*Women in Media Careers* Lee Bollinger,Carole O'Neill,2008 *Women in Media Careers* takes an in-depth look at women's careers in mass media by outlining job descriptions and providing insider tips on how to begin a career. By investigating positions held by women in top media-owning conglomerates, authors Lee Bollinger and Carole O'Neill assert that while women in the media still struggle against the impenetrable glass ceiling, vibrant changes in the industry have left that ceiling more permeable than ever. Women are inching their way into the executive positions at top media conglomerates making them major power players in the industry. After comparing employment data from the Bureau of Labor Statistics, the Equal Employment Opportunity Commission, and the top Fortune 500 media companies, Bollinger and O'Neill emphasize that despite the great odds set against women, they are succeeding in blazing a career path in mass media. Also discussed are the extraordinary women of the media industry who have gone beyond all boundaries and have succeeded in multiple genres of media or entertainment. Informative and inspiring, Bollinger and O'Neill's encouraging book offers women a reliable resource on the career opportunities in the mass media industry and how they can succeed in securing a position at the top.

*Women Workers in the Industrial Revolution* Ivy Pinchbeck,2013-10-08 First Published in 2004. It is often assumed that the woman worker was produced by the Industrial Revolution, and that since that time women have taken an increasing share in the world's work. This theory is, however, quite unsupported by facts. In every industrial system in the past women have been engaged in productive work and their contribution has been recognised as an indispensable factor. This volume is devoted to women's employment in agriculture and the agrarian revolution.

A Woman's Place Is in the Brewhouse Tara Nurin, Teri Fahrendorf, 2021-09-21 • North American Guild of Beer Writers Best Book 2022 Dismiss the stereotype of the bearded brewer. It's women, not men, who've brewed beer throughout most of human history. Their role as family and village brewer lasted for hundreds of thousands of years—through the earliest days of Mesopotamian civilization, the reign of Cleopatra, the witch trials of early modern Europe, and the settling of colonial America. A Woman's Place Is in the Brewhouse celebrates the contributions and influence of female brewers and explores the forces that have erased them from the brewing world. It's a history that's simultaneously inspiring and demeaning. Wherever and whenever the cottage brewing industry has grown profitable, politics, religion, and capitalism have grown greedy. On a macro scale, men have repeatedly seized control and forced women out of the business. Other times, women have simply lost the minimal independence, respect, and economic power brewing brought them. But there are more breweries now than at any time in American history and today women serve as founder, CEO, or head brewer at more than one thousand of them. As women continue to work hard for equal treatment and recognition in the industry, author Tara Nurin shows readers that women have been—and are once again becoming—relevant in the brewing world.

**Women in Jamaican Music** Heather Augustyn,2020-05-21 As the ubiquitous Jamaican musician Bob Marley once famously sang, half the story has never been told. This rings particularly true for the little-known women in Jamaican music who comprise significantly less than half of the Caribbean nation's musical landscape. This book covers the female contribution to Jamaican music and its subgenres through dozens of interviews with vocalists, instrumentalists, bandleaders, producers, deejays and supporters of the arts. Relegated to marginalized spaces, these pioneering women fought for their claim to the spotlight amid oppressive conditions to help create and shape Jamaica's musical heritage.
