Behold a Pale Horse William Cooper, 2012-04-11 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker whose intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to talk due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been talking, he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. Bill Cooper is the world's leading expert on UFOs. -- Billy Goodman, KVEG, Las Vegas. The only man in America who has all the pieces to the puzzle that has troubled so many for so long. -- Anthony Hilder, Radio Free America William Cooper may be one of America's greatest heroes, and this story may be the biggest story in the history of the world. -- Mills Crenshaw, KTALK, Salt Lake City. Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands. -- William Cooper, October 24, 1989.

A Glimpse at Hilbert Space Operators Sheldon Axler, Peter Rosenthal, Donald Sarason, 2011-04-13 Paul Richard Halmos, who lived a life of unbounded devotion to mathematics and to the mathematical community, died at the age of 90 on October 2, 2006. This volume is a memorial to Paul by operator theorists he inspired. Paul's initial research, beginning with his 1938 Ph.D. thesis at the University of Illinois under Joseph Doob, was in probability, ergodic theory, and measure theory. A shift occurred in the 1950s when Paul's interest in foundations led him to invent a subject he termed algebraic logic, resulting in a succession of papers on that subject appearing between 1954 and 1961, and the book *Algebraic Logic*, published in 1962. Paul's first two papers in pure operator theory appeared in 1950. After 1960 Paul's research focused on Hilbert space operators, a subject he viewed as encompassing infinite-dimensional linear algebra. Beyond his research, Paul contributed to mathematics and to its community in manifold ways: as a renowned expositor, as an innovative teacher, as a tireless editor, and through unstinting service to the American Mathematical Society and to the Mathematical Association of America. Much of Paul's influence owed at a personal level. Paul had a genuine, uncalculating interest in people; he developed an enormous number of friendships over the years, both with mathematicians and with nonmathematicians. Many of his mathematical friends, including the editors of this volume, while absorbing abundant quantities of mathematics at Paul's knee, learned from his advice and his example

what it means to be a mathematician.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Routledge Handbook of Translation Studies and Linguistics Kirsten Malmkjaer, 2017-12-14 The Routledge Handbook of Translation Studies and Linguistics explores the interrelationships between translation studies and linguistics in six sections of state-of-the-art chapters, written by leading specialists from around the world. The first part begins by addressing the relationships between translation studies and linguistics as major topics of study in themselves before focusing, in individual chapters, on the relationships between translation on the one hand and semantics, semiotics and the sound system of language on the other. Part II explores the nature of meaning and the ways in which meaning can be shared in text pairs that are related to each other as first-written texts and their translations, while Part III focuses on the relationships between translation and interpreting and the written and spoken word. Part IV considers the users of language and situations involving more than one language and Part V addresses technological tools that can assist language users. Finally, Part VI presents chapters on the links between areas of applied linguistics and translation and interpreting. With an introduction by the editor and an extensive bibliography, this handbook is an indispensable resource for advanced students of translation studies, interpreting studies and applied linguistics.

A Woman, a Man, a Nation Jeffrey M. Shumway, 2019-11-01 In 1837 Mariquita Sánchez de Mendeville was so fed up with governor Juan Manuel de Rosas that she chose to leave her beloved city of Buenos Aires. Leaving was especially hard because Mariquita felt that she had played an influential role in transforming Buenos Aires from a Spanish colonial outpost into a brilliant capital in a world of republics. Juan Manuel de Rosas's version of order alienated Mariquita, who chose self-imposed exile in Montevideo over living under Rosas's stifling rule. The struggle went on for nearly two decades until Mariquita finally came home for good in 1852 while Rosas went into exile. Mariquita's and Juan Manuel's lives corresponded with the major events and processes that shaped the turbulent beginnings of the Argentine nation, many of which also shaped Latin America and the Atlantic World during the Age of Revolution (1750–1850). Their lives provide an overarching narrative for Argentine history that both scholars and students will find intriguing.

Evidence-based LSP Khurshid Ahmad, Margaret Rogers, 2007 This book presents a number of different perspectives on the central theme of 'evidence' and its interpretation in the study of specialist languages and their various uses. The principal topics include text corpora, citation patterns, some challenging dichotomies, terminology and knowledge management, and specialist translation. Each topic is presented in one of five parts, each with its own

introduction. The volume includes contributions from established and new researchers in the field, as well as well-known scholars from other disciplines who bring a fresh eye to LSP studies. The book presents selected papers from LSP2003, the 14th European Symposium on Language for Special Purposes held at the University of Surrey, Guildford, in co-operation with the AILA Scientific Commission on Language for Special Purposes.

An Etymological Dictionary of Persian, English and Other Indo-european Languages Ali Nourai,2013 Tracing words to their origins opens a new window to human civilization and culture and helps us understand the roots of some of our present social trends and attitudes. For example, the etymology of words for family members clearly shows the division of responsibilities in the most basic unit of society - the family. Father was the protector of the family (Pa: protect), mother was the feeder(Ma: breast), brother was the load carrier (Bher: carry) and daughter was the milker (Dhugh: to milk). If one makes the effort to read beyond the shallow shell of sounds and symbols, one can recognize our human oneness portrayed in our words and their historical roots. The primary motivation for writing this dictionary is the hope that it would foster a greater appreciation for the commonality in the apparent variance among different languages and cultures, and ultimately nurture a greater understanding among those who speak apparently different languages. In tracing any Persian word to its origins, its cognates in other Indo-European languages must be considered. In this dictionary, English cognates are regularly referred to along with some other Indo-European equivalents. Altogether, over 1,600 roots and 17,400 derived words are presented in this dictionary. One of the most unique features of this dictionary is its graphical presentation of etymological data, similar to a family tree. The derivations of words are indicated with arrows rather than lengthy text. The arrows greatly simplify the process of tracing words to their roots.

Encyclopedia of Language and Education Stephen May,Nelleke Van Deusen-Scholl,Angel M. Y. Lin,2017-03-15 In this third, fully revised edition, the 10 volume Encyclopedia of Language and Education offers the newest developments, including an entirely new volume of research and scholarly content, essential to the field of language teaching and learning in the age of globalization. In the selection of topics and contributors, the Encyclopedia reflects the depth of disciplinary knowledge, breadth of interdisciplinary perspective, and diversity of socio-geographic experience in the language and education field. Throughout, there is an inclusion of contributions from non-English speaking and non-western parts of the world, providing truly global coverage. Furthermore, the authors have sought to integrate these voices fully into the whole, rather than as special cases or international perspectives in separate sections. The Encyclopedia is a necessary reference set for every university and college library in the world that serves a faculty or school of education, as well as being highly relevant to the fields of applied and socio-linguistics. The publication of this work charts the further deepening and broadening of the

field of language and education since the publication of the first edition of the Encyclopedia in 1997 and the second edition in 2008.
