Reinventing Management Julian Birkinshaw, 2012-04-25 The economic crisis was not just caused by a failure of regulation or economic policy; it was a story of the failure of management in a fundamental sense—a deeply flawed approach to management that encouraged bankers to pursue opportunities without regard for their long-term consequences, and to put their own interests ahead of those of their employers and their shareholders. The revised edition of this best-selling book shows convincingly that many of today's major economic problems in the west can be traced to a failure of management. In this updated edition the author draws our attention to new examples of failed management, from Rupert Murdoch's News Corp, and the disaster at BP, to the ongoing problems in financial services companies such as UBS and RBS. Throughout the book the references and statistics have been updated, to make this a current, highly relevant analysis of the problems besetting modern business and how managers need to tackle them.

Turn Your Talents Into Profits Darcie Sanders, Martha M. Bullen, 1998 There seems to be no dearth of suggestions for making money at home, as the growing number of books devoted to the topic proves. But how many of these ideas are practical and creative at the same time? The experienced team of Sanders and Bullen not only describes more than 100 of the more unusual business vocations, but also interviews quite a few practitioners and lists specific resources to consult. Each entry includes a lengthy explanation of the job, and its duties and responsibilities, along with a top tip (e.g., for aspiring dog or cat breeders, it's suggested as an adjunct to other pet-related businesses, not as a solo venture), getting started, and the going rate. Sure to provoke chuckles are some of the recommendations, albeit all bona fide, such as a garden goosewear designer (yes, for concrete birds) and a beekeeper (no stings in this thought). Good information, well presented.

California Desert Byways Tony Huegel, 2006-12-21 Presents 65 desert trips from Bishop to the Mexican border, including expanded coverage of popular destinations such as Death Valley National Park, Mojave National Preserve, and Anza-Borrego Desert State Park. This book makes high-walled canyons, lonely ghost towns, and soaring peaks from Mexico to the Great Basin easily accessible to recreational drivers. Tony Huegel's glove-box-sized Byways have been leading drivers to the hidden surprises found along unpaved backroads for more than 10 years. These books are for recreational drivers who want to use their four-wheel-drive or sport-utility vehicle beyond the pavement to explore, but who might not want to do hard-core or lengthy off-road driving. They are also for adventurers who use these trips as jumping-off points for muscle-powered exploration, such as hiking and mountain biking.

Disability and Mobile Citizenship in Postsocialist Ukraine Sarah D. Phillips, 2010-11-26 Sarah D. Phillips examines the struggles of disabled persons in Ukraine and the other former Soviet states to secure their rights during the tumultuous political, economic, and social reforms of the last two decades. Through participant observation and interviews with disabled Ukrainians across the social spectrum -- rights activists, politicians, students, workers, entrepreneurs, athletes, and others -- Phillips documents the creative strategies used by people on the margins of postsocialist societies to assert claims to mobile citizenship. She draws on this rich ethnographic material to argue that public storytelling is a powerful means to expand notions of relatedness, kinship, and social responsibility, and which help shape a more tolerant and inclusive society.
