes of their emotional connection become higher than either could have imagined. Katie stands to lose the first family she's ever had, and a scandal could doom Cooper's campaign for sheriff. Suddenly they find themselves on the edge of another precipice—and they're forced to make a decision that could change their lives forever. Slow-burn contemporary romance First in the Riverbend Romance Series Book 1: Riverbend Gap Book 2: Mulberry Hollow Book 3: Harvest Moon Book length: 82,000 words Includes discussion questions for book clubs

**Students of Color and the Achievement Gap** Richard R. Valencia, 2015-03-05 Students of Color and the Achievement Gap is a comprehensive, landmark analysis of an incontrovertible racialized reality in U.S. K-12 public education—the relentless achievement gap between low-socioeconomic students of color and their economically advantaged White counterparts. Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap, focusing on Black and Latino/Latina students. He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory, an asset-based perspective and a systemic inequality approach. By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools, Valencia shows how the various indicators of the achievement gap are actually symptoms of the societal and school quality gaps. Following each of these concerns, Valencia provides a number of reform suggestions that can lead to systemic transformations of K-12 education. Students of Color and the Achievement Gap makes a persuasive and well documented case that school success for students of color, and the empowerment of their parents, can only be fully understood and realized when contextualized within broader political, economic, and cultural frameworks.

**The Health Gap** Michael Marmot, 2015-09-10 'Punchily written ... He leaves the reader with a sense of the gross injustice of a world where health outcomes are so unevenly distributed' Times Literary Supplement 'Splendid and necessary' Henry Marsh, author of Do No Harm, New Statesman There are dramatic differences in health between countries and within countries. But this is not a simple matter of rich and poor. A poor man in Glasgow is rich compared to the average Indian, but the Glaswegian's life expectancy is 8 years shorter. The Indian is dying of infectious disease linked to his poverty; the Glaswegian of violent death, suicide, heart disease linked to a rich country's version of disadvantage. In all countries, people at relative social disadvantage suffer health disadvantage, dramatically so. Within countries, the higher the social status of individuals the better is their health. These health inequalities defy usual explanations. Conventional approaches to improving health have emphasised access to technical solutions – improved medical care, sanitation, and control of disease vectors; or behaviours – smoking, drinking – obesity, linked to diabetes, heart disease and cancer. These approaches only go so far. Creating the conditions for people to lead flourishing lives, and thus empowering individuals and communities, is key to reduction of health inequalities. In addition to the scale of material success, your position in the social hierarchy also directly affects your health, the higher you are on the social scale, the longer you will live and the better your health will be. As people change rank, so their health risk changes. What makes these health inequalities unjust is that evidence from round the world shows we know what to do to make them smaller. This new evidence is compelling. It has the potential to change radically the way we think about health, and indeed society.

**Closing the Achievement Gap** Belinda Williams, 1996 Chapters in this book, based on the efforts of the Urban Education National Network Task Force, define the nature of obstacles to the academic performance of urban students and identify, validate, and disseminate a knowledge base of theory and practice to inform decision making about urban schools. The chapters are: (1) The Nature of the Achievement Gap: The Call for a Vision To Guide Change (Belinda Williams); (2) Bridging the Achievement Gap in Urban Schools: Reducing Educational Segregation and Advancing Resilience-Promoting Strategies (Margaret C. Wang and John A. Kovach); (3) Cultural Values in Learning and Education (Patricia Marks Greenfield, Catherine Raef, and Blanca Quiroz); (4) Educating Teachers To Close the Achievement Gap: Issues of Pedagogy, Knowledge, and Teacher Preparation (Kenneth M. Zeichner); (5) Closing the Achievement Gap: Opportunity To Learn, Standards, and Assessment (Floraline Ingram Stevens); (6) Fostering Resiliency in Urban Schools (Bonnie Benard); (7) Teacher Engagement and Real Reform in Urban Schools (Karen Seashore Louis and Betsy Ann Smith); and (8) A Social Vision for Urban Education: Focused, Comprehensive, and Integrated Change (Belinda Williams). An appendix lists the Regional Educational Laboratories. Most chapters contain references. (Contains one figure.) (SLD)

