Queer Airwaves: The Story of Gay and Lesbian Broadcasting Phylis W Johnson, Michael C Keith, 2014-12-18 This book is both a retrospective history of the gay community's use of electronic media as a way of networking and creating a sense of community, and an examination of the current situation, an analysis and critical assessment of gay/lesbian electronic media. Keith and Johnson use original interviews and oral history to delineate the place of electronic media in the lives of this increasingly visible and vocal minority in America.

Poetry FM Lisa Hollenbach, 2023-05-12 Poetry FM is the first book to explore the dynamic relationship between post-1945 poetry and radio in the United States. Contrary to assumptions about the decline of literary radio production in the television age, the transformation of the broadcasting industry after World War II changed writers' engagement with radio in ways that impacted both the experimental development of FM radio and the oral, performative emphasis of postwar poetry. Lisa Hollenbach traces the history of Pacifica Radio—founded in 1946, the nation's first listener-supported public radio network—through the 1970s: from the radical pacifists and poets who founded Pacifica after the war; to the San Francisco Renaissance, Beat, and New York poets who helped define the countercultural sound of Pacifica stations KPFA and WBAI in the 1950s and 1960s; to the feminist poets and activists who seized Pacifica's frequencies in the 1970s. In the poems and recorded broadcasts of writers like Kenneth Rexroth, Jack Spicer, Allen Ginsberg, Amiri Baraka, Audre Lorde, Pat Parker, Bernadette Mayer, and Susan Howe, one finds a recurring ambivalence about the technics and poetics of reception. Through tropes of static noise, censorship, and inaudibility as well as voice, sound, and signal, these radiopoetic works suggest new ways of listening to the sounds and silences of Cold War American culture.

Radio Cultures Michael C. Keith, 2008 Radio Cultures examines the manifold ways in which radio has influenced the nation's social and cultural environment since its inception nearly a century ago. Written by leading scholars in the field, chapters address a wide range of topics, including how this powerful medium has impacted and affected non-mainstream segments of the population throughout its history and how these repressed and neglected groups have employed radio to counter and overcome discrimination and bias. The use of the audio medium for political, economic, and religious purposes is comprehensively probed and analyzed in this insightful and innovative volume.--Back cover.

Sounds of Change Christopher H. Sterling, Michael C. Keith, 2009-09-15 When it first appeared in the 1930s, FM radio was a technological marvel, providing better sound and nearly eliminating the static that plagued AM stations. It took another forty years, however, for FM's popularity to surpass that of AM. In *Sounds of Change*, Christopher Sterling and Michael Keith detail the history of FM, from its inception to its dominance (for now, at least) of the airwaves. Initially, FM's identity as a separate service was stifled, since most FM outlets were AM-owned and simply simulcast AM

programming and advertising. A wartime hiatus followed by the rise of television precipitated the failure of hundreds of FM stations. As Sterling and Keith explain, the 1960s brought FCC regulations allowing stereo transmission and requiring FM programs to differ from those broadcast on co-owned AM stations. Forced nonduplication led some FM stations to branch out into experimental programming, which attracted the counterculture movement, minority groups, and noncommercial public and college radio. By 1979, mainstream commercial FM was finally reaching larger audiences than AM. The story of FM since 1980, the authors say, is the story of radio, especially in its many musical formats. But trouble looms. Sterling and Keith conclude by looking ahead to the age of digital radio--which includes satellite and internet stations as well as terrestrial stations--suggesting that FM's decline will be partly a result of self-inflicted wounds--bland programming, excessive advertising, and little variety.

The A to Z of Australian Radio and Television Albert Moran,Chris Keating,2009-08-04 Australians have become increasingly visible outside of the country as speakers and actors in radio and television, their media moguls have frequently bought up foreign companies, and people around the world have been able to enjoy such Australian productions as *The Flying Doctors*, *Neighbours*, and *Kath and Kim*. The origins, early development, and later adaptations of radio and television show how Australia has gone from being a minor and rather parochial player to being a significant part of the international scene. *The A to Z of Australian Radio and Television* provides essential facts and information concerning the Australian radio and television industry. This is accomplished through the use of a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on directors, producers, writers, actors, television and radio series, and television and radio stations.

