Gardens of the Moon Steven Erikson, 2004-06-01 Vast legions of gods, mages, humans, dragons and all manner of creatures play out the fate of the Malazan Empire in this first book in a major epic fantasy series from Steven Erikson. The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersail, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, *Gardens of the Moon* is epic fantasy of the highest order--an enthralling adventure by an outstanding new voice. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A Way to Garden Margaret Roach, 2019-04-30 "A Way to Garden prods us toward that ineffable place where we feel we belong; it's a guide to living both in and out of the garden." —The New York Times Book Review For Margaret Roach, gardening is more than a hobby, it's a calling. Her unique approach, which she calls "horticultural how-to and woo-woo," is a blend of vital information you need to memorize and intuitive steps you must simply feel and surrender to. In *A Way to Garden*, Roach imparts decades of garden wisdom on seasonal gardening, ornamental plants, vegetable

gardening, design, gardening for wildlife, organic practices, and much more. She also challenges gardeners to think beyond their garden borders and to consider the ways gardening can enrich the world. Brimming with beautiful photographs of Roach's own garden, *A Way to Garden* is practical, inspiring, and a must-have for every passionate gardener.

The Living Landscape Rick Darke, Douglas W. Tallamy, 2014-07-01 Many gardeners today want a home landscape that nourishes and fosters wildlife. But they also want beauty, a space for the kids to play, privacy, and maybe even a vegetable patch. Sure, it's a tall order, but *The Living Landscape* shows how to do it. By combining the insights of two outstanding authors, it offers a model that anyone can follow. Inspired by its examples, you'll learn the strategies for making and maintaining a diverse, layered landscape—one that offers beauty on many levels, provides outdoor rooms and turf areas for children and pets, incorporates fragrance and edible plants, and provides cover, shelter, and sustenance for wildlife. Richly illustrated with superb photographs and informed by both a keen eye for design and an understanding of how healthy ecologies work, *The Living Landscape* will enable you to create a garden that is full of life and that fulfills both human needs and the needs of wildlife communities.

The New York Sun Crosswords Peter Gordon, 2009-02 The August 8, 2005, issue of the *Weekly Standard* called *The New York Sun* crosswords the best in America, beating out *The New York Times* in a head-to-head competition. What makes them the greatest? They're carefully edited so those obscure words that nobody actually uses are out, and solving pleasure is in, thanks to tricky clues and witty puns. Most of the puzzles have clever and original themes that add to the fun. Plus, solvers will enjoy the wide range of difficulty--indicated by the number of stars on top.

Business Lessons from a Radical Industrialist Ray C. Anderson, Robin White, 2011-03-29 In 1994, Interface founder and chairman Ray Anderson set an audacious goal for his commercial carpet company: to take nothing from the earth that can't be replaced by the earth. Now, Anderson leads the way forward and challenges all of industry to share that goal. The Interface story is a compelling one: in 1994, making carpets was a toxic, petroleum-based process, releasing immense amounts of air and water pollution and creating tons of waste. Fifteen years after Anderson's call for change, Interface has: —cut greenhouse gas emissions by 82%—cut fossil fuel consumption by 60%—cut waste by 66%—cut water use by 75%—invented and patented new machines, materials, and manufacturing processes—increased sales by 66%, doubled earnings, and raised profit margins With practical ideas and measurable outcomes that every business can use, Anderson shows that profit and sustainability are not mutually exclusive; businesses can improve their bottom lines and do right by the earth. Ray Anderson is featured in the film, *So Right, So Smart*, which takes a behind-the-scenes look at how his leadership transformed Interface into a company with a sustainable business practices that made it more profitable than it was before.

Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's

Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

[you] Ruined It for Everyone! Matthew Vincent, 2010-10-01 Energy sources are massively depleted. The government is wasteful and incompetent. The economy is imploding, the environment is toxic, and international terrorism threatens our day-to-day lives. And gum sucks. It just sucks. Who is responsible? Who made our world so dangerous, so unlivable, so stupid? Matthew Vincent is unafraid to name names. Who’s to blame for the three-ounce rule on airplanes? Who came up with the bright idea of branding every single sports stadium? Who made curling an Olympic event? Which pope made celibacy mandatory? Who invented daylight saving time? (Who doesn’t hate daylight saving time?) Here’s a book that’ll tell you who invented every unnecessary, annoying gadget that plagues modern life and haunts your dreams. It’s a book to keep in your bathroom for perusal before

you end up having to drink out of your toilet bowl because there's no potable water left in your hemisphere. Here's a book that'll tell you who ruined it for everyone.

Knowledge Unbound Peter Suber, 2016-04-06 Influential writings make the case for open access to research, explore its implications, and document the early struggles and successes of the open access movement. Peter Suber has been a leading advocate for open access since 2001 and has worked full time on issues of open access since 2003. As a professor of philosophy during the early days of the internet, he realized its power and potential as a medium for scholarship. As he writes now, "it was like an asteroid crash, fundamentally changing the environment, challenging dinosaurs to adapt, and challenging all of us to figure out whether we were dinosaurs." When Suber began putting his writings and course materials online for anyone to use for any purpose, he soon experienced the benefits of that wider exposure. In 2001, he started a newsletter—the Free Online Scholarship Newsletter, which later became the SPARC Open Access Newsletter—in which he explored the implications of open access for research and scholarship. This book offers a selection of some of Suber's most significant and influential writings on open access from 2002 to 2010. In these texts, Suber makes the case for open access to research; answers common questions, objections, and misunderstandings; analyzes policy issues; and documents the growth and evolution of open access during its most critical early decade.

Business Lessons from a Radical Industrialist Ray Anderson, 2009-09-15 "America's greenest CEO" and the hero from the award-winning documentary *The Corporation* makes the urgent, compelling case that sustainable business pays. His story is now legend. In 1994, after reading *The Ecology of Commerce* by Paul Hawken, Ray Anderson felt a "spear in the chest": the founder of Interface, Inc., a billion-dollar carpeting manufacturer, realized that his company was plundering the environment and he needed to steer it on a new course. Since then, Interface has cut its greenhouse gas emissions by 82%, and the goal is to reach zero environmental footprint by 2020. Thoughtful and winning, *Confessions of a Radical Industrialist* shows how Anderson revolutionized his company, in the process bringing costs down, improving quality, making it one of *Fortune's* "100

Best Companies to Work For” — and driving up profits. *The publisher has aimed for sustainability in all aspects of this book’s production, from the inks and glues to the trim size. The interior paper is 100% post-consumer recycled, certified by the Forest Stewardship Council, and ancient-forest friendly.
