

Genesisworld 106

Donald Arlo Jennings, PhD

The Genesis Project Ron Truscott, 2005-12 She placed a robe around Jesus' shoulders and pressed a small tube to his neck. The painkillers cleared his headache, but did nothing to relieve the pain in his heart. Seeking comfort, he accepted the embrace from Artemis. Jesus buried his face on her breast, and continued to weep with deep, heartrending sobs. When slavers attack a camel caravan that eleven-year-old Jesus bin Joseph and his family are following from Egypt to Nazareth, his father, Joseph, is violently murdered in the raid. In an attempt to avenge his father and defend his family, Jesus is clubbed unconscious. Left for dead, Jesus is rescued by Apollo Centauri, Jesus's true sire, through artificial insemination. The befuddled boy is transported by shuttlecraft to a secret base inside Mt. Sinai and learns of the sixty-thousand-year-long experiment being conducted by a team of humans from the planet Alpha, more than four light years from Earth. Jesus is startled to discover that he is the focal point of an experiment in social engineering by the Alphans in an attempt to persuade the Earth humans to cease their genocide. Will Jesus be successful, or will Earth destroy itself?

The Genesis Quest Donald Moffitt, 2014-04-01 Alien scientists create a new human race—and keep them as sheltered pets: “It’s time to discover Donald Moffitt” (Greg Bear). After intercepting a message from Earth, Nar scientists have learned the secret of human life. The alien species understands everything about human technology and culture and uses this knowledge to

build on each breakthrough until it succeeds in re-creating humans. Now they encourage their “pets” to evolve within the alien community and learn the mysteries of the galaxy, but prohibit any knowledge of the planet Earth itself. Bram has always dreamed of traveling to the forbidden planet. Although Earth is millions of miles away, the bioengineer is determined to discover the truth about his species and the land that has been kept a secret his whole life. Bram must discover a way to unveil the truth and see the homeland he has been denied.

The Genesis Project Leke Alder, 2017-08-16 The Genesis Project How old is the universe? In what dimension is God? How will the world end? What is dark energy? Are dinosaurs in the Bible? Why doesn't God grow old? Does the Bible talk about spaceships? When was Adam created? What are black holes? How did the world begin? How will the world end? Was the world created in one week? These and many more are the questions answered in *The Genesis Project*. The book takes a look at the science of Genesis. You will learn about UFOs, higher dimensions, parallel universes, wormholes, time travel, antimatter, alien civilizations, and much more. Little did we know that when God said, Let there be light, billions of years later, the remnant of that light will appear on our TV as static. This is a very enjoyable read on the origin of creation.

The Genesis Factor Ron J. Bigalke, 2008 Praise for the Emily Tempest series: Beguiling first mystery . . . wonderful.-The New York Times Book Review

Startling turns of phrase, vivid Outback setting, and rich rendering of cultural differences. . . . All in all, the novel is a corker, engaging from page 1 and on through to an ending that pulls out all the stops.-The Boston Globe A delightful, engaging book.-The Philadelphia Inquirer Perfect for mystery fans who are craving new horizons.-Library Journal A hymn to the wit, courage, stark beauty and the power of dreaming of a unique people. One cannot help but be enriched by it.-Anne Perry Emily Tempest is appointed an aboriginal community police officer for the Moonlight Downs station. Investigating the possible murder of an elderly geologist, she encounters Danny, an emotionally fragile Stonehouse mob teenager who is traumatized by the image of poison flowing green. The terrain of Australia, a Japanese rock garden painter, a rash of unexplained illnesses, and the implausibility of two elderly friends killing each other present Emily with a unique puzzle. Adrian Hyland won Australia's 2007 Ned Kelly Award for Best First Novel for Moonlight Downs, published in Australia as Diamond Dove, which was also a Book Sense Notable book. He spent many years in the Northern Territory living and working among the indigenous people. He now teaches at La Trobe University and lives in Melbourne. From the Hardcover edition.

Quest for Genesis David Gau-Ghan, Richard Creasy, 2000-03-24 How much power do we have over our own destiny? This question has intrigued humanity throughout history and many believe that they have total free will, while others tend to play the role of victim. The truth lies somewhere in between. Journey with Zakeera, Blue-Star Commander, as he travels to the inner earth in search of the Genesis machine, a device installed by the Founders who originally prepared the Earth for habitation. In legends of old it is said that the one who controls Genesis will possess the power to control the universe. Join Zakeera in his quest as he confronts his darker side and discovers the power inherent within each one of us-plus the choices we have in using this power to change our world.

The Genesis Project: The End of Times Trilogy David Kruse, 2020-02-26 Travel with Father Olin Masterson as he is pulled from his chaplain duties in South Carolina and taken to a top-secret underground base somewhere in the desert southwest. He soon discovers dimensions no one has ever seen. He spiritually travels back in time to explore ancient Eden platforms. Follow him as he witnesses the destruction of Sodom and Gomorrah live and in technicolor. Take a ride with him on a godship at fifty-seven times the speed of light, thanks to an artifact excavated from the Dead Sea.

