Springer Handbook of Geographic Information Wolfgang Kresse,David M. Danko,2012-02-21 Computer science provides a powerful tool that was virtually unknown three generations ago. Some of the classical fields of knowledge are geodesy (surveying), cartography, and geography. Electronics have revolutionized geodetic methods. Cartography has faced the dominance of the computer that results in simplified cartographic products. All three fields make use of basic components such as the Internet and databases. The Springer Handbook of Geographic Information is organized in three parts, Basics, Geographic Information and Applications. Some parts of the basics belong to the larger field of computer science. However, the reader gets a comprehensive view on geographic information because the topics selected from computer science have a close relation to geographic information. The Springer Handbook of Geographic Information is written for scientists at universities and industry as well as advanced and PhD students.

A Kid's Guide to Arab American History Yvonne Wakim Dennis,Maha Addasi,2013-01-01 Many Americans, educators included, mistakenly believe all Arabs share the same culture, language, and religion, and have only recently begun immigrating to the United States. A Kid's Guide to Arab American History dispels these and other stereotypes and provides a contemporary as well as historical look at the people and experiences that have shaped Arab American culture. Each chapter focuses on a different group of Arab Americans including those of Lebanese, Syrian, Palestinian, Jordanian, Egyptian, Iraqi, and Yemeni descent and features more than 50 fun activities that highlight their distinct arts, games, clothing, and food. Kids will love dancing the dabke, constructing a derbekke drum, playing a game of senet, making hummus, creating an arabesque design, and crafting an Egyptian-style cuff bracelet. Along the way they will learn to count in Kurdish, pick up a few Syrian words for family members, learn a Yemeni saying, and speak a little Iraqi. Short biographies of notable Arab Americans, including actor and philanthropist Danny Thomas, singer Paula Abdul, artist Helen Zughaib, and activist Ralph Nader, demonstrate a wide variety of careers and contributions.
