The Cambridge Companion to The Waste Land Gabrielle McIntire,2015-08-31 T. S. Eliot's The Waste Land is often considered to be the most important poem written in English in the twentieth century. The poem dramatically shattered old patterns of form and style, proposed a new paradigm for poetry and poetic thought, demanded recognition from all literary quarters, and changed the ways in which it was possible to approach, read, or write poetry. The Waste Land helped to define the literary and artistic period known as modernism. This Companion is the first to be dedicated to the work as a whole, offering fifteen new essays by international scholars and covering an extensive range of topics. Written in a style that is at once sophisticated and accessible, these fresh critical perspectives will serve as an invaluable guide for scholars, students, and general readers alike.

Ideal for students and general readers, this book includes insightful, current information about France's past, present, and future. France is the country most visited by international tourists. Aside from clichéd images of baguettes and the Eiffel Tower, however, what is French society and culture really like? Chapter topics include: geography; history; government and politics; economy; religion and thought; social classes and ethnicity; gender, marriage, and sexuality; education; language; etiquette; literature and drama; art and architecture; music and dance; food; leisure and sports; and media and popular culture. Each chapter contains an overview of the topic and alphabetized entries on examples of each theme. A detailed historical timeline covers prehistoric times to the presidency of Emmanuel Macron. Special appendices offer profiles of a typical day in the life of representative members of French society, a glossary, key facts and figures about France, and a holiday chart. The volume will be useful for readers looking for specific topical information and for those who want to develop an informed perspective on aspects of modern France.

The Making of a Museum Judith Nasby,2021-10-13 Judith Nasby, founding director and curator of the Macdonald Stewart Art Centre, animates the story of the gallery from its humble beginnings in the hallways of a university campus in 1916 to its latest incarnation as the internationally recognized Art Gallery of Guelph. The book is beautifully illustrated with eighty images of artworks in the permanent collection, beginning with the gallery's first acquisition, Tom Thomson's 1917 masterpiece The Drive, the last large canvas he painted before his tragic death. As curator, Nasby oversaw the creation of one of the most comprehensive sculpture parks in Canada and the amassing of a permanent collection of some nine thousand artworks. In The Making of a Museum Nasby reveals how the museum developed its internationally recognized collection of contemporary Inuit drawings and wall hangings that toured four continents. She discusses the development of the collection's specializations in contemporary works by Canadian silversmiths; historical European etchings; Woodland and Northeastern Indigenous beadwork; and others that arose from curatorial collaborations, such as molas by Kuna women artists from Panama and contemporary paintings and indigenous woodcuts from Chongqing, China. Nasby recounts her long career as founding director and curator, peppering the hundred-year history of cultural development on the University of Guelph campus and in the city with humorous anecdotes and personal insights to reveal how arts institutions can be created through dedication, serendipity, and perseverance.
