Yet to Be Revealed Eric A. Eliason,Terryl L. Givens,2021-09-15 An important part of discipleship is knowing what questions to ask-and which ones have not yet been adequately answered. From the beginning to recent times, prophets have reminded the Saints that the Restoration is ongoing, not an event. Our purpose in assembling this collection of essays is simple: we wish to celebrate the miracle of continuing revelation, and the promise of more to come, that God will yet reveal many great and important things. This means that the essays selected for inclusion represent only a few of the hundreds of possible subjects.Ours is an effort to clarify some of the hazy borders of orthodoxy and to honor the dynamism, the richness, and the possibilities of a Restoration still very much in process of unfolding. Joseph Smith taught, By proving contraries truth is manifest. A fuller understanding of truth can come by keeping multiple perspectives in mind and letting them work themselves out in patience and God's own time, like fruitful leaven.Topics include:What is the nature of God's progress?Where did Book of Mormon events take place?What is women's relationship to priesthood?Is God subject to or the creator of eternal law?Will things get better or worse before the Second Coming?Was Jesus married?Is the Song of Solomon scripture?How was the Book of Mormon translated?

Fugitive Pedagogy Jarvis R. Givens,2021-04-13 A fresh portrayal of one of the architects of the African American intellectual tradition, whose faith in the subversive power of education will inspire teachers and learners today. Black education was a subversive act from its inception. African Americans pursued education through clandestine means, often in defiance of law and custom, even under threat of violence. They developed what Jarvis Givens calls a tradition of “fugitive pedagogy”—a theory and practice of Black education in America. The enslaved learned to read in spite of widespread prohibitions; newly emancipated people braved the dangers of integrating all-White schools and the hardships of building Black schools. Teachers developed covert instructional strategies, creative responses to the persistence of White opposition. From slavery through the Jim Crow era, Black people passed down this educational heritage. There is perhaps no better exemplar of this heritage than Carter G. Woodson—groundbreaking historian, founder of Black History Month, and legendary educator under Jim Crow. Givens shows that Woodson succeeded because of the world of Black teachers to which he belonged: Woodson’s first teachers were his formerly enslaved uncles; he himself taught for nearly thirty years; and he spent his life partnering with educators to transform the lives of Black students. Fugitive Pedagogy chronicles Woodson’s efforts to fight against the “mis-education of the Negro” by helping teachers and students to see themselves and their mission as set apart from an anti-Black world. Teachers, students, families, and communities worked together, using Woodson’s materials and methods as they fought for power in schools and continued the work of fugitive pedagogy. Forged in slavery, embodied by Woodson, this tradition of escape remains essential for teachers and students today.