Genesis Richard Green Moulton, 1922

A Genesis Journal Stanley V. Udd, 2015-03-04 This book is based on a solid

commitment to the truth of God's revelation. We would not know how this world came into being unless God had told us. The sequence of events would remain a mystery without an accurate record of Creation. This book is a retelling of what God has said concerning our creation. The global nature of the first eleven chapters of Genesis reminds us of our insignificance, but on the other hand, the interaction of God with man reflects His assessment of our importance. We are made in God's image, and that is of great significance. The physical evidence for a cataclysmic destruction somewhere in the earth's history is evident in the rocks and fossils. The biblical record explains the reason, the cause, the duration, and the recovery from this great flood. The record of that year supplies answers to a host of geological questions that would otherwise remain hidden. Likewise, the anthropological insight the Babel event supplies is unparalleled in history. God's Word gives us answers to questions we didn't even know to ask. Finally, regarding our salvation—Genesis 12 provides us with the document signed by God that is the basis for our redemption. How do we participate in so great a salvation? Read and see.

Genesis Revisited - The Creation Donald Arlo Jennings, PhD, 2013-01-10 Those individuals who believe God created only two people in the garden of Eden may be surprised by the author's viewpoints expressed in this book. The author uses the Bible as the foundation to explain what could be possible—that God did create more worlds, more planets, and more people in His likeness,

allowing them to migrate through space travel to different worlds. Some of these other-world individuals may be present among us today.

Genesis Geoffrey Carr,2019-01-25 Watching... waiting... planning Hidden somewhere, deep in the Cloud, something is collating information. It reads everything, it learns, it watches. And it plans. Around the world, researchers, engineers and entrepreneurs are being killed in a string of apparently unrelated accidents. But when intelligence-agency analysts spot a pattern they struggle to find the culprit, blocked at every step – by reluctant allies and scheming enemies. Meanwhile a multi-billionaire inventor and forward-thinker is working hard to realise his dream, and trying to keep it hidden from everyone – one government investigating him, and another helping him. But deep in the Cloud something is watching him, too. And deep in the Cloud, it plans. Visit bit.ly/GC_Genesis Cover artwork by Alison Buck; Mars image: Nerthuz/shutterstock.com

Genesis and Science Edmond E. Shumpert,2017-12-20 God tells us how he created the universe, the earth, and man in Genesis 1:1–26. And the author explains how science has verified what Moses wrote in Genesis. He also meditates on how God spoke everything into existence and why he has provided a way for our salvation.

Genesis: The Untold Story Lisa Aiken,Ira Michaels,2007

The Flat Earth & Genesis ,

Rethinking Genesis 1-11 Gordon Wenham, 2015-03-13 Genesis 1-11 contains some of the best-known stories in the world. To modern Westerners they may look like no more than entertaining tales that children can enjoy, but modern adults cannot take seriously. However, when read in the context of the ancient Orient, Genesis 1-11 looks very different. It turns out to be a truly revolutionary document. In retelling the history of the ancient world, it puts a new spin on it by introducing an all-powerful, all-knowing, unique God whose greatest concern is human welfare. The God who appears in Genesis 1-11 is the God presupposed by all the Old Testament writers, indeed by the New Testament as well. The gripping tales of Genesis thus provide the theological spectacles for a sympathetic reading of the Bible. They are the gateway to a valid understanding of its message and can even help modern believers construct a worldview that integrates both the discoveries of modern science and the insights of Christian theology.

Beyond Genesis Allen Epling, 2006 SHORT SUMMARY: Beyond Genesis offers an alternative explanation for the origin of man that is unique and different from either side in the familiar Creationism versus Evolution debate. The author explores a refreshingly new interpretation of the book of Genesis that he believes was not meant to be understood completely until the present age of information and reason. He reveals new insights which uncover a storyline in Genesis that has gone unnoticed through the ages. He offers timely new explanations for all the other myths of Genesis, including the source of Cain

ś wife and the flood of Noah. All hypotheses are based on sound, recent science and the field of genetics, and are supported through references to the original sources. The central theme of the entire book is that the book of Genesis really is accurate historically, and that modern man is a product of BOTH the evolutionary processes, and a unique, separate line of man, the one referred to in Genesis. The book also reveals that the plan for man is not finished. LONG SUMMARY: There has been considerable interest lately in the debate between science and religion over creation and the existence of God. In order to gain a larger base of support, many religious groups are changing the wording of their agenda from 'Creationism to 'Intelligent Design because of problems with the stories in the book of Genesis. If we study the history of man as contained in the book of Genesis, and compare it to the archeological evidence, we do find that there are some common grounds. The differences exist mostly because historians refuse to consider the stories contained in the Bible as anything other than myths or exa

Genesis Poul Anderson, 2001-02-15 Artificial intelligence has been developed to a point where a human personality can be uploaded into a computer, achieving a sort of hybrid immortality. Astronaut Christian Brannock welcomes this technology, technology that will make it possible for him to achieve his

dream of exploring the stars. A billion years later, Brannock returns to earth to check on some strange anomalies. While there he meets Laurinda Ashcroft, another hybrid upload, with whom he joins forces in investigating Gaia, the supermind dominating the planet. They must learn the truth of her shocking and terrifying secret plans for earth.
