Animal Ghosts Elliott O'Donnell,2012-10-28 One hundred years ago, Elliott O'Donnell set before the masses a collection of tales which would seem to show that the afterlife is not only populated by the animals that refer to themselves as human, but by all living creatures. This book, even in our modern era, is as pertinent and insightful as it was a century ago. CHAPTER I CATS CHAPTER II DOGS CHAPTER III HORSES AND THE UNKNOWN CHAPTER IV BULLS, COWS, PIGS, ETC. CHAPTER V WILD ANIMALS AND THE UNKNOWN CHAPTER VI INHABITANTS OF THE JUNGLE CHAPTER VII BIRDS AND THE UNKNOWN CHAPTER VIII A BRIEF RETROSPECT There is a surprising amount of credible evidence that animals have spirits that survive death. Animal Ghosts is a mesmerizing collection of strange ghost stories in which the antagonists are various animals, family pets or otherwise. Divided up into chapters of ghost sightings by each group of animals, you will hear of spectral haunting by dogs, cats, birds, jungle animals, etc. Do animals sometimes come back as ghosts just like some people do? The evidence points to the answer: yes! Many people have had experiences with family pets coming back whether that be as simple as a ball of twine rolling across the floor by itself with no outside source, the feeling of something rubbing up against your leg and there's nothing there and sometimes the actual visual apparition of the beloved pet. It seems that the ones that are reported the most in the animal world are dogs, cats and horses in that order respectively. However, there seems to be some confusion. Can ALL animals appear or come back as spirits? Are there certain limitations to which ones are allowed? Accounts of animal ghosts have existed for a very long time. Sometimes during travel, ghosts of animals have been reported by passers by, such as the account of a ghostly canine that snarls at travelers on certain roads, for example. However, most animal ghosts seem to be witnessed after recently passing, still visiting their beloved human companions. There are ghost stories about various types of pet animals, especially cats, dogs, and horses being seen after their death. Animal ghosts seem to visit where they formerly lived, and may stay for a minimal period of time or longer. Many owners have reported not only seeing their ghost animal, but also smelling, hearing and even feeling them through touch. Due to traditional religious teachings that instruct that only humans have souls, many are unaware that animals have spirits just like human beings and can interact and even be seen as animal ghosts. Pet ghosts seem to be the most common animal ghosts seen, and this could be because of the strong bonds and emotional ties that were created. Animal Ghosts, or Animal Hauntings and the Hereafter remains the perennial classic on this fascinating subject.