**Closing the Opportunity Gap** Prudence L. Carter, Kevin G. Welner, 2013-04-26 While the achievement gap has dominated policy discussions over the past two decades, relatively little attention has been paid to a gap even more at odds with American ideals: the opportunity gap. Opportunity and achievement, while inextricably connected, are very different goals. Every American will not go to college, but every American should be given a fair chance to be prepared for college. In communities across the U.S., children lack the crucial resources and opportunities, inside and outside of schools that they need if they are to reach their potential. Closing the Opportunity Gap offers accessible, research-based essays written by top experts who highlight the discrepancies that exist in our public schools, focusing on how policy decisions and life circumstances conspire to create the opportunity gap that leads inexorably to stark achievement gaps. They also describe sensible policies grounded in evidence that

can restore and enhance opportunities. Moving beyond conventional academic discourse, Closing the Opportunity Gap will spark vital new conversations about what schools, parents, educators, and policymakers can and should do to give all children a fair chance to thrive.

Getting in the Gap Dr. Wayne W. Dyer, 2021-08-10 Why Meditate? The practice of meditation takes us on a fabulous journey into the gap between our thoughts, where all the advantages of a more peaceful, stress-free, healthy, and fatigue-free life are available—but they're merely side benefits. The paramount reason for daily meditation is to get into the gap between our thoughts and make conscious contact with the creative energy of life itself. In this uplifting book, Dr. Wayne W. Dyer explains the soul-nourishing meditation technique for making conscious contact with God, which the ancient masters have told us about. You have all the potential to be an instrument of the highest good for all concerned and to be a literal miracle worker in your own life. No person, government entity, or religious group can legitimately claim to do this for you. In fact, says Dr. Dyer, I agree with Carl Jung, who said that one of the main functions of formalized religion is to protect people against a direct experience of God. (Dr. Dyer helps you have this direct experience by leading you through the meditation technique in the accompanying audio download.) When you master getting into the gap, stay there for prolonged segments of meditation, and experience what you bring back into the world, you'll truly know the answer to the question: Why meditate?

**The Real Story** Stephen R. Donaldson, 2009-10-21 Author of The Chronicles Of Thomas Covenant, one of the most acclaimed fantasy series of all time, master storyteller Stephen R. Donaldson returns with this exciting and long-awaited new series that takes us into a stunningly imagined future to tell a timeless story of adventure and the implacable conflict of good and evil within each of us. Angus Thermopyle was an ore pirate and a murderer; even the most disreputable asteroid pilots of Delta Sector stayed locked out of his way. Those who didn't ended up in the lockup--or dead. But when Thermopyle arrived at Mallory's Bar & Sleep with a gorgeous woman by his side the regulars had to take notice. Her name was Morn Hyland, and she had been a police officer--until she met up with Thermopyle. But one person in Mallory's Bar wasn't intimidated. Nick Succorso had his own reputation as a bold pirate and he had a sleek frigate fitted for deep space. Everyone knew that Thermopyle and Succorso were on a collision course. What nobody expected was how quickly it would be over--or how devastating victory would be. It was common enough example of rivalry and revenge--or so everyone thought. The REAL story was something entirely different. In The Real Story, Stephen R. Donaldson takes us to a remarkably detailed world of faster-than-light travel, politics, betrayal, and a shadowy presence just outside our view to tell the fiercest, most profound story he has ever written.

The Love Gap Jenna Birch, 2018-01-23 A research-based guide to navigating the newest dating phenomenon--the love gap--and a trailblazing action plan to help smart, confident, career-driven women find (and keep) their match. For a rising generation young women, the sky is the limit. Women can be anything and have everything. They are outpacing their male peers in higher education and earning the corner office at work. Smart, driven, assertive women are succeeding at just about everything they do--except romance. Why are so many men afraid to date smart women? Modern men claim to want smarts, success, and independence in romantic partners. Or so says the data collected by scientists and dating websites. If that's the case, why are so many independent, successful women winning in life, but losing in love? Journalist Jenna Birch has finally named the perplexing reason: the love gap--or that confusing rift between who men say they want to date and who they actually commit to. Backed by extensive data, research, in-depth interviews with experts and real-life relationship stories, The Love Gap is the first book to explore the most talked-about dating trend today. The guide also establishes a new framework for navigating modern relationships, and the tricky new gender dynamics that impact them. Women can, and should, have it all without settling.

