Scenario Planning - Revised and Updated Mats Lindgren,H. Bandhold,2009-03-31 Recent research in the field of business strategy has shown that strategic flexibility can be achieved through a scenario planning perspective for long-term competition and performance. The authors have drawn upon examples and case studies to develop a new model for scenario planning that is closely integrated with strategy and innovation.

Not In Kansas Anymore Christine Wicker,2005-10-04 Magic has stepped out of the movies, morphed from the pages of fairy tales, and taken root in the modern mind. Soccer moms are getting voodoo head washings in their backyards, young U.S. soldiers send chants toward pagan gods of war, and a seem-ingly normal family has determined that they are in fact elves. Hundreds of thousands of Americans are turning toward the supernatural in new ways, blending the ancient and the modern for a hyper-charged spirituality. They are reaching back in time to powers that have sustained the human imagina-tion for thousands of years. For many of us, magic is taking hold in less obvious ways. Almost unconsciously we find ourselves noting mysterious synchronicities that point to a plan for our lives. We are heeding premonitions, marking good omens, scrutinizing our dreams, and interpreting visions as direct communications. Thinking we might be called crazy, most of us never utter a word to anyone. But others of us are bolder. The community of Wiccans, witches, and pagans is growing faster than any other religious group in America. Voodoo, hoodoo, and Santeria are attracting middle-class believers across the country. National bestselling author and award-winning religion reporter Christine Wicker leaves no talisman unturned in her hunt to find what's authentic and what's not in America's burgeoning magical reality. Her investigation leads her from the voodoo temples of New Orleans to the witches' covens of Salem to a graveyard in north Florida as she probes the secrets of an underground society and learns lessons she never dreamed could be taught. Her new teachers are an odd crew: Myrna the Death Puppet, Tracy, Queen of the Vampires, and Siva, a tenderhearted satanist, along with people who truly believe they are fairies, werewolves, and dragons. The reporter in Wicker listens harder than she ever has, and she doesn't let herself roll her eyes -- not even once. What she learns repels her, challenges her, and then changes her in ways she never could have imagined. And if you let it, it might change you, too.

Present Shock Douglas Rushkoff,2014-02-25 People spent the twentieth century obsessed with the future. We created technologies that would help connect us faster, gather news, map the planet, and compile knowledge. We strove for an instantaneous network where time and space could be compressed. Well, the future's arrived. We live in a continuous now enabled by Twitter, email, and a so-called real-time technological shift. Yet this now is an elusive goal that we can never quite reach. And the dissonance between our digital selves and our analog bodies has thrown us into a new state of anxiety: present shock.

Climate of Hope Michael Bloomberg,Carl Pope,2017-04-18 The 2016 election left many people who are concerned about the environment fearful that progress on climate change would come screeching to a halt. But not Michael Bloomberg and Carl Pope. They approach climate change from different perspectives, yet they arrive at similar conclusions: without agreeing on every point, they share a belief that cities, businesses, and citizens can lead and win the battle against climate change, no matter which way the political winds in Washington may shift. In *Climate of Hope*, Bloomberg and Pope offer an optimistic look at the challenge of climate change, the solutions they believe hold the greatest promise, and the practical steps that are necessary to achieve them. Writing from their own experiences, and sharing their own stories from government, business, and advocacy, Bloomberg and Pope provide a road map for tackling the most complicated challenge the world has ever faced. Along the way, they turn the usual way of thinking about climate change on its head: from top down to bottom up, from partisan to pragmatic, from costs to benefits, from tomorrow to today, and from fear to hope. Bloomberg and Pope explore climate change solutions that will make the world healthier and more prosperous. They aim to begin a new type of conversation on the issue that will spur bolder action by cities, businesses, and citizens - and even, someday, by Washington.

A Future and a Hope Joshua T. Searle,Mykhailo Cherenkov,2014-12-05 After more than twenty years since the fall of the USSR, the evangelical movement in post-Soviet society has entered a crucial phase in its historical development. Setting out a transformative vision of mission and theological education, this book makes an important contribution towards the renewal of the church in this fascinating--but deeply troubled--part of the world. After the violent and disruptive events that followed the Ukrainian Revolution of Dignity and Freedom in 2013/14, the evangelical movement in post-Soviet society now has an unprecedented opportunity to become a shining example of a church without walls. Searle and Cherenkov reflect on the political, social, cultural, and intellectual legacy of the Soviet Union and offer bold and innovative proposals on how the church can rediscover its prophetic voice by relinquishing its debilitating dependence on the state and, instead, expressing solidarity with the people in their legitimate aspirations for freedom and democracy. Notwithstanding the pessimism and lament expressed on many pages, the authors conclude on a positive note, predicting that the coming years will witness a flowering of evangelical ecumenism in action as Christian solidarity flourishes and overflows denominational boundaries and parochial interests.

