Succession in Family Businesses Katharina Heinrichs, 2014-04-08 Succession is inevitable and vital for the longevity of family businesses. But what do we know about succession in family businesses and where do we go from here? How does the interaction of family and business impact on succession? And which roles play identity and family member identification during the succession process? This book expands our knowledge on succession and prepares the grounds for a holistic view of succession in family businesses. Its first contribution is a systematic, replicable, and scientific review and consolidation of the theoretical and empirical literature on succession of the last 18 years into a transparent, logical, and in-depth framework. Furthermore, by analyzing the business and the family dimension in the context of succession, this book aims at detecting different succession patterns in family businesses and analyzes which factors influence the nature of successful succession processes. Besides its scientific contribution, this book helps family businesses and business families to better understand mechanisms happening during succession and enables them to identify and to understand their individual succession pattern. The findings of this book are based on a qualitative study conducted in the German Wine Industry. The sample consists of 21 family-owned and -managed German wineries, being, on average, in their 11th generation of existence. 37 semi-structured interviews held with both generations of one family if possible, translated into 695 pages of raw data. This data was coded and analyzed following a grounded theory approach.

Gault Millau Guide to German Wine Armin Diel, Joel Payne, 2005-08 The last three stunning vintages in Germany have revived international interest in these elegant, food-friendly and affordable wines. This guide is the pre-eminent resource for wine professionals and aficionados alike. For the past 12 years, the Gault Millau Guide to German Wines has both reported on and encouraged the

recent German wine renaissance. Book jacket.

Encyclopedia of Contemporary French Culture Alexandra Hughes,Alex Hughes,Keith A Reader,Keith Reader,2002-03-11 More than 700 alphabetically organized entries by an international team of contributors provide a fascinating survey of French culture post 1945. Entries include: * advertising * Beur cinema * Coco Chanel * decolonization * écriture féminine * football * francophone press * gay activism * Seuil * youth culture Entries range from short factual/biographical pieces to longer overview articles. All are extensively cross-referenced and longer entries are 'facts-fronted' so important information is clear at a glance. It includes a thematic contents list, extensive index and suggestions for further reading. The Encyclopedia will provide hours of enjoyable browsing for all francophiles, and essential cultural context for students of French, Modern History, Comparative European Studies and Cultural Studies.

Transgenerational Entrepreneurship M. Nordqvist,T. Zellweger,2010-01-01 Introducing a new concept in family businesses Transgenerational Entrepreneurship addresses how these businesses achieve growth and longevity through entrepreneurial activities. It focuses on the resources, capabilities and mindsets that families develop and draw upon in order to be entrepreneurial across generations, and presents findings from an international research collaboration between family business researchers and practitioners. In addition to a comprehensive conceptual chapter, the editors include a unique set of empirical case-based research papers that investigates transgenerational entrepreneurship in different European contexts. They bring together and integrate frontier research on entrepreneurship and family business, as well as provide a basis for future research. Academics, teachers and students in business and management, entrepreneurship and family business will find this path-breaking book of value, as will libraries, policy makers and

consultants.

Taste Slovenia Janez Bogataj, 2007

Accounting for Taste Priscilla Parkhurst Ferguson, 2006-08-01 French cuisine is such a staple in our understanding of fine food that we forget the accidents of history that led to its creation. Accounting for Taste brings these accidents to the surface, illuminating the magic of French cuisine and the mystery behind its historical development. Priscilla Parkhurst Ferguson explains how the food of France became French cuisine. This momentous culinary journey begins with Ancien Régime cookbooks and ends with twenty-first-century cooking programs. It takes us from Carême, the inventor of modern French cuisine in the early nineteenth century, to top chefs today, such as Daniel Boulud and Jacques Pépin. Not a history of French cuisine, Accounting for Taste focuses on the people, places, and institutions that have made this cuisine what it is today: a privileged vehicle for national identity, a model of cultural ascendancy, and a pivotal site where practice and performance intersect. With sources as various as the novels of Balzac and Proust, interviews with contemporary chefs such as David Bouley and Charlie Trotter, and the film *Babette's Feast*, Ferguson maps the cultural field that structures culinary affairs in France and then exports its crucial ingredients. What's more, well beyond food, the intricate connections between cuisine and country, between local practice and national identity, illuminate the concept of culture itself. To Brillat-Savarin's famous dictum—Animals fill themselves, people eat, intelligent people alone know how to eat—Priscilla Ferguson adds, and Accounting for Taste shows, how the truly intelligent also know why they eat the way they do. “Parkhurst Ferguson has her nose in the right place, and an infectious lust for her subject that makes this trawl through the history and cultural significance of French food—from French Revolution to

