Nabyvanets, Petro Linnik, Nataliia Osadcha, Yurii Nabyvanets, 2016-08-08 This book presents major hydrological, physicochemical and biological processes determining the formation of hydro-physical properties and chemical composition of terrestrial surface water. Generalized hydro-physical, hydro-chemical and hydro-biological parameters affecting surface water quality, in particular in the Ukraine, are provided. Furthermore, a general description of the anthropogenic factors affecting the process of forming natural water's properties is presented. This volume is of interest to ecologists, and scientists, lecturers and students in higher educational institutions investigating patterns of formation of water properties and working on the development of methodologies to model and assess surface water quality, and water quality classifications.

Exile in Colonial Asia Ronit Ricci, 2016-05-31 Exile was a potent form of punishment and a catalyst for change in colonial Asia between the seventeenth and early twentieth centuries. Vast networks of forced migration supplied laborers to emerging colonial settlements, while European powers banished rivals to faraway locations. *Exile in Colonial Asia* explores the phenomenon of exile in ten case studies by way of three categories: "kings," royals banished as political exiles; "convicts," the vast majority of those whose lives are explored in this volume, sent halfway across the world with often unexpected consequences; and "commemoration," referring to the myriad ways in which the experience and its aftermath were remembered by those exiled, relatives left behind, colonial officials, and subsequent generations of descendants, devotees, historians, and politicians. Intended for a broad readership interested in the colonial period in Asia (South and Southeast Asia in particular), the volume encompasses a range of disciplinary perspectives: anthropology, gender studies, literature, history, and Asian, Australian, and Pacific studies. In addition to presenting fascinating, little-known, and varied case studies of exile in colonial Asia and Australia, the chapters collectively offer a sweeping, contextualized, comparative approach that links the narratives of diverse peoples and locales. Rather than confining research to the European colonial archives, whenever possible the authors put special emphasis on the use of indigenous primary sources hitherto little explored. *Exile in Colonial Asia* invites imaginative methodological innovation in exploring multiple archives and expands our theoretical frontiers in thinking about the interconnected histories of penal deportation, labor migration, political exile, colonial expansion, and individual destinies.

The Uprooted Christina Elizabeth Firpo, 2016-01-31 For over a century French officials in

Indochina systematically uprooted métis children—those born of Southeast Asian mothers and white, African, or Indian fathers—from their homes. In many cases, and for a wide range of reasons—death, divorce, the end of a romance, a return to France, or because the birth was the result of rape—the father had left the child in the mother's care. Although the program succeeded in rescuing homeless children from life on the streets, for those in their mothers' care it was disastrous. Citing an 1889 French law and claiming that raising children in the Southeast Asian cultural milieu was tantamount to abandonment, colonial officials sought permanent, protective custody of the children, placing them in state-run orphanages or educational institutions to be transformed into little Frenchmen. *The Uprooted* offers an in-depth investigation of the colony's child-removal program: the motivations behind it, reception of it, and resistance to it. Métis children, Eurasians in particular, were seen as a threat on multiple fronts—colonial security, white French dominance, and the colonial gender order. Officials feared that abandoned métis might become paupers or prostitutes, thereby undermining white prestige. Métis were considered particularly vulnerable to the lure of anticolonialist

movements—their ambiguous racial identity and outsider status, it was thought, might lead them to rebellion. Métischildren who could pass for white also played a key role in French plans to augment their own declining numbers and reproduce the French race, nation, and, after World War II, empire. French child welfare organizations continued to work in Vietnam well beyond independence, until 1975. The story of the métis children they sought to help highlights the importance—and vulnerability—of indigenous mothers and children to the colonial project. Part of a larger historical trend, the Indochina case shows striking parallels to that of Australia's Stolen Generation and the Indian and First Nations boarding schools in the United States and Canada. This poignant and little known story will be of interest to scholars of French and Southeast Asian studies, colonialism, gender studies, and the historiography of the family.