The Gap and The Gain Dan Sullivan, Dr. Benjamin Hardy, 2021-10-19 As he did in WHO NOT HOW, Dr. Benjamin Hardy shares one of Dan Sullivan's simple yet profound teachings that until now has been known only to his Strategic Coach clients: unsuccessful people focus on "The Gap," but successful people focus on "The Gain." [T]his one simple concept is a masterclass on positive psychology, healthy relationships, mental well-being, and high-performance. Everything that psychologists know about how to create a high-functioning and successful person can be achieved using The GAP and the GAIN.- Dr. Benjamin Hardy Most people, especially highly ambitious people, are unhappy because of how they measure their progress. We all have an ideal, a moving target that is always out of reach. When we measure ourselves against that ideal, we're in the GAP. However, when we measure ourselves against our previous selves, we're in the GAIN. That is where the GAP and the GAIN concept comes in. It was developed by legendary entrepreneur coach Dan Sullivan and is based on his work with tens of thousands of successful entrepreneurs. When Dan's coaching clients periodically take stock of all that they've accomplished--both personally and professionally--they are often shocked at how much they have actually achieved. They weren't able to appreciate their progress because no matter how much they were getting done, they were usually measuring themselves against their ideals or goals. In this book you will learn that measuring your current self vs. your former self has enormous psychological benefits. And that's really the key to this deceptively simple yet multi-layered concept that will have you feeling good, feeling grateful, and feeling like you are making progress even when times are tough, which will in turn bolster motivation, confidence, and future success. If you're finding that happiness eludes you no matter how much you've achieved, then learning this easy mindset shift will set you on a life-changing path to greater fulfillment and success.

**Closing the Gap** Ming Yang, 2012-10-08 Energy efficiency plays and will continue to play an important role in the world to save energy and mitigate greenhouse gas (GHG) emissions. However, little is known on how much additional capital should be invested to ensure using energy efficiently as it should be, and very little is known which sub-areas, technologies, and countries shall achieve maximum greenhouse gas emissions mitigation per dollar of investment in energy efficiency worldwide. Analyzing completed and slowly moving energy efficiency projects by the Global Environment Facility during 1991-2010, Closing the Gap: GEF Experiences in Global Energy Efficiency evaluates impacts of multi-billion-dollar investments in the world energy efficiency. It covers the following areas: 1. Reviewing the world energy efficiency investment and disclosing the global energy efficiency gap and market barriers that cause the gap; 2. Leveraging private funds with public funds and other resources in energy efficiency investments; using these funds in tangible and intangible asset investments; 3. Investment

effectiveness in dollars per metric ton of CO2 emissions mitigation in 10 energy efficiency sub-areas; 4. Major barriers causing failure and abandonments in energy efficiency investments; 5. Quantification of direct and indirect CO2 emissions mitigations inside and outside a project boundary; and 6. Classification and estimation of CO2 emissions mitigations from tangible and intangible asset investments. Closing the Gap: GEF Experiences in Global Energy Efficiency can serve as a handbook for policymakers, project investors and managers, and project implementation practitioners in need of benchmarks in energy efficiency project investments for decision-making. It can also be used by students, researchers and other professionals in universities and research institutions in methodology development for evaluating energy efficiency projects and programs.

*The Emissions Gap Report 2015* United Nations Environment Programme, 2015-07-06 The UN Environment Emissions Gap Report assesses the latest scientific studies on current and estimated future greenhouse gas emissions and compares these with the emission levels permissible for the world to progress on a least-cost pathway to achieve the goals of the Paris Agreement. This difference between "where we are likely to be and where we need to be" is known as the "emissions gap". The report explores some of the most important options available for countries to bridge the gap.
