**Singing Wilderness** Sigurd F. Olson, 2012-05-30 To do with the calling of loons, with northern lights, and the great silences of land lying northwest of Lake Superior. It is concerned with the simple joys, the timelessness and perspective found in a way of life which is close to the past. I have heard the singing in many places, but I seem to hear it best in the wilderness lake country of the Quetico-Superior, where travel is still by pack and canoe over the ancient trails of the Indians and voyageurs. Thus the author sets the theme and tone of this

enthraling book of discovery about one of the few great primitive areas in our country which have withstood the pressures of civilization. Acute natural perceptivity and a profound knowledge of the relationships to be found in nature combine here in vivid evocations of the sights, the sounds, the vast stillnesses, and the events of the wilderness as the seasons succeed each other. But Mr. Olson is not content merely to describe; he probes for meanings that will lead the reader to a different and more revealing way of looking at the out-of-doors and to a deeper sense of its eternal values. In each of the thirty-four chapters of *The Singing Wilderness* he has sought to capture an essential quality of our magnificent lake and forest heritage. He shows us what can be read from the rocks of the great Canadian Shield; he offers a delightful essay on the virtues of pine knots as fuel; he writes of the ways of a canoe, of flashing trout in the pools of the Isabella, of tamarack bogs, caribou moss, the flight of wild geese, timber wolves, and the birds of the ski trails. And much more, with something to satisfy every taste for wilderness experience. Superbly illustrated with 38 black-and-white drawings by Francis Lee Jaques, *The Singing Wilderness* is a book that no lover of nature will want to be without. To anyone who contemplates a vacation in the lake country of northern Minnesota and adjoining Canada, it is the perfect vade mecum.

Jodi Karin Olson,2014-05-21 Jodi was a Special Forces Angel who rushed to disasters to help humans. But she, oh so much, wanted to be a Guardian Angel. Finally God granted her the opportunity and assigned her to Gerald, an impulsive, distractible, accident-prone child with ADHD. The story of their lives together covers his childhood through his middle adult years in the early 1900s taking place in rural America. Jodi frequently breaks angelic rules and tries the patience of the angelic hierarchy; for example, she introduces herself to Gerald when he is but a boy of four. The reader becomes acquainted with the angelic hierarchy with its rigid rules as well as participates in the development of the possibilities when humans and angels collaborate in the solving of earthly problems.

Open Season C. J. Box,2016-05-31 Don't miss the JOE PICKETT series—now streaming on Paramount+ The first novel in the thrilling series featuring Wyoming game warden Joe Pickett from #1 New York Times bestselling author C. J. Box. Joe Pickett is the new game warden in Twelve Sleep, Wyoming, a town where nearly everyone hunts and the game warden—especially one like Joe who won't take bribes or look the other way—is far from popular. When he finds a local hunting outfitter dead, splayed out on the woodpile behind his state-owned home, he takes it personally. There had to be a reason that the outfitter, with whom he's had run-ins before, chose his backyard, his woodpile to die in. Even after the outfitter murders, as they have been dubbed by the local press after the discovery of the two more bodies, are solved, Joe continues to investigate, uneasy with the easy explanation offered by the local police. As Joe digs deeper into the murders, he soon discovers that the outfitter brought more than death to his backdoor: he brought Joe an endangered species, thought to be extinct, which is now living in his woodpile. But if word of the existence of this endangered species gets out, it will destroy any chance of InterWest, a multi-national natural gas company, building an oil pipeline that would bring the company billions of dollars

across Wyoming, through the mountains and forests of Twelve Sleep. The closer Joe comes to the truth behind the outfitter murders, the endangered species and InterWest, the closer he comes to losing everything he holds dear.

LISTENING POINT Sigurd F. Olson, 2012-07-04 "Listening Point tells of what I have seen and heard on a bare glaciated spit of rock in the Quetico-Superior country. Each time I have gone there I have found something new that has opened up whole realms of thought and interest. From it I have glimpsed the immensity of space and at times the grandeur of creation. "I believe that I have experienced there one of the oldest satisfactions of man; when as he gazed upon the earth and sky, he sensed the first vague glimmerings of meaning in the universe. I know that while we were born with curiosity and wonder, and our early years are full of the adventure they bring, such inherent joys are often lost. I also know that, being deep within us, their latent glow can be fanned to flame again by awareness and an open mind. "Listening Point is dedicated to rekindling that flame by capturing this almost forgotten sense of wonder, and learning from rocks and trees and all the life that surrounds them truths that can encompass all. "I named this place Listening Point because only when one comes to listen, only when one comes sharpens one's awareness, can one see and hear in the sense in which I use these words. Everyone has a listening point somewhere, some quiet place where he can contemplate the awesome universe. This book is simply the story of what such a place has meant to me. The experiences that have been mine can be known by anyone who will make the effort." Thus the author of The Singing Wilderness sets the tone of his new book—a book that not only successfully recaptures the to-be-treasured sense of wonder of which he speaks, but also brings to life, in all its essential grandeur, the unparalleled heritage of lakes and rivers and forests we are so fortunate to be able to call our own. Listening Point is a book that will rekindle spirits wearied by the turmoils of twentieth-century living—that will teach us a new way to look at the world around us and to feel the better for it. With 28 magnificent black-and-white drawings by Francis Lee Jacques.