Protection of Immovables in European Legal Systems Sonia Martin Santisteban, Peter Sparkes, 2015-09-11 How should a landowner respond when a squatter occupies their land? This book discusses the issues focussing on vindictio, possessory remedies and trespass, but also explores administrative procedures for their removal. In many cases, these actions derive from Roman laws, which are expertly explored in an introductory chapter. Also included is a chapter exploring human rights interventions in such actions. Twelve case studies offer an extensive and comparative analysis across sixteen European jurisdictions. The basic defendants covered are squatters taking over a home, environmental protesters, licensees and former tenants. The case studies include, amongst others, self-help; restitution; competing claims to ownership (and the relevance of registration systems to claims to ownership); adverse possession; neighbours; nuisance and encroachment.

Empire's Children Emmanuelle Saada, 2012-03-02 Operating at the intersection of history, anthropology, and law, this book reveals the unacknowledged but central role of race in the definition of French nationality. The author weaves together the perspectives of jurists, colonial officials, and more, and demonstrates why the French Empire cannot be analyzed in black-and-white terms.

Contemporary Caribbean Cultures and Societies in a Global Context Franklin W. Knight, Teresita Martínez-Vergne, 2006-05-18 The Caribbean ranks among the earliest and most completely globalized regions in the world. From the first moment Europeans set foot on the islands to the present, products, people, and ideas have made their way back and forth between the region and other parts of the globe with unequal but inexorable force. An inventory of some of these unprecedented multidirectional exchanges, this volume provides a measure of, as well as a model for, new scholarship on globalization in the region. Ten essays by leading scholars in the field of Caribbean studies identify and illuminate important social and cultural aspects of the region as it

seeks to maintain its own identity against the unrelenting pressures of globalization. These essays examine cultural phenomena in their creolized forms--from sports and religion to music and drink--as well as the Caribbean manifestations of more universal trends--from racial inequality and feminist activism to indebtedness and economic uncertainty. Throughout, the volume points to the contending forces of homogeneity and differentiation that define globalization and highlights the growing agency of the Caribbean peoples in the modern world. An Empire Divided J.P. Daughton, 2006-11-02 Between 1880 and 1914, tens of thousands of men and women left France for distant religious missions, driven by the desire to spread the word of Jesus Christ, combat Satan, and convert the world's pagans to Catholicism. But they were not the only ones with eyes fixed on foreign shores. Just as the Catholic missionary movement reached its apex, the young, staunchly secular Third Republic launched the most aggressive campaign of colonial expansion in French history. Missionaries and republicans abroad knew they had much to gain from working together, but their starkly different motivations regularly led them to view one another with resentment, distrust, and even fear. In *An Empire Divided*, J.P. Daughton tells the story of how troubled relations between Catholic missionaries and a host of republican critics shaped colonial policies, Catholic perspectives, and domestic French politics in the tumultuous decades before the First World War. With case studies on Indochina, Polynesia, and Madagascar, *An Empire Divided*--the first book to examine the role of religious missionaries in shaping French colonialism--challenges the long-held view that French colonizing and civilizing goals were shaped by a distinctly secular republican ideology built on Enlightenment ideals. By exploring the experiences of Catholic missionaries, one of the largest groups of French men and women working abroad, Daughton argues that colonial policies were regularly wrought in the fires of religious discord--discord that indigenous communities exploited in responding to colonial rule. After decades of conflict, Catholics and republicans in the empire ultimately buried many of their disagreements by embracing a notion of French civilization that awkwardly melded both Catholic and republican ideals. But their entente came at a price, with both sides compromising long-held and much-cherished traditions for the benefit of establishing and maintaining authority. Focusing on the much-neglected intersection of

politics, religion, and imperialism, Daughton offers a new understanding of both the nature of French culture and politics at the fin de siecle, as well as the power of the colonial experience to reshape European's most profound beliefs.