Babette's Feast via Balzac's suppers and Proust's madeleines—a satisfying meal of varied courses.”—Ian Kelly, *Times* (UK)

Foodies Josee Johnston, Shyon Baumann, 2014-12-19 This important cultural analysis tells two stories about food. The first depicts good food as democratic. Foodies frequent ‘hole in the wall’ ethnic eateries, appreciate the pie found in working-class truck stops, and reject the snobbery of fancy French restaurants with formal table service. The second story describes how food operates as a source of status and distinction for economic and cultural elites, indirectly maintaining and reproducing social inequality. While the first storyline insists that anybody can be a foodie, the second asks foodies to look in the mirror and think about their relative social and economic privilege. By simultaneously considering both of these stories, and studying how they operate in tension, a delicious sociology of food becomes available, perfect for teaching a broad range of cultural sociology courses.

Modernist Cuisine at Home , 2012 This book focuses on cooking equipment, techniques, and recipes--P. xvii.

Appetite for Innovation M. Pilar Opazo, 2016-07-05 The name elBulli is synonymous with creativity and innovation. Located in Catalonia, Spain, the three-star Michelin restaurant led the world to molecular or techno-emotional cooking and made creations, such as pine-nut marshmallows, rose-scented mozzarella, liquid olives, and melon caviar, into sensational reality. People traveled from all over the world—if they could secure a reservation during its six months of operation—to experience the wonder that chef Ferran Adrià and his team concocted in their test kitchen, never offering the same dish twice. Yet elBulli's business model proved unsustainable. The restaurant converted to a foundation in 2011, and is working hard on its next revolution. Will elBulli continue to innovate? What

must an organization do to create something new? Appetite for Innovation is an organizational analysis of elBulli and the nature of innovation. Pilar Opazo joined elBulli's inner circle as the restaurant transitioned from a for-profit business to its new organizational model. In this book, she compares this moment to the culture of change that first made elBulli famous, and then describes the novel forms of communication, idea mobilization, and embeddedness that continue to encourage the staff to focus and invent as a whole. She finds that the successful strategies employed by elBulli are similar to those required for innovation in art, music, business, and technology, proving the value of the elBulli model across organizations and industries.

Luxury Tourism Roland Conrady, David Ruetz, Marc Aeberhard, 2020-10-31 Over the past two decades, through unprecedented levels of prosperity and changing values, luxury tourism has transformed into a new consumption pattern. This book analyzes the topic in detail with contributions from both recognized scientists and prominent executives in the luxury business. It shows how the concept of luxury has shifted from material to immaterial dimensions, and outlines new trends that will shape the luxury market in the future. The content includes carefully selected leading examples from the most important segments of the tourism market, along with concrete recommendations and best practices. Sharing unique insights, the book is a must-read for those working in the tourism industry, as well as lecturers and university students of tourism.

