Get a Job Robert D. Crutchfield, 2014-05-02 Are the unemployed more likely to commit crimes? Does having a job make one less likely to commit a crime? Criminologists have found that individuals who are marginalized from the labor market are more likely to commit crimes, and communities with more members who are marginal to the labor market have higher rates of crime. Yet, as Robert Crutchfield explains, contrary to popular expectations, unemployment has been found to be an inconsistent predictor of either individual criminality or collective crime rates. In *Get a Job*, Crutchfield offers a carefully nuanced understanding of the links among work, unemployment, and crime. Crutchfield explains how people's positioning in the labor market affects their participation in all kinds of crimes, from violent acts to profit-motivated offenses such as theft and drug trafficking. Crutchfield also draws on his first-hand knowledge of growing up in a poor, black neighborhood in Pittsburgh and later working on the streets as a parole officer, enabling him to develop a more complete understanding of how work and crime are related and both contribute to, and are a result of, social inequalities and disadvantage. Well-researched and informative, *Get a Job* tells a powerful story of one of the most troubling side effects of economic disparities in America.

How to Get a Job with the Post Office Stephen M. Good, 1985

Sister Sylvia Bell White, Jody LePage, 2013-06-06 Raised with twelve brothers in a part of the segregated South that provided no school for African American children, Sylvia Bell White went North

as a teenager, dreaming of a nursing career, but in Milwaukee she and her brothers found only racial discrimination, and she had to persevere through racial rebuffs to find work. When a Milwaukee police officer killed her younger brother in 1958, the Bell family suspected a racial murder but could do nothing to prove it?until twenty years later, when one of the officers involved in the incident unexpectedly came forward. Sylvia was the driving force behind the family's four-year quest for justice through a civil rights lawsuit.

Getting a Job Mark Granovetter, 2018-06-29 This classic study of how 282 men in the United States found their jobs not only proves it's not what you know but who you know, but also demonstrates how social activity influences labor markets. Examining the link between job contacts and social structure, Granovetter recognizes networking as the crucial link between economists studies of labor mobility and more focused studies of an individual's motivation to find work. This second edition is updated with a new Afterword and includes Granovetter's influential article Economic Action and Social Structure: The Problems of Embeddedness. Who would imagine that a book with such a prosaic title as 'getting a job' could pose such provocative questions about social structure and even social policy? In a remarkably ingenious and deceptively simple analysis of data gathered from a carefully designed sample of professional, technical, and managerial employees . . . Granovetter manages to raise a number of critical issues for the economic theory of labor markets as well as for theories of social structure by exploiting the emerging 'social network' perspective.—Edward O. Laumann, *American Journal of Sociology* This short volume has much to offer readers of many disciplines. . . . Granovetter demonstrates ingenuity in his design and collection of data.—Jacob Siegel, *Monthly Labor Review* A fascinating exploration, for Granovetter's principal interest lies in utilizing sociological theory and method to ascertain the nature of the linkages through

which labor market information is transmitted by 'friends and relatives.'—Herbert Parnes, Industrial and Labor Relations Review
