Ghostbusting 101 J. E. Smith, 2017-05-26 A beginner's guide to the paranormal, through the eyes of a professional paranormal investigator. If you've ever wanted to head out on your very own ghost hunt, but don't quite know how to get started, this guide will get you on your way. Ghost Hunters William W. Lace, 2009-08 Do ghosts exist? Groups of ghost hunters are bringing modern technology to bear in seeking answers to this age-old question. This book tells how ghost hunters go about their investigations--using devices such as those that monitor or measure changes in light, sound, and temperature--and to what extent they have succeeded. It also examines the divide between those who see ghost hunting as science and those who see it as something less.

The Science of Ghosts Joe Nickell, 2012-07-03 Are ghosts real? Are there truly haunted places, only haunted people, or both? And how can we know? Taking neither a credulous nor a dismissive approach, this first-of-its-kind book solves those perplexing mysteries and more--even answering the question of why we care so very much. Putting aside purely romantic tales, this book examines the actual evidence for ghosts--from eyewitness accounts to mediumistic productions (such as diaphanous forms materializing in dim light), spirit photographs, ghost-detection phenomena, and even CSI-type trace evidence. Offering numerous exciting case studies, this book engages in serious investigation rather than breathless mystifying. Pseudoscience, folk legends, and outright hoaxes are challenged and exposed, while the historical, cultural, and scientific aspects of ghost experiences and haunting reports are carefully explored. The author--the world's only professional paranormal investigator--brings his skills as a stage magician, private detective, folklorist, and forensic science writer to bear on a topic that demands serious study.

Paranormal Investigations Chad Stambaugh, 2013-01-16 The phenomena of ghosts and hauntings are very real experiences that more and more people are encountering every day. It is their true cause and nature that is the ongoing mystery. In *Paranormal Investigations*, author Chad Stambaugh discusses the process of trying to find that one piece of evidence that could prove, without a doubt, that ghosts are real. *Paranormal Investigations* shows both the beginner and the professional when and how to correctly operate the different types of equipment integral to a paranormal investigation--cameras, camcorders, voice recorders, digital video recorders, EMF detectors, dowsing rods, pendulums, and more. In addition, Chad breaks down, step by step, the correct procedures for conducting both public and private investigations, including how to deal with clients, what to look for, how to look for it, and how to document an investigation. Through this detailed guide, Chad works toward creating paranormal unity among those who research the events or phenomena that science can't or won't explain.

Ghost Hunter Hans Holzer, 2014-08-28 Fifty years before The Conjuring, Paranormal State, Ghost Hunters, Insidious and Most Haunted, there was Hans Holzer—a man known as the “Father of the Paranormal.” Holzer pioneered ghost-hunting methods still used today, and brought ghosts and ghost hunting into popular culture in the second half of the twentieth century. Ghost Hunter presented some of the first-ever case studies of haunting investigations, taken from Holzer's own practice in the New York City area—ranging from Civil War-era spirits to the tormented ghosts of murder victims. For devoted ghost-hunting aficionados curious about the practice's history, there is no better place to start than the first book Hans Holzer wrote, Ghost Hunter. This is the classic 1963 book that launched his publishing career and gained him international fame. The prestige edition of the classic, trail-blazing work on ghost hunting will intrigue new fans and longtime devotees alike—part of the new Tarcher Supernatural Library. The first three titles released in Tarcher's Supernatural Library are Ghost Hunter (by Hans Holzer), Romance of Sorcery (by Sax Rohmer) and Isis in America (by Henry Steel Olcott).

Seeking Spirits Jason Hawes, Grant Wilson, Michael Jan Friedman, 2009-09-29 TV's popular Ghost Hunters reveal all-new, never-before-told stories from their spooky early investigations! For the first time ever, Jason Hawes and Grant Wilson, founders of The Atlantic Paranormal Society (T.A.P.S.), share their most memorable and spine-tingling early cases -- none of which has ever appeared on television. Beginning with the previously untold experiences that sparked their passion for ghost hunting, Jason and Grant's bone-chilling investigations uncover:

• A Connecticut woman who seems to exist in two places at once • A little girl whose invisible playmate retaliates against her father's punishments • A man overcome by an evil entity as Jason and Grant survey his home • A distraught woman who dreams of paranormal events before she experiences them...and much more! Jason and Grant didn't always have the fancy scientific equipment and experienced team that fans now watch on their smash-hit television show. As they share their hair-raising first experiences, they offer essential tips for budding paranormal investigators -- including how to use an electromagnetic field (EMF) meter and an infrared camera, determine if a supernatural phenomenon is good or evil, and deal with spirits. Whether you're a skeptic or a believer, these fascinating and frightening true stories will keep you up at night!
