She Explores Gale Straub,2019-03-26 For every woman who has ever been called outdoorsy comes a collection of stories that inspires unforgettable adventure. Beautiful, empowering, and exhilarating, *She Explores* is a spirited celebration of female bravery and courage, and an inspirational companion for any woman who wants to travel the world on her own terms. Combining breathtaking travel photography with compelling personal narratives, *She Explores* shares the stories of 40 diverse women on unforgettable journeys in nature: women who live out of vans, trucks, and vintage trailers, hiking the wild, cooking meals over campfires, and sleeping under the stars. Women biking through the countryside, embarking on an unknown road trip, or backpacking through the outdoors with their young children in tow. Complementing the narratives are practical tips and advice for women planning their own trips, including: • Preparing for a solo hike • Must-haves for a road-trip kitchen • Planning ahead for unknown territory • Telling your own story A visually stunning and emotionally satisfying collection for any woman craving new landscapes and adventure.

Anglo-Saxon Towers of Lordship Michael G. Shapland,2019-01-10 It has long been assumed that England lay outside the Western European tradition of castle-building until after the Norman Conquest of 1066. It is now becoming apparent that Anglo-Saxon lords had been constructing free-standing towers at their residences all across England over the course of the tenth and eleventh centuries. Initially these towers were exclusively of timber, and quite modest in their scale, although only a handful are known from archaeological excavation. There followed the so-called 'tower-nave' churches, towers with only a tiny chapel located inside, which appear to have had a dual function as buildings of elite worship and symbols of secular power and authority. For the first time, this book gathers together the evidence for these remarkable buildings, many of which still stand incorporated into the fabric of Norman and later parish churches and castles. It traces their origin in monasteries, where kings and bishops drew upon Continental European practice to construct centrally-planned, tower-like chapels for private worship and burial, and to mark gates and important entrances, particularly within the context of the tenth-century Monastic Reform. Adopted by the secular aristocracy to adorn their own manorial sites, it argues that many of the known examples would have provided strategic advantage as watchtowers over roads, rivers and beacon-systems, and have acted as focal points for the mustering of troops. The tower-nave form persisted into early Norman England, where it may have influenced a variety of high-status building types, such as episcopal chapels and monastic belltowers, and even the

keeps and gatehouses of the earliest stone castles. The aim of this book is to finally establish the tower-nave as an important Anglo-Saxon building type, and to explore the social, architectural, and landscape contexts in which they operated.

Chronicles of Conan Volume 1: Tower of the Elephant and Other Stories Roy Thomas,2003-10-07

In the early 1970s, Robert E. Howard's Conan the Barbarian exploded on to the comics scene. Writer Roy Thomas teamed with a young artist named Barry Smith, and together the two mapped out some of the most stirring and memorable Conan adventures to come along since those written by Howard himself. Over the course of their 24 issue run together, Thomas and Smith defined Conan for a generation of comics readers, and now those stories are collected in this series. Featuring completely remastered color and text corrections, and containing material not available for nearly thirty years.

All the Light We Cannot See Anthony Doerr,2014-05-06 *NOW A NETFLIX LIMITED

SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a

magnificent, deeply moving novel from a writer “whose sentences never fail to thrill” (Los Angeles Times).

White Towers Paul Hirshorn,Steven Izenour,2007 Today's dominant fast-food franchises spend millions to persuade us that they do it all for us, that we can have it our way. White Tower, the pioneering hamburger chain founded in 1926, never felt the need for this kind of advertising; it depended on its instantly recognizable building to say it all. Those gleaming white (clean), well-lighted (always open), streamlined (fast and efficient), human-scaled (friendly) structures were three-dimensional billboards for their franchise, capped by an actual white tower often redundantly labeled, in bold graphics, White Tower. This was branding before the age of branding.
