*Touch Typing in 10 Hours* Gerard Strong,2015-10-13 With this book you can learn to touch type and 10 hours at a fraction of the cost of the course. Most people use computers today, but how many of us can type? Learning to touch type with this method takes only 10 hours. You will reap the benefits for a lifetime, whether you are using a keyboard at work or at home. The easy-to-use lessons are provided into manageable one-hour blocks and there are plenty of exercises to consolidate what you have learned. And touch-typing is a skill that can make you money as well as saving you time.

Typing Master Jolanda Hemauer,2021-08-11 Touch typing is typing without looking at the keyboard. The fundamental idea is that each finger is given its section of the keyboard and your fingers learn the location of the keyboard through practicing regularly and gaining muscle memory to eventually build up speed whilst typing. Learning to touch-type with this method takes only 10 hours. You will reap the benefits for a lifetime, whether you are using a keyboard at work or home. The easy-to-use lessons are

provided into manageable one-hour blocks and there are plenty of exercises to consolidate what you have learned. And touch-typing is a skill that can make you money as well as saving you time.

Touch Typing in Ten Lessons Ruth Ben'Ary,1982 Do you need to learn how to type in a hurry? Or do you just need a refresher course to practice with and tone up your skills? This is the shortest typing course that covers all of the fundamental skills of touch typing. This classic handbook, which has literally taught more than a million people the basics of typing, can teach you to type too. Touch Typing in 10 Lessons starts by teaching you the basic combinations for fingering the keyboard, and then helps you master the entire alphabet. Once you've learned the alphabet, the book jumps right into capitals, punctuation, and numbers. Learning the keyboard is just the beginning. The book will teach you how to set up professional business letters and tricks to help you get the most out of your typewriter (or word processor). There are dozens of drills that will help you develop the accuracy and speed you need in school and at the office. Finally, there are practice tests that will help you get over fears concerning typing tests and that will build up your speed on the keyboard. Book jacket.