Setting the Table Danny Meyer, 2009-10-13 The bestselling business book from award-winning restaurateur Danny Meyer, of Union Square Cafe, Gramercy Tavern, and Shake Shack Seventy-five percent of all new restaurant ventures fail, and of those that do stick around, only a few become icons. Danny Meyer started Union Square Cafe when he was 27, with a good idea and hopeful investors. He is now the co-owner of a restaurant empire. How did he do it? How did he beat the odds

in one of the toughest trades around? In this landmark book, Danny shares the lessons he learned developing the dynamic philosophy he calls Enlightened Hospitality. The tenets of that philosophy, which emphasize strong in-house relationships as well as customer satisfaction, are applicable to anyone who works in any business. Whether you are a manager, an executive, or a waiter, Danny's story and philosophy will help you become more effective and productive, while deepening your understanding and appreciation of a job well done. *Setting the Table* is landmark a motivational work from one of our era's most gifted and insightful business leaders.

Kitchens Gary Alan Fine, 2008-12-02 *Kitchens* takes us into the robust, overheated, backstage world of the contemporary restaurant. In this rich, often surprising portrait of the real lives of kitchen workers, Gary Alan Fine brings their experiences, challenges, and satisfactions to colorful life. A new preface updates this riveting exploration of how restaurants actually work, both individually and as part of a larger culinary culture.

The Production of Consumer Society Ernst Mohr, 2021-04 With a novel quality theory of consumption which treats opulence and self-restraint in consumption styles symmetrically, Ernst Mohr shows how social distance and proximity are communicated by consumption and produced by communication. He positions fringe styles with those of the mainstream in an overall stylistic system of society and analyses their encounters. Rigorously derived, the approach casts fresh light on the cultural and social evolution as well as the business models of the consumer industry. It provides a coherent interdisciplinary access to the aesthetic turn of society that has so far been treated with contradictory paradigms.

OECD Studies on Tourism Food and the Tourism Experience The OECD-Korea Workshop
OECD, 2012-02-22 This publication provides an understanding of the role of food tourism in local

economic development and its potential for country branding. It also presents several innovative case studies in the food tourism sector and the experience industry.

The Cambridge Handbook of Creativity across Domains James C. Kaufman,Vlad P. Glăveanu,John Baer,2017-09-28 Creativity is of rising interest to scholars and laypeople alike. Creativity in the arts, however, is very different from creativity in science, business, sports, cooking, or teaching. This book brings together top experts in the field from around the world to discuss creativity across many different domains. Each chapter includes clear definitions, intriguing research, potential measures, and suggestions for development or future directions. After a broad discussion of creativity across different domains, subsequent chapters look deeper into those individual domains (traditional arts, sciences, business, newer domains, and everyday life) to explore how creativity varies when expressed in different ways. Ultimately, the book offers a future-looking perspective integrating the different variations of creativity across domains.

Sensory Marketing Bertil Hultén,2020-04-27 Authored by Bertil Hultén, one of the world's leading professors of sensory marketing, this text brilliantly explains the techniques through which a sensory experience can be created to surround a consumer. Sensory experiences combine not only to increase the chance of an immediate sale, but to influence perception of a product which then plays into a customer's chance of return, and brand loyalty for the future. • Hulten provides definitions, insight boxes, questions and case studies to provide an engaging learning experience. • The author is one of the most published professors in the field, sharing exclusive expertise and experience. • The book is thorough yet accessible, dedicating a chapter to each of the 5 senses.

Wine Globalization Kym Anderson, Vicente Pinilla, 2018-02-22 In this anthology, editors Kym Anderson and Vicente Pinilla have gathered together some of the world's leading wine economists and economic historians to examine the development of national wine industries before and during the two waves of globalization. The empirically-based chapters analyse developments in all key wine-producing and consuming countries using a common methodology to explain long-term trends and cycles in wine production, consumption, and trade. The authors cover topics such as the role of new technologies, policies, institutions, as well as exchange rate movements, international market developments, evolutions in grape varieties, and wine quality changes. The final chapter draws on an economic model of global wine markets, to project those markets to 2025 based on various assumptions about population and income growth, real exchange rates, and other factors. All authors of the book contributed to a unique global database of annual data back to the mid-nineteenth century which has been compiled by the book editors.
