Women and Leadership Julia Gillard, Ngozi Okonjo-Iweala, 2022-02-15 A powerful call-to-action for gender equity that offers 10 key lessons for women aspiring to a leadership role—be it in politics, business, law, or their local community. Featuring words of wisdom from female leaders like Hillary Clinton and Theresa May, this empowering study reads like a *You Are a Badass* volume on world leadership. Women make up fewer than 10% of national leaders worldwide. Behind this eye-opening statistic lies a pattern of unequal access to power. Through conversations with some of the world's most powerful and interesting women—including Jacinda Ardern, Hillary Rodham Clinton, Christine Lagarde, Michelle Bachelet, and Theresa May—*Women and Leadership* explores gender bias and asks why there aren't more women in leadership roles. Speaking honestly and freely, these women talk about having their ideas stolen by male colleagues, what it's like to be called fat or a slut in the media, and what things they wish they had done differently. The stories they tell reveal vividly how gender and sexism affect perceptions of women as leaders. Using current research as a starting point, Julia Gillard and Ngozi Okonjo-Iweala—both political leaders in their own countries—analyze the lived experiences of these women leaders. The result is a rare insight into life as a leader and a powerful call to arms for women everywhere.

Women as Global Leaders Faith Wambura Ngunjiri, Susan R. Madsen, 2015-02-01 *Women as Global Leaders* is the second volume in the new *Women and Leadership: Research, Theory, and Practice* book series published for the International Leadership Association by IAP. Global leadership is an emerging area of research, with only a small but growing published literature base. More specifically, the topic of women's advances and adventures in leading within the global context is barely covered in the existing leadership literature. Although few women are serving in global leadership roles in corporate and non-profit arenas, and as heads of nations, that number is growing (e.g., Indira Nooyi at PepsiCo, Sheryl Sandberg at Facebook, Marissa Mayer at Yahoo, Ellen Johnson Sirleaf as president of Liberia, Angela Merkel as chancellor of Germany). The purpose of this volume is to provide the reader with current conceptualizations and theory related to women as global leaders, recent empirical investigations of the phenomenon, analysis of effective global leadership development programs, and portraits of women who lead, or have led, in a global role. The volume is divided into four sections. The first section covers the state of women as global leaders, containing chapters by Joyce Osland and Nancy Adler, pioneers in the field of global and/or women's leadership. The second section describes approaches to women's global leadership. The third section offers an analysis of programs that are useful in developing women as global leaders, with the final section profiling women as global leaders, including Margaret Thatcher, Nobel Laureate Malala Yousfzai, and Golda Meir. As Barbara Kellerman noted in the Foreword, this book... should be understood as a collection whose time has come, precisely because women now have opportunities to lead that are far more expansive than they were even in the recent past. Though their numbers remain low, they are able in some cases to exercise leadership not only as outsiders, but also as insiders, from the very positions of power and authority to which men forever have had access.

Taking the Stage Judith Humphrey, 2014-10-13 Many women today wonder: what will it take to get that seat at the boardroom table? Earn that coveted promotion? Or simply have their voices heard? *Taking the Stage* provides a comprehensive, proven approach that enables women to come forward into the spotlight and speak up, stand out, and succeed. Based on a program from the Humphrey Group that has been delivered to over 400,000 women worldwide, *Taking the Stage* shows women—no matter their age, rank, or profession—how to communicate with courage and confidence in every situation, from formal speeches to brief hallway conversations. Judith Humphrey provides the inspiration and practical advice for women to “take the stage” mentally,

verbally, vocally, and physically. Women can make the most of every opportunity by understanding how best to: Speak up confidently, even when others don't agree; Convey their accomplishments without self-doubt; Be assertive but not aggressive; Deliver clear and convincing messages; Move beyond "minimizing" language and apology; Find their own powerful and authentic voice; Achieve confident body language and a leadership presence. By applying these techniques and others to every communication—whether making a presentation, speaking at meetings, conducting an elevator conversation, or selling themselves in job interviews—women will be recognized as the leaders they are and attain positions of influence. For women at all stages of their career, and for managers and executives committed to supporting and guiding women on their leadership journeys, Taking the Stage is the practical, broad-based solution that will allow women to speak up confidently, gain respect, earn the promotions they deserve, and secure their places at the boardroom table.

