If you thought RUN! was full of trashy humor and unnecessary violence before this issue—you ain't seen nothing yet! We cause more property damage and hideous disfigurement in the first half of this issue than any other comic you'll read this year (besides RUN! #5 and #6, because those are pretty ridiculous, too). *Families Caring for an Aging America* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Family Caregiving for Older Adults, 2016-11-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

*Obamacare Wars* Daniel Béland, Philip Rocco, Alex Waddan, 2023-02-10 Not five minutes after the Affordable Care Act (ACA) was signed into law, in March 2010, Virginia's attorney general was suing to stop it. And yet, the ACA rolled out, in infamously bumpy fashion, and rolled on, fought and defended at every turn—despite President Obama's claim, in 2014, that its proponents and opponents could finally “stop fighting old political battles that keep us gridlocked.” But not only would the battles not stop, as *Obamacare Wars* makes acutely clear, they spread from Washington, DC, to a variety of new arenas. The first thorough account of the implementation of the ACA, this book reveals the fissures the act exposed in the American federal system. *Obamacare Wars* shows how the law's intergovernmental structure, which entails the participation of both the federal government and the states, has deeply shaped the politics of implementation. Focusing on the creation of insurance exchanges, the expansion of Medicaid, and execution of regulatory reforms, Daniel Béland, Philip Rocco, and Alex Waddan examine how opponents of the ACA fought back against its implementation. They also explain why opponents of the law were successful in some efforts and not in others—and not necessarily in a seemingly predictable red vs. blue pattern. Their work identifies the role of policy legacies, institutional fragmentation, and public sentiments in each instance as states grappled with new institutions, as in the case of the exchanges, or existing structures, in Medicaid and regulatory reform. Looking broadly at national trends and specifically at the experience of individual states, *Obamacare Wars* brings

much-needed clarity to highly controversial but little-understood aspects of the Affordable Care Act's odyssey, with implications for how we understand the future trajectory of health reform, as well as the multiple forms of federalism in American politics.
