Ghost Fleet Awakened Joseph W. Zarzynski, 2019-11-01 Chronicles the history and archaeological study of Lake George, New York's sunken bateaux of 1758. In *Ghost Fleet Awakened*, Joseph W. Zarzynski reveals the untold story of a little-recognized sunken fleet of British warships, bateaux, from the French and Indian War (1755–1763). The story begins more than 250 years ago, when bateaux first plied the waters of Lake George, New York. Zarzynski enlightens readers with a history of these utilitarian vessels, considered the most important vessels that transported armies during eighteenth-century wars in North America, and includes their origins and uses. By infusing the book with underwater archaeology doctrine, Zarzynski shows the nautical significance of these colonial craft. In the autumn of 1758, the British command at Lake George made a daring decision to deliberately sink two floating batteries (radeaux), some row galleys and whaleboats, a sloop, and 260 bateaux, thereby placing the warships into wet storage and protecting them from marauding French during the coming winter. In 1759, many submerged boats were raised but some were not. Then, in 1960, two divers rediscovered several sunken bateaux, dubbed the "Ghost Fleet." These shipwrecks were the focus of underwater archaeological investigations that provided archaeologists with opportunities to gain unprecedented insight into eighteenth-century lifeways. Zarzynski explores and explains shipwreck preservation techniques, the creation of shipwreck parks for scuba enthusiasts, and the many multifaceted programs developed by the nonprofit organization Bateaux Below to help protect these finite cultural treasures. "Zarzynski offers fascinating new research on bateau shipwrecks through the use of manuscripts, period newspaper accounts, and interviews. It is an outstanding piece of research, explaining the chronological history of cultural resource preservation. No other book provides this level of documentation on the role of bateaux during the

wars of the eighteenth century.” — Russell P. Bellico, author of *Empires in the Mountains: French and Indian War Campaigns in Forts in the Lake Champlain, Lake George, and Hudson River Corridor* “This is a major contribution to the field of American history, New York State history, underwater archaeology, and cultural resource management. There is no equivalent book that documents this story.” — Timothy J. Runyan, editor of *Ships, Seafaring and Society: Essays in Maritime History*

Underwater SLAM for Structured Environments Using an Imaging Sonar David Ribas, Pere Ridao, José Neira, 2010-07-28 Robotics is undergoing a major transformation in scope and dimension. From a largely dominant industrial focus, robotics is rapidly expanding into human environments and vigorously engaged in its new challenges. Interacting with, assisting, serving, and exploring with humans, the emerging robots will increasingly touch people and their lives. Beyond its impact on physical robots, the body of knowledge robotics has produced is revealing a much wider range of applications reaching across diverse research areas and scientific disciplines, such as: biomechanics, haptics, neurosciences, virtual simulation, animation, surgery, and sensor networks among others. In return, the challenges of the new emerging areas are proving an abundant source of stimulation and insights for the field of robotics. It is indeed at the intersection of disciplines that the most striking advances happen. The Springer Tracts in Advanced Robotics (STAR) is devoted to bringing to the research community the latest advances in the robotics field on the basis of their significance and quality. Through a wide and timely dissemination of critical research developments in robotics, our objective with this series is to promote more exchanges and collaborations among the researchers in the community and contribute to further advancements in this rapidly growing field.

Pulp Classics John Betancourt, 2005-11-01 STRANGE TALES OF MYSTERY AND TERROR . . . When Strange Tales first appeared in 1931 as a pulp magazine, it was clearly something new. Edited by Harry Bates as a companion to Astounding Stories, it combined the supernatural horror and fantasy of Weird Tales with vigorous action plots. Had the Great Depression not intervened and

killed it after seven issues, the whole history of fantastic fiction might have been different. Strange Tales rapidly attracted the most imaginative and capable writers of the day, including such Weird Tales regulars as Robert E. Howard, Clark Ashton Smith, Henry S. Whitehead, Hugh B. Cave, Ray Cummings, and numerous others. Certainly Strange Tales gave Weird Tales a serious run for its money. The March 1932 issue features work by Paul Ernst, Henry S. Whitehead, Gordon MacCreagh, and more. The fine cover by H.W. Wesso illustrates The Duel of the Sorcerers, by Paul Ernst.

Shellback Stuart Landersman, 2012-04-17 Shellback is a naval and maritime action novel including Middle East intrigue, Cold War naval action, Korean War search and rescue, semi-pro baseball, romance and Washington high-level machination. All this is set in a tense web of high-seas drama focused on an attack against the Maritime Prepositioning Ships at Diego Garcia and on a Convoy Commodore who has a peculiar knack of getting himself into situations that require special judgment, decision making, innovation and determination. Martin Shielbrock is a retired Navy captain who has been recalled to active duty to conduct a routine exercise with the prepositioned ships at Diego Garcia. We have learned about Shielbrock in a series of his experiences leading up to this exercise and we have seen that he is not your everyday retiree, he has a way of figuring out what has to be done and doing it no matter what, even if told not to do it. Martin Shielbrock got his nickname Shellback early in his navy career and he is one stubborn guy. When he sets his mind to something and knows hes right, he does it regardless of consequences and regardless of advice or orders. He meets and marries the beautiful and elegant Barbara Muir, they have children and we learn of a possible compromise involving Barbaras wealthy former lover. Moses Farscian is a Kurdish Iraqi soldier to whom lifes adventure has been a series of disasters. We meet him in a complex situation of Middle Eastern intrigue in which the mission and cause of his operation are clouded by questions no one can answer, no one including some of the top intelligence sources in the

world. The web of intrigue eventually brings Moses Farscian into contact with Martin Shielbrock. There are U.S. admirals and generals that influence the situations that Shellback finds himself in and there are Kurds, ayatollahs, Iranians, and Iraqis that hate, love, depend or don't care about Moses Farscian and his team mates or their operation. The story covers people from the Chairman of the Joint Chiefs of Staff to a sailor who loses his favorite knife, old and young men and women, soldiers, sailors, and ball players, all trying to make their way through life's complications and some make it while others don't. There's technical detail, romance, violence, gunfire, missiles, helicopters, artillery, flame and death as well as love, as Shellback does what he does best he does what he thinks is right. But who knows what's right? Moses Farscian has a similar problem. Written by Stu Landersman, who spent 30 years in the U.S. Navy, Shellback is in no way autobiographical and Stu vows that he did none of the things that Martin Shielbrock does in this book, but admits to wishing he had.