Racially and Ethnically Diverse Women Leading Education Terri N.

Watson,Anthony H. Normore,2016-12-05 This book's primary focus is on racially and ethnically diverse women in educational leadership. Each chapter is written from a unique conceptual or empirical lens as shared by international female leaders, and range from a critical examination of global society and cross-cultural collaboration, to the intersection of race, law, and power.

Cracking the code UNESCO,2017-09-04 This report aims to 'crack the code' by deciphering the factors that hinder and facilitate girls' and women's participation, achievement and continuation in science, technology, engineering and mathematics (STEM) education and, in particular, what the education sector can do to promote girls' and women's interest in and engagement with STEM education and ultimately STEM careers.

Counseling Women with Breast Cancer Merle A. Keitel,Mary Kopala,2000-07-18

This comprehensive guide for mental health practitioners and medical professionals addresses the delicate issues surrounding breast cancer and the processes involved in emotional coping and healing. Unlike other works, this volume takes a practice-oriented approach, offering readers a review of the medical, psychological and social aspects of breast cancer. Using case studies that depict women from diverse backgrounds, this text focuses on current research, interventions, psychological assessment, and addresses the concerns of women. Students and practitioners alike will appreciate this engagingly written and informative book.

Reproducing Reproduction Sarah Franklin,Helena Ragone,Helena Ragoné,1998

Reproducing Reproduction addresses these debates in a range of sites in which reproduction is being redefined and argues persuasively for a renewed appreciation of the centrality of reproductive politics to cultural and historical change.

Women and Cartography in the Progressive Era Christina E. Dando, 2017-08-15
In the twenty-first century we speak of a geospatial revolution, but over one hundred years ago another mapping revolution was in motion. Women's lives were in motion: they were playing a greater role in public on a variety of fronts. As women became more mobile (physically, socially, politically), they used and created geographic knowledge and maps. The maps created by American women were in motion too: created, shared, distributed as they worked to transform their landscapes. Long overlooked, this women's work represents maps and mapping that today we would term community or participatory mapping, critical cartography and public geography. These historic examples of women-generated mapping represent the adoption of cartography and geography as part of women's work. While cartography and map use are not new, the adoption and application of this technology and form of communication in women's work and in multiple examples in the context of their social work, is unprecedented. This study explores the implications of women's use of this technology in creating and presenting information and knowledge and wielding it to their own ends. This pioneering and original book will be essential reading for those working in Geography, Gender Studies, Women's Studies, Politics and History.

Resources in Women's Educational Equity: Special Issue, 1979

Progress of the World's Women 2019-2020 United Nations Publications, 2019-09-19 Families around the world look, feel, and live differently today. Families can be "make or break" for women and girls when it comes to achieving their rights. They can be places of love, care, and fulfillment but, too often, they are also spaces where women's and girls' rights are violated, their voices are stifled, and where gender inequality prevails. In today's changing world, laws and policies need to be based on the reality of how families live. UN Women's flagship report, "Progress of the world's women 2019-2020: Families in a changing world", assesses the reality of families today in the context of sweeping economic, demographic, political, and social transformation. The report features global, regional, and national data. It also analyses key issues such as family laws, employment, unpaid care work, violence against women, and families and migration. At a critical juncture for women's rights, this landmark report proposes a comprehensive family-friendly policy agenda to advance gender equality in diverse families. A package of policies to deliver this agenda is affordable for most countries, according to a costing analysis included in the report. When families are places of equality and justice, economies and societies thrive and unlock the full potential of the Sustainable Development Goals (SDGs). The report shows that achieving the SDGs depends on promoting gender equality within families. -- UNWomen.org.