Between Past and Future Hannah Arendt,Jerome Kohn,2006-09-26 From the author of *Eichmann in Jerusalem* and *The Origins of Totalitarianism*, "a book to think with through the political impasses and cultural confusions of our day" (*Harper's Magazine*) Hannah Arendt's insightful observations of the modern world, based on a profound knowledge of the past, constitute an impassioned contribution to political philosophy. In *Between Past and Future* Arendt describes the perplexing crises modern society faces as a result of the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, and glory. Through a series of eight exercises, she shows how we can redistill the vital essence of these concepts and use them to regain a frame of reference for the future. To participate in these exercises is to associate, in action, with one of the most original and fruitful minds of the twentieth century.

Origen: Philosophy of History & Eschatology Panayiotis Tzamalikos,2007-05-31 Against claims that Origen causes History to evaporate into barren idealism, his theology is shown to have no other source and aim than historical occurrences. Fronting assertions that he has no eschatological ideas, this *Eschatology* is explicated in all its clarity. Light is cast upon the Aristotelian character of Origen's doctrine of apokatastasis, proving this based on ontological necessity, not a historical one.

Curriculum 21 Heidi Hayes Jacobs,2010-01-05 What year are you preparing your students for? 1973? 1995? Can you honestly say that your school's curriculum and the program you use are preparing your students for 2015 or 2020? Are you even preparing them for today? With those provocative questions, author and educator Heidi Hayes Jacobs launches a powerful case for overhauling, updating, and injecting life into the K-12 curriculum. Sharing her

expertise as a world-renowned curriculum designer and calling upon the collective wisdom of 10 education thought leaders, Jacobs provides insight and inspiration in the following key areas: * Content and assessment: How to identify what to keep, what to cut, and what to create, and where portfolios and other new kinds of assessment fit into the picture. * Program structures: How to improve our use of time and space and groupings of students and staff. * Technology: How it's transforming teaching, and how to take advantage of students' natural facility with technology. * Media literacy: The essential issues to address, and the best resources for helping students become informed users of multiple forms of media. * Globalization: What steps to take to help students gain a global perspective. * Sustainability: How to instill enduring values and beliefs that will lead to healthier local, national, and global communities. * Habits of mind: The thinking habits that students, teachers, and administrators need to develop and practice to succeed in school, work, and life. The answers to these questions and many more make Curriculum 21 the ideal guide for transforming our schools into what they must become: learning organizations that match the times in which we live.

Music after the Fall Tim Rutherford-Johnson,2017-02-01 ...the best extant map of our sonic shadowlands, and it has changed how I listen.—Alex Ross, *The New Yorker* ...an essential survey of contemporary music.—*New York Times* ...sharp, provocative and always on the money. The listening list alone promises months of fresh discovery, the main text a fresh new way of navigating the world of sound.—*The Wire* 2017 Music Book of the Year—Alex Ross, *The New Yorker* *Music after the Fall* is the first book to survey contemporary Western art music within the transformed political, cultural, and technological environment of the post–Cold War era. In this book, Tim Rutherford-Johnson considers musical composition against this changed backdrop, placing it in the context of globalization, digitization, and new media. Drawing connections with the other arts, in particular visual art and architecture, he expands the definition of Western art music to include forms of composition, experimental music, sound art, and crossover work from across the spectrum, inside and beyond the concert hall. Each chapter is a critical consideration of a wide range of composers, performers, works, and institutions, and develops a broad and rich picture of the new music ecosystem, from North American string quartets to Lebanese improvisers, from electroacoustic music studios in South America to ruined pianos in the Australian outback. Rutherford-Johnson puts forth a new approach to the study of contemporary music that relies less on taxonomies of style and technique than on the comparison of different responses to common themes of permission, fluidity, excess, and loss.

Women, Business and the Law 2021 World Bank,2021-04-05 *Women, Business and the Law 2021* is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, *Women, Business and the Law 2021* makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

Movement Or Moment? Patrick Claffey,Joe Egan,2009 This collection of essays was written to mark the fortieth anniversary of the Second General Conference of Latin American Bishops, which convened at Medellín, Colombia, in 1968. Inspired by the Second Vatican Council and seeking to implement its vision, the bishops viewed the occasion as a decisive one for Latin America, which they saw as standing 'on the threshold of a new epoch in the history of our continent'. It appears to have been a time full of zeal for emancipation, of liberation from every form of servitude, of personal maturity and of collective integration. Forty years later, however, it is appropriate to remember the event and to review the significance of liberation theology in light of all that has happened during the intervening period. The colloquium at the Milltown Institute, Dublin, which led to this book, sought to do precisely that: to establish where liberation theology now stands by questioning whether it really is a significant theological and ecclesial movement or merely a moment whose time has passed, and to investigate its enduring legacy.