Alternate Channels Steven Capsuto,2000 Definitive, vibrant, and utterly fascinating, *ALTERNATE CHANNELS* traces the monumental growth of gay, lesbian, and bisexual images on radio and television from the 1930s to the present. Splashed against the tumultuous backdrop of the McCarthy witch hunts, Stonewall and the gay liberation movement, the birth of the 700 Club and the religious right, the outbreak of AIDS and the arrival of in-your-face queer activism, this chatty, authoritative broadcast history tells the stories of such notorious and noteworthy moments as -- 1947: Radio gays -- A bitchy fashion photographer throws fits at the drop of a designer hat on the adaptation of Moss Hart's *Lady in the Dark* -- 1967: Monkey business -- The Monkees flick limp wrists while caroling *Don we now our gay apparel* for a Christmas special -- 1974: *Pepper in the wound* -- A notorious *Police Woman* episode depicts a gang of deadly lesbians who rob, torture, and murder senior

citizens -- 1977: Wash your mouth out -- Billy Crystal portrays Jodie Dallas on Soap, the first hit series with a gay character in a central role -- 1991: L.A. Law breaks 'em -- Amanda Donohoe and Michele Greene share a two-second kiss...and start a storm of controversy -- 2000: The last laugh -- Featuring not one but two gay male characters, Will & Grace skyrockets to the top of the ratings charts From mocking effeminate banter on '50s radio to out-and-proud family on '90s television, from the stereotyping of gays, lesbians, and bisexuals as sissies and psychopaths to their widespread acceptance as real people: these changes are charted in ALTERNATE CHANNELS. This compulsively readable chronicle of lesbian, gay, and bisexual images in the media ispacked with unthinkable shows, bizarre personalities, unlikely heroes, and some of the strangest protests ever staged in the name of civil rights.

Glass Ceilings Daniels, Glenda,Tarisai, Nyamweda,2018-11-05 The third Glass Ceilings survey of South African media launched on 19 October - national press freedom day - 2018 shows there have been dramatic shifts in the race and gender composition of media since the first study twelve years ago. But black women are still not fairly represented in media decision-making; the pay gap is widening, especially in the age of digitisation; and the old boys' network is alive and well. In the #MeToo and #TotalShutDown era, the conversation is moving beyond numbers, to the underlying patriarchal norms that fuel sexist attitudes, harassment and its newest ugly form – cyber misogyny. With the 25th anniversary of democracy fast approaching, the key message in the report is that #TimesUp for the South African media and #TimeisNow to walk the talk of gender equality!

The Concise Encyclopedia of American Radio Christopher H. Sterling,Cary O'Dell,2010-04-12 The average American listens to the radio three hours a day. In light of recent technological developments such as internet radio, some argue that the medium is facing a crisis, while others claim we are at the dawn of a new radio revolution. The Concise Encyclopedia of American Radio is an essential single-volume reference guide to this vital and evolving medium. It brings together the best and most important entries from the three-volume Museum of Broadcast Communications Encyclopedia of Radio, edited by Christopher Sterling. Comprised of more than 300 entries spanning the invention of radio to the Internet, The Concise Encyclopedia of American Radio addresses personalities, music genres, regulations, technology, programming and stations, the golden age of radio and other topics relating to radio broadcasting throughout its history. The entries are updated throughout and the volume includes nine new entries on topics ranging from podcasting to the decline of radio. The Concise Encyclopedia of American Radio include suggestions for further reading as complements to most of the articles, biographical details for all person-entries, production credits for programs, and a comprehensive index.

The Ugandan Morality Crusade Deborah Kintu, 2017-11-28 In 1999, General Museveni, Uganda's autocratic leader, ordered police to arrest homosexuals for engaging in behavior that he characterized as un-African and against Biblical teaching. A state-sanctioned campaign of harassment of LGBT people followed. With the approval of sections of Uganda's clergy (and with the support of U.S. evangelicals) harsh morality laws were passed against pornography and homosexual acts. The former law disproportionately affected urban women, curtailing their freedoms. The latter--known as the kill the gays bill--called for life imprisonment or capital punishment for homosexuals. The author weaves together a series of vignettes that trace the development of Uganda's morality laws amidst Machiavellian politics, religious fundamentalism and the human rights struggle of LGBT Ugandans.
