Tables of IGC Cosmic Ray Data J. A.
Simpson,2013-10-22 Annals of the International
Geophysical Year, Volume 28: Tables of IGC Cosmic
Ray Data, Part III contains tabulations of
International Geophysical Cooperation's cosmic ray
activity data. This book includes lists of
stations and investigators from whom further
information on the cosmic ray apparatus can be
obtained. In order to prepare the data on the
following pages for publication, the data are
first put on punched cards and then checked for
correctness essentially by repunching, thus
minimizing errors of transcription and also
facilitate some computations which have been made
with some of the data. Tabulating machines are
then used to print the data on standard forms and

the data are photographed for reproduction. As a further insurance against errors, carbon copies of the data sheets are sent to all investigators to be checked. The data marked as verified in the table of contents have been returned to the data center and the corrections made. This book will prove useful to geophysical researchers.