The SAGE Handbook of Human Geography, 2v Roger Lee, Noel Castree, Rob Kitchin, Vicky Lawson, Anssi Paasi, Chris Philo, Sarah Radcliffe, Susan M. Roberts, Charles Withers, 2014-02-22 Superb! How refreshing to see a Handbook that eschews convention and explores the richness and diversity of the geographical imagination in such stimulating and challenging ways. - Peter Dicken, University of Manchester Stands out as an innovative and exciting contribution that exceeds the genre. - Sallie A. Marston, University of Arizona Captures wonderfully the richness and complexity of the worlds that human beings inhabit... This is a stand-out among handbooks! - Lily Kong,

National University of Singapore This wonderfully unconventional book demonstrates human geography's character and significance not by marching through traditional themes, but by presenting a set of geographical essays on basic ideas, practices, and concerns. – Alexander B. Murphy, University of Oregon This SAGE Handbook stands out for its capacity to provoke the reader to think anew about human geography ... essays that offer some profoundly original insights into what it means to engage geographically with the world. – Eric Sheppard, UCLA Published in association with the journal Progress in Human Geography, edited and written by the principal scholars in the discipline, this Handbook demonstrates the difference that thinking about the world geographically makes. Each section considers how human geography shapes the world, interrogates it, and intervenes in it. It includes a major retrospective and prospective introductory essay, with three substantive sections on: Imagining Human Geographies Practising Human Geographies Living Human Geographies The Handbook also has an innovative multimedia component of conversations about key issues in human geography – as well as an overview of human geography from the Editors. A key reference for any scholar interested in questions about what difference it makes to think spatially or geographically about the world, this Handbook is a rich and textured statement about the geographical imagination.

Introducing Human Geographies Paul Cloke, Philip Crang, Mark Goodwin, 2013-12-05 Introducing Human Geographies is the leading guide to human geography for undergraduate students, explaining new thinking on essential topics and discussing exciting developments in the field. This new edition has been thoroughly revised and updated and coverage is extended with new sections devoted to biogeographies, cartographies, mobilities, non-representational geographies, population geographies, public geographies and securities. Presented in three parts with 60 contributions written by expert international researchers, this text addresses the central ideas through which human geographers understand and shape their subject. Part I: Foundations engages students with key ideas that define human geography's subject matter and approaches, through critical analyses of dualisms such as local-global, society-space and human-nonhuman. Part II: Themes explores human geography's main sub-disciplines, with sections devoted to biogeographies, cartographies, cultural geographies, development geographies, economic geographies, environmental geographies, historical geographies, political geographies, population geographies, social geographies, urban and rural geographies. Finally, Part III: Horizons assesses the latest research in innovative areas, from mobilities and securities to non-representational geographies. This comprehensive, stimulating and cutting edge introduction to the field is richly illustrated throughout with full colour figures, maps and photos. These are available to download on the companion website, located at www.routledge.com/9781444135350.

The Crisis in Sociology Joseph Lopreato, Timothy Alan Crippen, 2001-09-01 Crisis in Sociology presents a compelling portrait of sociology's current troubles and proposes a remedy that is likely to inspire controversy. In the authors' view sociology's crisis has deep roots, traceable to the over-ambitious sweep of the discipline's founders. Lopreato and Crippen argue that the most disabling flaw is the failure to discover even a single general law or principle necessary to systematically organize empirical observations, guide inquiry by suggesting falsifiable hypotheses, and form the core of a genuinely cumulative body of knowledge. Crisis in Sociology invites sociologists to consider that participation in the new social science, exemplified by thriving new fields such as evolutionary psychology, may help to build a vigorous, scientific sociology.

Latin American Identity in Online Cultural Production Claire Taylor, Thea Pitman, 2013-03-05 This volume provides an innovative and timely approach to a fast growing, yet still under-studied field in Latin American cultural production: digital online culture. It focuses on the transformations or

continuations that cultural products and practices such as hypermedia fictions, net.art and online performance art, as well as blogs, films, databases and other genre-defying web-based projects, perform with respect to Latin American(ist) discourses, as well as their often contestatory positioning with respect to Western hegemonic discourses as they circulate online. The intellectual rationale for the volume is located at the crossroads of two, equally important, theoretical strands: theories of digital culture, in their majority the product of the anglophone academy; and contemporary debates on Latin American identity and culture.
