**Gault&Millau 2018 Restaurant Guide** Fritz Gubler,2017-11-13 A restaurant guide featuring detailed reviews for more than 700 restaurants.

**2014 Sydney Restaurant Guide** Fritz Gubler,Gault and Millau Australia Staff,2013-11-11 For the first time ever, the internationally recognised Gault&Millau food guide is coming to Australia! The brainchild of Henri Gault and Christian Millau, Gault&Millau published its first food guide in 1972, transforming modern cuisine with its revolutionary approach to food, which emphasised innovation and fresh produce. More than forty years on, Gault&Millau is one of the most trusted brand names in Europe. Its restaurant and wine guides are definitive: authoritative, rigorous and independent. Following the standards set by the original French guide, the 2014 Sydney Restaurant Guide focuses on what really matters: the food. We prize the skill and creativity of chefs and the quality of the food above all other aspects of restaurant dining. With fully-independent, internationally-trained judges, reliable, unbiased reviewing is the cornerstone of the guide. Adopting the 20-point and 5-hat system currently used in France, the 2014 Sydney Restaurant Guide also enables global benchmarking of Australian restaurants and chefs. With more than 300 Sydney restaurant reviews, in-depth profiles of up-and-coming and established chefs and a host of fascinating tips and articles, the 2014 Sydney Restaurant Guide is both the dedicated food lover's must-have companion in navigating Sydney's vibrant restaurant scene and a brand-new platform upon which Australia's talented chefs can demonstrate their passion for food.

**Complexity in Entrepreneurship, Innovation and Technology Research** Elisabeth S.C. Berger,Andreas Kuckertz,2016-02-25 This volume discusses the challenge of dealing with complexity in entrepreneurship, innovation and technology research. Businesses as well as entire economies are increasingly being confronted by widespread complex systems. Fields such as entrepreneurship and innovation cannot ignore this reality, especially with their inherent links to diverse research fields and interdisciplinary methods. However, most methods that allow more detailed analyses of complex problems are either neglected in mainstream research or are, at best, still emerging. Against this backdrop, this book provides a forum for the discussion of emergent and neglected methods in the context of complexity in entrepreneurship, innovation and technology research, and also acts as an inspiration for academics across related disciplines to engage more in complexity research.

The Cultivation of Taste Christel Lane, 2014-02-14 After many decades, if not centuries, of neglect of fine food and high-level restaurants in Britain, we are seeing a massive explosion of interest in food, cooking, and dining out. Christel Lane's book charts the process of this transformation and examines top contemporary restaurants and their chefs. The Cultivation of Taste presents a comparative study of Michelin-starred restaurants in Britain and Germany, focusing on two countries without an indigenous haute cuisine but which nevertheless have developed internationally reputed fine-dining sectors, and comparing their development to the fine-dining culture in France. Written from a sociological perspective, chefs are portrayed as part of a complex network, in their relationships with their employees, their customers, gastronomic critics, suppliers of food, and even their financiers. It will appeal to academics in the areas of economic and cultural sociology, and those with an interest in small entrepreneurial firms and their work relations, but also to all those who have an interest in fine-dining restaurants and the chef patrons at the centre of them. The book draws on a large number of interviews with renowned chefs, diners, and Michelin inspectors to provide an unprecedented insight into what goes on in Michelin-starred restaurants—what makes their chefs tick, intrigues their critics, and beguiles or annoys their customers. Restaurants are viewed not simply as businesses but as cultural enterprises that shape our taste in food, ambience, and sociality.

**Critics, Ratings, and Society** Grant Blank, 2007 Critics, Ratings, and Society is the first comprehensive study of the review as social institution. Its theories and data encompass reviews of all types of products—including the arts (e.g. theater, books, and music) and consumer products (e.g. cars, software, and appliances). According to Blank, the core problem of reviews is credibility. Concerns about credibility organize the formulation of reviews and audiences. The connoisseurial-procedural distinction describes the production of credibility and its assessment under different types of rating systems.

Switzerland without a Car Anthony Lambert, 2017-10-05 This thoroughly updated edition of Bradt's guide to Switzerland offers a unique perspective on getting the most from this mountainous country travelling only by public transport - a timely release with the Gotthard Base Tunnel transforming north-south train services. Switzerland boasts the world's finest public transport network, and the Swiss Travel System is a revelation. The comfort, efficiency and frequency of train, bus, boat and cable car services explain why so many Swiss don't own cars. Visitors cannot reach many of the finest Swiss sights by road, and there are over a dozen car-free resorts for experiencing the peace and clean air of the mountains. For walkers and cyclists, there are superbly managed networks of paths - almost 64,000 kilometres of footpaths and many surprisingly unhilly cycle paths beside lakes and rivers. Bradt's Switzerland is unique. No other guide book is devoted to Swiss public transport, which is the easiest, most enjoyable and responsible way to travel. The guide offers depth and breadth of coverage, encompassing culture, architecture, landscapes, walking and cycling, and fascinating facts for railway enthusiasts! There's a host of tips for reducing costs in a country known for being expensive, while a new section on food and wine includes a list of top restaurants. Switzerland has some of the world's most beautiful landscapes; though mountains and lakes cover most of the country's regions, each offers something quite different - and the four official languages add colour and variety. Switzerland's cities are among the world's most beautiful - and safest. Its capital, Bern, is a World Heritage Site with 6 kilometres of covered arcades, where even jaded shoppers will be enthralled by hundreds of independent shops. Luzern's lakeside setting is unrivalled, with mountains in every direction and the floodlit city walls providing a breath-taking backdrop to the historic centre.

Lausanne and Geneva overlook Lac Léman, and Basel is enhanced by a broad sweep of the Rhine. With Bradt's Switzerland: a guide to exploring the country by public transport, you can enjoy all the qualities that help ensure Switzerland and its cities are consistently ranked as the most liveable in the world.

He and his brother, Luca, a sommelier, own the two-Michelin-stars restaurant Bracali in Massa Marittima, Tuscany. Once an unpretentious tavern run by their parents, the brothers turned it into a fine dining place where they revisited the region's rich gastronomic traditions in an innovative way. Their revolutionary approach--a novelty at first--today boasts international recognition. This book examines Tuscany's culinary history and analyzes the Bracali brothers' interpretation of traditional dishes and fine wine.
