*The Social Life of the Japanese Language* Shigeko Okamoto,Janet S. Shibamoto-Smith,2016-08-04 Why are different varieties of the Japanese language used differently in social interaction, and how are they perceived? How do honorifics operate to express diverse affective stances, such as politeness? Why have issues of gendered speech been so central in public discourse, and how are they reflected and refracted in language use as social practice? This book examines Japanese sociolinguistic phenomena from a fascinating new perspective, focusing on the historical construction of language norms and its relationship to actual language use in contemporary Japan. This socio-historically sensitive account stresses the different choices which have shaped Japanese and Western sociolinguistics and how varieties of Japanese, honorifics and politeness, and gendered language have emerged in response to the socio-political landscape in which a modernizing Japan found itself.

**Media in Foreign Language Teaching and Learning** Wai Meng Chan,Kwee Nyet Chin,Masanori Nagami,Titima Suthiwan,2011-10-27 While educators and educational psychologists debate the influence of media on learning, there can be little doubt that media is now an integral constituent of any educational context. In particular, computer and internet media, with their immense processing power and multimedia capabilities, can have significant bearing on learning processes and outcomes in today's learning environment. Such media, which are increasingly designed to be highly interactive and adaptable, can enable reflective, productive and communicative activities and have much potential for foreign language learning. The book contains 16 papers which look at different forms of media and explore how these affect or can be used effectively in foreign language education. The first of three parts focuses on important theoretical and pedagogical issues in selecting and using media. In the second part, insightful empirical research findings are presented on the contributions of different forms of media in language teaching and learning, including their effect on learners' learning motivation. The third and concluding part of the book provides in-depth accounts of how media can be harnessed to drive innovative curricular practice as well as students' evaluations of these curricular projects.

*Biliteracy from the Start* Kathy Escamilla,2014 Biliteracy from the Start: Literacy Squared in Action shows bilingual education teachers, administrators, and leadership teams how to plan, implement, monitor, and strengthen biliteracy instruction that builds on students' linguistic resources in two languages, beginning in kindergarten. Escamilla and her team present a holistic biliteracy framework that is at the heart of their action-oriented Literacy Squared school-based project. Teachers learn to develop holistic biliteracy instruction units, lesson plans, and assessments that place Spanish and English side by side. Educators also learn to teach to students' potential within empirically based, scaffolded, biliteracy zones and to support emerging bilinguals' trajectories toward biliteracy. Foreword by Ofelia García. Special Features Key terms and/or guiding questions introduce every chapter. Sample instruction units, lesson plans, student writing in Spanish and English, and paired writing rubrics make chapter content accessible and practical. Empirical evidence of students' reading and writing development in Spanish and English grounds presentation of trajectories toward biliteracy and scaffolded biliteracy zones. Questions for reflection and action at the end of each chapter help biliteracy educators apply key concepts to their local district and school context.
